Tractive XL Smart Dog GPS Tracker (Adventure Edition) Instruction Manual

Brand: Tractive

Model: TG4XL

1. INTRODUCTION AND OVERVIEW

The Tractive XL Smart Dog GPS Tracker (Adventure Edition) is designed to provide comprehensive monitoring and tracking for large dogs (50 lbs and up). This device offers real-time GPS location updates, allowing you to keep track of your pet's whereabouts with unlimited range. Beyond location, it integrates vital signs monitoring, including heart and respiratory rates, to help detect potential health issues early. The tracker also provides insights into your dog's activity and sleep patterns, promoting overall wellness. Its robust, waterproof design ensures durability in various environments.

A subscription is required to enable the built-in SIM and unlimited data for tracking functionalities. Please refer to the 'Subscription Information' section for details.

2. SETUP GUIDE

2.1 Unboxing and Initial Charge

Upon unboxing your Tractive XL Tracker, you will find the tracker unit, a charging cable, and rubber attachment clips. Before first use, fully charge the device. Connect the charging cable to the designated port on the tracker and a USB power source. The indicator light will show charging status.

Figure 2.1: Tractive XL Tracker and companion app interface.

Note: The tracker uses a proprietary charging cable. Ensure you keep it safe for future recharges.

2.2 Attaching to Your Dog's Collar

The Tractive XL Tracker comes with durable rubber attachment clips designed for secure fitting on most dog collars. Select the appropriate clip size if multiple are provided. Thread your dog's collar through the designated slots on the rubber clip, then firmly attach the tracker to the clip. Ensure the tracker is snug against the collar to prevent movement during activity.

Designed for comfort. Built for safety.

Recommended
for dogs above **48 lbs**

**Battery life
of up to 1 month**

**100%
Waterproof**

**Bite-proof
fiberglass
casing**

2.3 App Download and Account Setup

Download the official Tractive GPS app from your device's app store (available for Android and iOS). Follow the on-screen instructions to create an account and pair your new Tractive XL Tracker. You will need to enter the tracker's ID, usually found on the device itself or in the packaging.

2.4 Subscription Information

A Tractive subscription plan is essential for the tracker's functionality, covering the built-in SIM card and unlimited data usage for GPS tracking and health monitoring features. Plans vary in duration and features. Activate your subscription through the Tractive app after pairing your device. A risk-free 30-day money-back guarantee is typically offered.

Subscription required

Tractive connects directly to cellular networks, just like your phone, to provide live location with unlimited data and unlimited range

