YITAHOME PSPPPC-0047-E

YITAHOME Large Indoor Cat Cage with Balcony Instruction Manual

Model: PSPPPC-0047-E

INTRODUCTION

Thank you for choosing the YITAHOME Large Indoor Cat Cage with Balcony. This manual provides essential information for the safe assembly, operation, and maintenance of your new cat enclosure. Please read these instructions carefully before assembly and retain them for future reference.

SAFETY INSTRUCTIONS

- Ensure all connectors are securely fastened during assembly to prevent collapse.
- Always use the provided anti-tip device to anchor the cage to a wall, especially if cats are active climbers.
- Regularly inspect the cage for any loose or damaged parts. Replace or repair as necessary.
- Do not allow children to climb on or play inside the cage unsupervised.
- Place the cage on a flat, stable surface to prevent tipping.
- Keep small children and pets away from assembly area during construction to avoid injury from small parts.

Image: A visual representation of the anti-tip device, demonstrating how it should be anchored to a wall using expansion screws and anti-reverse belts to enhance cage stability and prevent accidental tipping. This is a critical safety feature.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Metal Wire Panels (various sizes for walls, doors, and roof)
- Plastic Connectors (for joining panels)
- PVC Platforms (for levels within the cage)
- Balcony Platform (removable and waterproof)
- Cable Ties (for enhanced stability)
- Anti-tip Accessories (expansion screws, anti-reverse belts)
- Assembly Hammer (optional, for securing connectors)

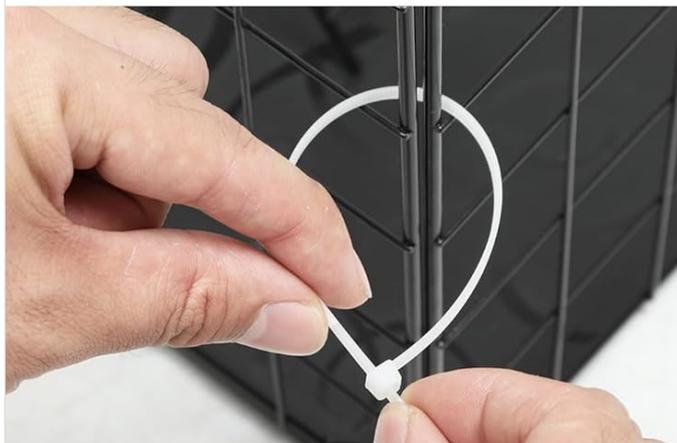

LARGE LOAD BEARING

Made from PVC material, it can bear up to 30 lbs with durability and is not prone to damage

PLASTIC CONNECTORS

Provide secure structural stability to the overall cage framework

CABLE TIES

Ensure enhanced connections for optimal stability

ASSEMBLY INSTRUCTIONS

Assembly typically takes 10-25 minutes for one or two people. The modular design allows for flexible configuration.

1. **Plan Your Layout:** Before connecting panels, decide on the desired configuration. The cage is designed for DIY assembly, allowing customization.
2. **Connect Base Panels:** Start by connecting the bottom wire panels using the plastic connectors. Ensure each panel corner is fully inserted into the connector slots.
3. **Build Upwards:** Continue adding side and back panels, working your way up level by level. Use connectors at every joint.
4. **Install Platforms:** Once a level's walls are complete, place the PVC platforms securely onto the wire panels. These platforms can bear up to 30 lbs.
5. **Attach Doors:** Integrate the door panels into the desired locations. Ensure the latches operate smoothly.

6. **Add Balcony:** Attach the removable balcony platform as desired.
7. **Reinforce with Cable Ties:** For enhanced stability, use the provided cable ties to secure connections between panels, especially at critical stress points.
8. **Install Anti-Tip Device:** Securely anchor the cage to a wall using the expansion screws and anti-reverse belts. Refer to the safety instructions for details.

MORE STURDY, MORE HAPPY!

The hook-top stair is placed on the iron frame, making the stair and platform more stable and firm.

