

AULA AWK310

AULA AWK310 Wireless Bluetooth Multi-Device Keyboard User Manual

Model: AWK310

INTRODUCTION

Thank you for choosing the AULA AWK310 Wireless Bluetooth Multi-Device Keyboard. This compact and versatile keyboard is designed for seamless connectivity across various operating systems, including Windows, Apple iOS, Android, and Chrome OS. Its space-saving design and comfortable typing experience make it ideal for use with PCs, Macs, laptops, smartphones, and tablets.

This manual provides detailed instructions to help you set up, operate, maintain, and troubleshoot your new keyboard, ensuring optimal performance and longevity.

PACKAGE CONTENTS

- AULA AWK310 Wireless Bluetooth Keyboard
- 2 x AAA Batteries (pre-installed or included)
- User Manual

SETUP

Battery Installation

The AULA AWK310 keyboard requires 2 AAA batteries for operation. Ensure the batteries are installed correctly according to the polarity markings inside the battery compartment.

Note: The keyboard comes with batteries included.

Bluetooth Pairing Instructions

Follow these steps to connect your AULA AWK310 keyboard to your device:

1. Install the batteries correctly.
2. Flip the power switch at the bottom of the keyboard to the left, to the "ON" position. The keyboard

indicator light will illuminate.

3. Press and hold the **FN** key and the **1** key simultaneously for 5 seconds. At this point, the first indicator light on the keyboard will begin to flash rapidly, indicating it is in pairing mode.
4. On your computer or other Bluetooth-enabled device, search for available Bluetooth devices.
5. Select "AWK310" from the list of found devices and click to connect.

Important: The device you are connecting to must support Bluetooth 4.0 or above for successful pairing.

Bluetooth wireless connection

MAINTENANCE

Cleaning

To clean your keyboard, gently wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the keyboard's finish. Ensure the keyboard is powered off before cleaning.

Battery Replacement

When the keyboard's performance diminishes or the indicator light suggests low power, replace the AAA batteries. Always use new batteries and dispose of old ones responsibly.

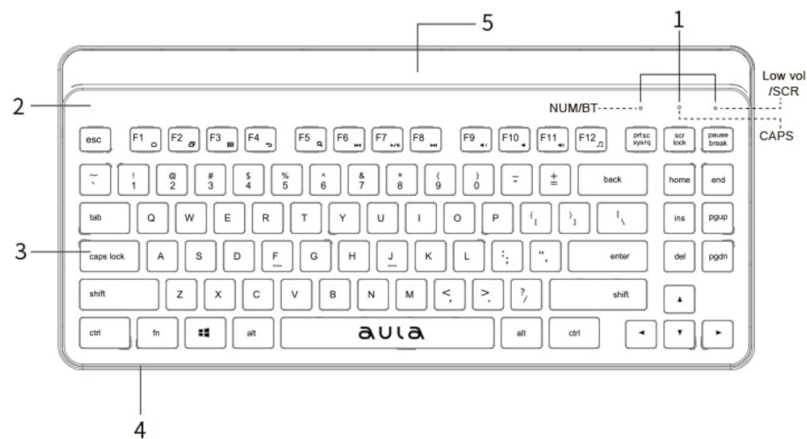

TROUBLESHOOTING

- **Keyboard not connecting:**
 - Ensure the keyboard is powered on.
 - Verify that Bluetooth is enabled on your device.

- Make sure your device supports Bluetooth 4.0 or above.
 - Re-enter pairing mode on the keyboard (FN+1 for 5 seconds) and try connecting again.
 - Check battery levels and replace if necessary.
 - Remove the keyboard from your device's Bluetooth list and attempt to pair again.
- **Keys not responding or delayed input:**
 - Check battery levels and replace if low.
 - Ensure the keyboard is within the effective wireless range (up to 10 meters).
 - Minimize interference from other wireless devices.
 - Restart both the keyboard (turn off/on) and your connected device.