1 year

\$9 / month

\$108 billed annually

2 years

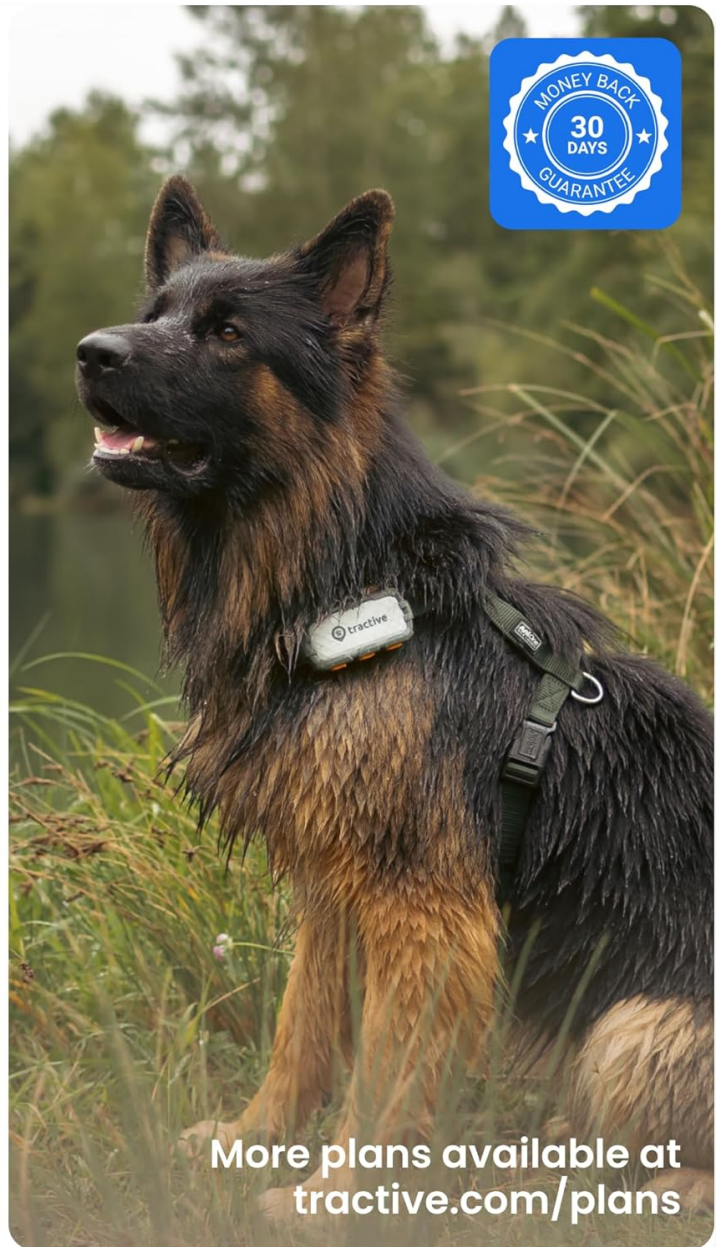

\$6 / month

\$144 billed every 2 years

5 years

\$5 / month

\$300 billed every 5 years

3. OPERATING INSTRUCTIONS

3.1 Real-Time GPS Tracking

Once activated, the Tractive app provides live location updates of your dog every 2-3 seconds. Open the app and navigate to the map view to see your dog's current position. This feature has no distance limits, allowing you to track your pet anywhere with cellular network coverage.

Real-time GPS Tracking

Track your dog's location live
with no distance limits

Figure 3.1: Real-time GPS tracking interface within the Tractive app.

3.2 Virtual Fences and Escape Alerts

Set up safe zones (virtual fences) within the app to define boundaries for your dog. If your dog leaves a designated safe zone, you will receive an instant alert on your smartphone. This feature is crucial for preventing escapes and quickly locating your pet if they wander off.