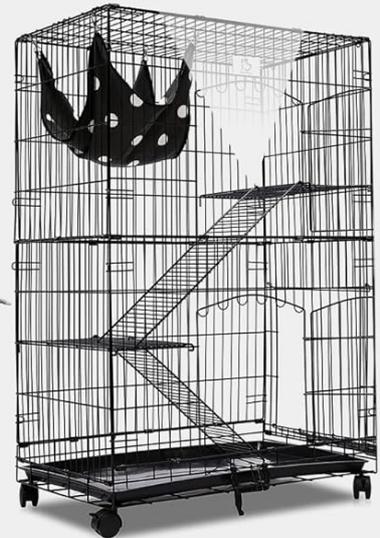

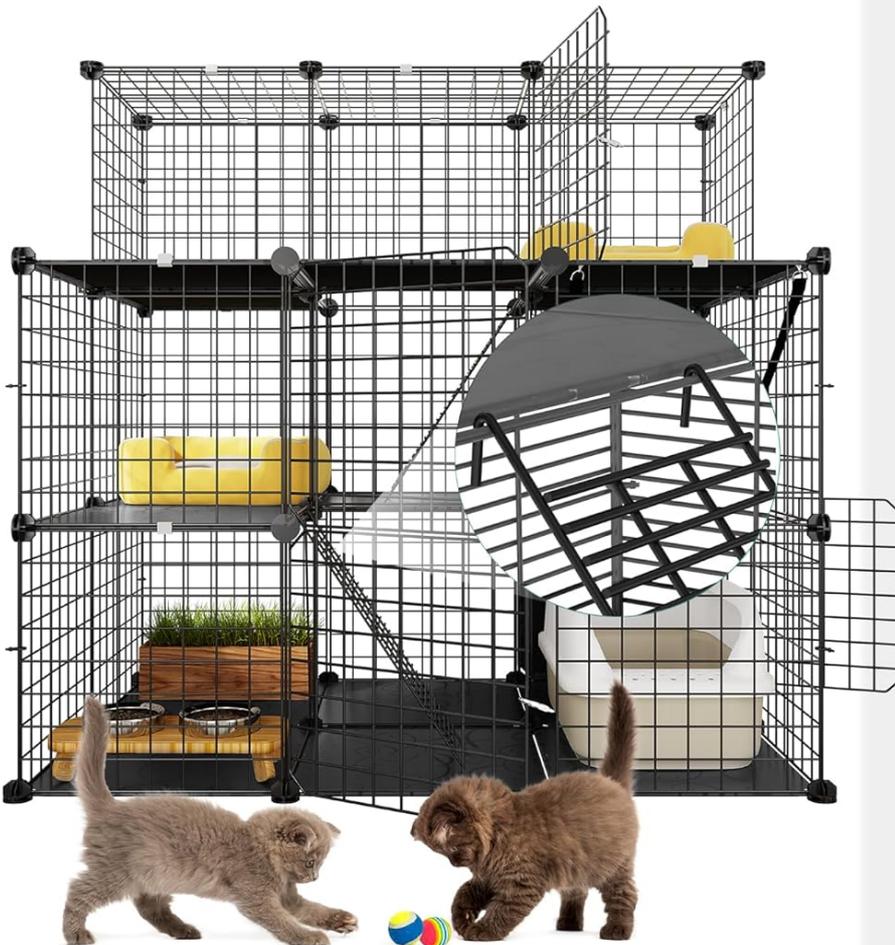

Image: A visual comparison illustrating the enhanced stability of the YITAHOME cat cage, emphasizing the secure hook-top stair and firm platform placement compared to less stable designs. This highlights the robust construction for active pets.

