# Cecotec Cafelizzia Fast Pro 01598 Automatic Espresso Coffee Machine User Manual

Model: 01598

## 1. INTRODUCTION

Thank you for choosing the Cecotec Cafelizzia Fast Pro 01598 Automatic Espresso Coffee Machine. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read these instructions carefully before first use and keep them for future reference.

## 2. SAFETY INSTRUCTIONS

Always observe basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

### 2.1 General Safety

- This appliance is intended for household use only. Do not use outdoors.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep the appliance out of reach of children and individuals with reduced physical, sensory, or mental capabilities.
- Always unplug the appliance from the power outlet before cleaning, maintenance, or if it is not in use for an extended period.
- Do not operate the appliance with a damaged cord or plug, or if the appliance malfunctions or has been damaged in any manner.

### 2.2 Electrical Safety

- Ensure the voltage indicated on the appliance corresponds to your local mains voltage before connecting.
- Do not let the power cord hang over the edge of a table or counter, or touch hot surfaces.
- Never pull the power cord to disconnect the appliance from the mains; always grasp the plug.

## 3. PRODUCT OVERVIEW

---

Familiarize yourself with the components of your Cecotec Cafelizzia Fast Pro coffee machine.

### 3.1 Main Components

- **Control Panel:** Touch-sensitive display for selecting drinks and adjusting settings.
- **Coffee Spout:** Dispenses prepared coffee.
- **Milk Tank:** Detachable container for milk, used for cappuccinos and lattes.
- **Water Tank:** Removable tank for water supply.
- **Coffee Bean Container:** Located at the top, for whole coffee beans.
- **Grinder Adjustment Dial:** Inside the bean container, for setting grind fineness.
- **Drip Tray:** Collects excess water and coffee drips.
- **Coffee Grounds Container:** Collects used coffee pucks.

## 4. SETUP AND FIRST USE

Follow these steps to prepare your coffee machine for its first use.

### 4.1 Unpacking

1. Carefully remove all packaging materials from the appliance.
2. Check that all components are present and undamaged.
3. Clean all removable parts (water tank, milk tank, drip tray, coffee grounds container) with warm water and a mild detergent. Rinse thoroughly and dry.

## 4.2 Filling the Water Tank

1. Remove the water tank from the back or side of the machine.
2. Fill the tank with fresh, cold drinking water up to the MAX level (capacity: 1.1 liters).
3. Place the water tank back into the machine securely.

Figure 3: A hand pouring water into the removable water tank of the coffee machine.

## 4.3 Filling the Coffee Bean Container

1. Open the lid of the coffee bean container on top of the machine.
2. Pour fresh, whole coffee beans into the container (capacity: 150g). Do not use ground coffee, instant coffee, or caramelized beans.
3. Close the lid securely.

Figure 4: A wooden scoop filling whole coffee beans into the integrated grinder compartment.

#### 4.4 Initial Priming

1. Plug the appliance into a grounded power outlet.
2. Turn on the machine. It will perform an automatic rinsing cycle. Place a container under the coffee spout to collect the water.
3. The machine is ready for use once the rinsing cycle is complete and the display shows the main menu.

### 5. OPERATING INSTRUCTIONS

---

Learn how to prepare various coffee beverages with your Cafelizzia Fast Pro.

#### 5.1 Making Espresso or Americano

1. Place a cup under the coffee spout.
2. On the control panel, select either "Espresso" or "Americano".

3. The machine will automatically grind the beans, brew, and dispense your coffee.
4. To adjust the coffee quantity or intensity, use the '+' and '-' buttons on the display before brewing. The machine remembers your last setting.

Figure 5: The coffee machine dispensing two shots of espresso simultaneously into glass cups.

Figure 6: A finger interacting with the touch control panel to adjust coffee volume or intensity.

## 5.2 Preparing Cappuccino or Latte

1. Fill the milk tank with cold milk (capacity: 400ml) and attach it to the machine.
2. Place a suitable cup under the coffee and milk spouts.
3. Select "Cappuccino" or "Latte" on the control panel.
4. The machine will automatically froth the milk and then dispense the coffee.
5. After preparing milk-based drinks, it is recommended to perform a quick rinse of the milk system.

Figure 7: The Cecotec Cafelizzia Fast Pro dispensing a layered latte into a tall glass mug, with the milk tank attached.

### 5.3 Adjusting Grind Fineness

- The integrated grinder has 5 levels of fineness.
- To adjust, open the coffee bean container lid and turn the adjustment dial.
- A finer grind (lower number) results in a stronger espresso, while a coarser grind (higher number) produces a milder taste. Adjust only when the grinder is operating.

## 6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance ensure optimal performance and longevity of your coffee machine.

## 6.1 Daily Cleaning

- **Drip Tray and Coffee Grounds Container:** Empty and rinse daily. The machine will indicate when the grounds container is full.
- **Milk System:** After each milk-based drink, perform a quick rinse cycle for the milk system to prevent blockages. Detach and clean the milk tank and its components regularly with warm water.
- **Water Tank:** Rinse the water tank regularly and refill with fresh water.

Figure 8: The coffee machine displaying 'CLEAN' and performing a rinsing cycle, with water flowing into the drip tray.

## 6.2 Descaling

- The machine will prompt you when descaling is required.
- Use a suitable descaling solution specifically designed for coffee machines.
- Follow the instructions provided with the descaling solution and the machine's display prompts to complete the descaling process.
- Regular descaling prevents limescale buildup and maintains brewing quality.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your coffee machine.

Problem	Possible Cause	Solution
No coffee is dispensed.	Water tank empty; coffee beans empty; brewing unit blocked.	Refill water tank; refill coffee beans; clean the brewing unit.
Coffee is too weak or watery.	Grind setting too coarse; insufficient coffee quantity; old coffee beans.	Adjust grind to a finer setting; increase coffee intensity; use fresh coffee beans.
Milk is not frothing correctly.	Milk system blocked; milk tank not properly attached; type of milk used.	Clean the milk system thoroughly; ensure milk tank is correctly installed; use cold, fresh milk (preferably semi-skimmed or whole milk).
Machine displays an error message.	Specific internal issue.	Refer to the display message for specific instructions. If persistent, contact customer support.
Loud noises during grinding.	Foreign object in grinder; grinder worn out.	Check for foreign objects and remove. If noise persists or machine malfunctions, contact customer support.

## 8. SPECIFICATIONS

Technical details of the Cecotec Cafelizzia Fast Pro 01598 coffee machine.

Feature	Detail