Escape Alerts

Create a virtual fence so you get an alert if they escape

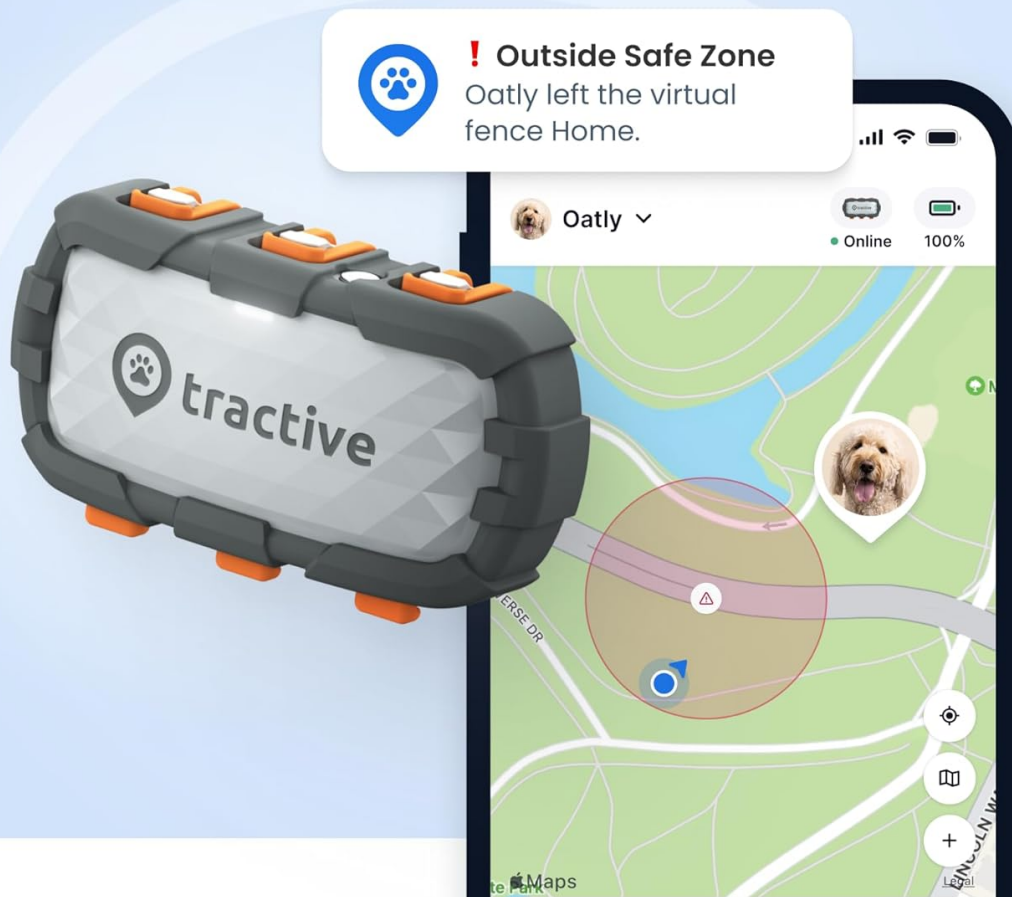

Figure 3.2: Virtual fence setup and escape alert notification.

3.3 Vital Signs Monitoring

The Tractive XL Tracker monitors your dog's heart and respiratory rates. Changes in these vital signs can indicate potential health issues. The app provides daily insights and alerts for unusual changes, allowing for early intervention and consultation with a veterinarian.

3.4 Health, Sleep & Activity Monitoring

The tracker continuously monitors your dog's daily activity levels and sleep patterns. The app provides detailed insights, including active minutes, calories burned, and sleep duration. You will receive notifications for unusual changes in activity or sleep, prompting you to address potential health concerns with your vet.