OPERATING INSTRUCTIONS

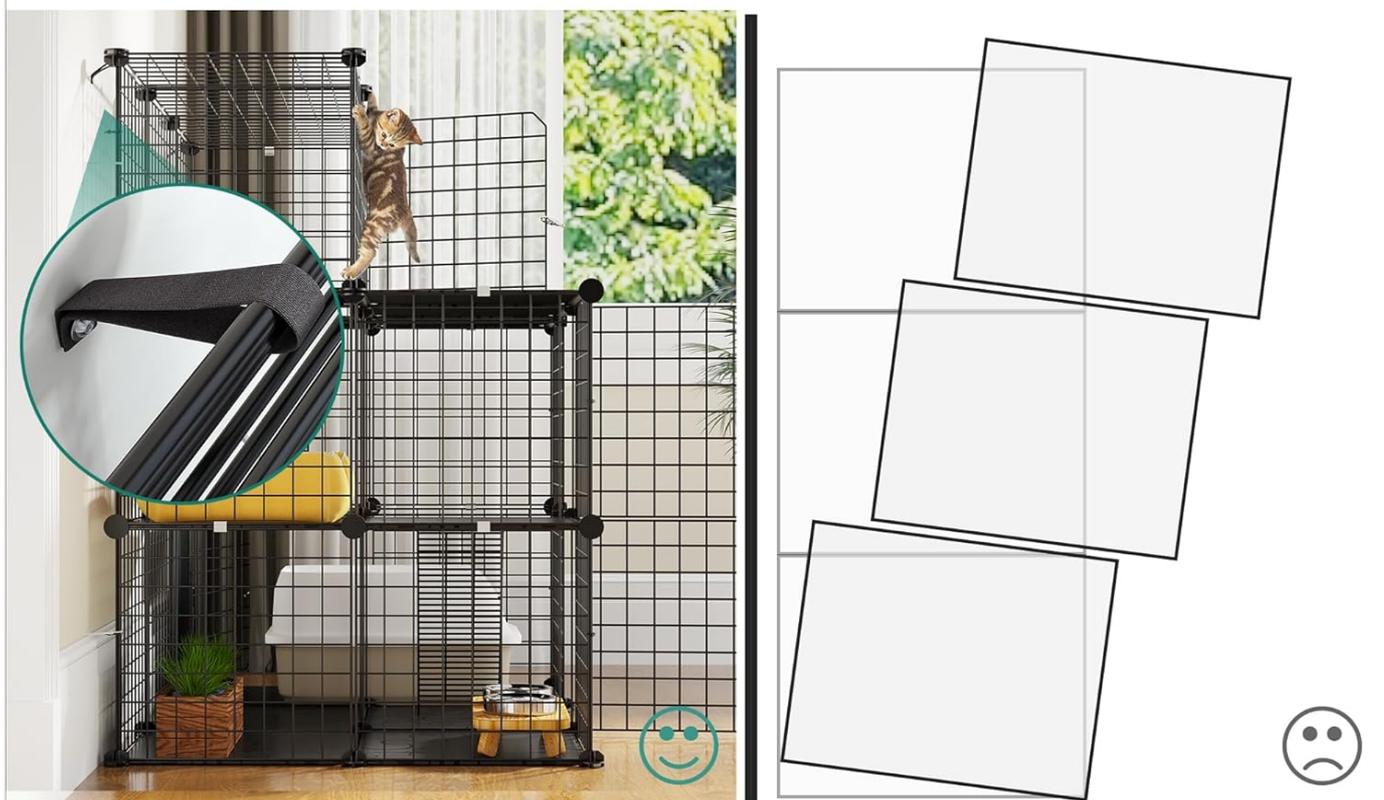

The YITAHOME cat cage is designed for versatility and ease of use for your pets.

- **Access Doors:** The cage features three front doors and a balcony door, all equipped with secure latches to prevent escapes while allowing easy access for pets and owners.
- **Multi-Level Play:** Cats can climb, jump, and play across the three spacious levels.

- **Balcony Use:** The semi-open balcony provides an observation spot for your cat and facilitates interaction. It is also removable and waterproof, suitable for placing a litter box for easy cleaning.
- **Indoor/Outdoor Use:** This pet playpen is suitable for various indoor and outdoor settings, including bedrooms, living rooms, cat patios, and travel trailers.

ANTI-TIP DEVICE

Anchor to the wall with expansion screws and anti-reverse belts

Anti-tip accessories included

Image: A cat is shown comfortably sitting on the integrated balcony of the YITAHOME cat cage, demonstrating its function as an elevated resting or observation area for pets.

MAINTENANCE

Regular cleaning and inspection will ensure the longevity and hygiene of your cat cage.

- **Cleaning:** Wipe down wire panels and PVC platforms with a damp cloth and mild, pet-safe cleaner. Ensure all surfaces are dry before allowing pets back inside.
- **Balcony Cleaning:** The removable and waterproof balcony can be easily detached for thorough cleaning, especially if used as a litter box area.

- **Inspection:** Periodically check all connectors, latches, and cable ties for tightness and wear. Tighten or replace as needed.
- **Rust Prevention:** The metal structure is designed to be rust-resistant. However, avoid prolonged exposure to extreme moisture to maintain its condition.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cage feels unstable or wobbly.	Connectors not fully engaged; insufficient cable ties; not anchored to wall.	Ensure all plastic connectors are pushed in completely. Add more cable ties at panel joints. Install or re-check the anti-tip device.
Doors do not close securely.	Door panel misaligned; latch mechanism obstructed or damaged.	Adjust the door panel within its connectors. Clear any obstructions from the latch. If damaged, contact support for replacement parts.
Platforms sag or feel weak.	Platform not seated correctly; excessive weight.	Ensure platforms are fully supported by the wire panels. Verify the weight of pets and items does not exceed the 30 lbs limit per platform.

SPECIFICATIONS

Model Number:	PSPPPC-0047-E
Dimensions (L x W x H):	106 x 71 x 106 cm (41 x 28 x 41 inches)
Weight:	11.75 kg (25.9 lbs)
Material:	Metal wire, PVC platforms
Number of Tiers:	3
Number of Doors:	3 front doors + 1 balcony door
Special Features:	Removable balcony, spacious design, secure latches, DIY configuration, anti-tip device included.
Recommended Species:	Cats, small animals
