4. MAINTENANCE AND CARE

Proper care ensures the longevity and appearance of your Tribesigns Executive Desk.

4.1. Cleaning

- For general cleaning, wipe the desktop and frame with a soft, damp cloth.
- Use a mild detergent solution for more stubborn marks. Avoid harsh chemicals or abrasive cleaners, as these can damage the faux marble finish and metal frame.
- Immediately wipe up any spills to prevent staining or damage to the desktop material.

4.2. General Care

- Avoid placing extremely hot items directly on the desktop. Use coasters or protective pads.
- While the desk is scratch-resistant, avoid dragging sharp objects across the surface to prevent potential damage.
- Periodically check and tighten all assembly hardware to maintain stability.

5. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common solutions:

5.1. Instability or Wobbling

- **Check Foot Pads:** Ensure all adjustable foot pads are properly installed and adjusted to level the desk on uneven surfaces.
- **Tighten Hardware:** Verify that all screws and bolts from the assembly process are securely tightened. Loose connections can cause instability.

5.2. Desktop Surface Issues

- **Yellowing:** Over time, some laminate surfaces may exhibit slight discoloration. This can be influenced by

exposure to sunlight or certain cleaning agents. Ensure proper care as outlined in Section 4.

- **Swelling/Bubbling:** If water or liquids penetrate the seams of the desktop, swelling or bubbling may occur. Always wipe up spills immediately and avoid prolonged exposure to moisture.

5.3. Damaged Components

If any components arrive damaged or become damaged during assembly, do not proceed with assembly. Contact customer service for assistance.