Health & Sleep Activity Alerts

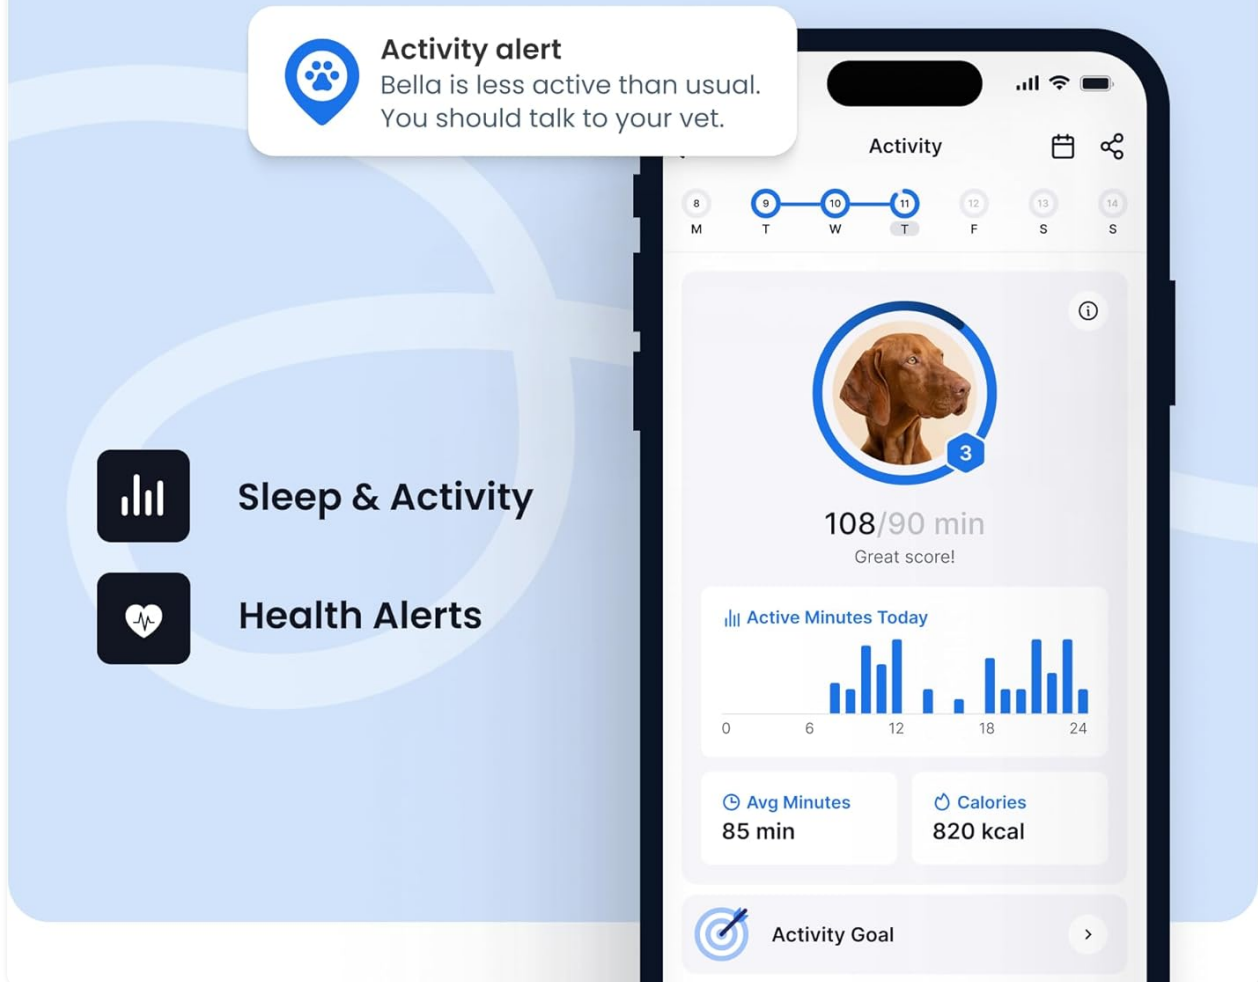

Figure 3.4: Daily health and activity insights provided by the Tractive app.

3.5 Light & Sound Features

The Tractive app allows you to activate a light and sound feature on the tracker. This can be useful for locating your dog in low-light conditions or if they are hiding. The sound feature can also be used as a training aid to recall your dog.

4. MAINTENANCE

4.1 Battery Life and Charging

The Tractive XL Tracker offers up to 1 month of battery life, depending on usage and tracking intensity. To maximize battery life, ensure your tracker is within a Power Saving Zone (e.g., your home Wi-Fi network) when not actively tracking outdoors. Recharge the device using the provided magnetic charging cable when the battery level is low, as indicated by the app or the device's LED.

4.2 Durability and Waterproofing

The Adventure XL tracker features a fiberglass-reinforced casing, making it highly durable and bite-proof. It is 100% waterproof, suitable for any environment including mud, snow, or swimming. This robust construction ensures the device withstands the rigors of active dogs.

4.3 Cleaning

To clean the tracker, wipe it with a damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the casing or internal components. Ensure the charging contacts are clean and dry before recharging.

5. TROUBLESHOOTING

- **Tracker not connecting/no signal:** Ensure the tracker is charged and within an area with good cellular network coverage. Check your subscription status in the app. Restart the tracker and your smartphone.
- **Inaccurate location:** GPS accuracy can be affected by dense urban areas, heavy tree cover, or indoor environments. Move to an open outdoor area for best results.
- **Battery draining quickly:** Verify that Power Saving Zones are correctly set up for areas where your dog spends most of its time (e.g., home Wi-Fi). Frequent Live Tracking or poor cellular signal can increase battery consumption.
- **App issues:** Ensure your Tractive app is updated to the latest version. Try force-closing and reopening the app. If issues persist, reinstall the app.

For further assistance, please refer to the Tractive Help Center within the app or on their official website.

6. SPECIFICATIONS

Feature	Detail
Item Model Number	TG4XL
Item Weight	4.1 ounces (115 Grams)
Product Dimensions (LxWxH)	2.01 x 0.94 x 3.5 inches
Material	Plastic (Fiberglass-reinforced casing)
Color	Gray
Battery Type	1 Lithium Polymer battery (included)
Battery Life	Up to 1 month
Waterproof	Yes

Connectivity Technology	Cellular
Special Features	Waterproof, Activity Tracker, Location History, Geo-Fence, Real Time Tracking, Vital Signs Monitoring
Target Audience	Dogs 50 lbs and up
