VGR V-108

VGR V-108 Professional 10-in-1 Grooming Kit User Manual

Model: V-108 | Brand: VGR

INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your VGR V-108 Professional 10-in-1 Grooming Kit. Please read all instructions carefully before first use and retain this manual for future reference. The VGR V-108 is a versatile grooming tool designed for face, head, nose, ear, and body grooming, offering a 120-minute runtime on a single charge.

SAFETY INFORMATION

Important Safety Precautions:

- Keep this appliance out of reach of children.
- Use the grooming kit only as instructed in this manual.
- This product is not suitable for use on animals.
- Avoid using or storing the device in high-temperature environments.
- Do not immerse the main unit in water. Only the attachment heads may be rinsed under running water.
- Ensure the device is fully charged before initial use to optimize battery life.

PRODUCT FEATURES

- **10-in-1 Grooming System:** Includes 5 interchangeable heads (full-size trimmer, precision trimmer, design trimmer, nose trimmer, and shaver) to cover all grooming needs.
- **LED Display:** Provides real-time updates on battery percentage, RPM speed, and maintenance indicators for informed use.
- **Long Battery Life:** Offers up to 120 minutes of cordless operation on a single charge, suitable for multiple grooming sessions.
- **7 Length Settings:** Allows for precise styling with adjustable length options for various hair lengths and styles.
- **Ergonomic Design:** Features a comfortable, non-slip grip for maximum control, even in hard-to-reach areas.
- **Durable Construction:** Made from premium materials for consistent, long-lasting performance.
- **Detachable Heads:** Easily switch between trimming and shaving heads for efficient transitions between tasks.
- **Portable & Compact:** Lightweight and travel-ready, includes a storage base for organized storage at home or on the go.

SETUP AND CHARGING

- 1. Unpacking:** Carefully remove all components from the packaging.
- 2. Initial Charge:** Before first use, fully charge the trimmer. Connect the Type-C USB cable to the trimmer and a suitable power source. The LED display will indicate charging status and battery percentage. A full charge takes approximately 1.5 hours and provides up to 120 minutes of runtime.
- 3. Attaching Heads:** To attach an interchangeable head, align the head with the main unit and press firmly until it clicks into place. To remove, gently pull the head away from the main unit.
- 4. Attaching Guide Combs:** Select the desired guide comb and slide it onto the trimmer head until it locks securely.

OPERATING INSTRUCTIONS

- Power On/Off:** Press the power button to turn the trimmer on or off. The LED display will activate upon powering on.
- Selecting Attachment:** Choose the appropriate interchangeable head and guide comb for your desired grooming task (e.g., full-size trimmer for hair, nose trimmer for nasal hair).
- Trimming:**
 - For hair and beard trimming, move the trimmer gently against the direction of hair growth.
 - For nose and ear hair, carefully insert the nose trimmer head into the nostril or ear canal and move it in a circular motion.
 - For precision work and detailing, use the precision or design trimmer heads.
- Adjusting Length:** If using guide combs, ensure the correct length setting is selected for your desired style.
- Corded/Cordless Use:** The trimmer can be used cordlessly after charging or directly connected to a power source for corded operation.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your grooming kit.

1. **Cleaning Blades:** After each use, turn off the trimmer and remove the attachment head. Use the provided cleaning brush to remove any hair clippings from the blades. The attachment heads can be rinsed under running water. Ensure they are completely dry before reattaching or storing.
2. **Oiling Blades:** Apply a small drop of the provided lubricating oil to the blades after every few uses or when you notice reduced performance. Turn the trimmer on for a few seconds to distribute the oil evenly. This helps maintain blade sharpness and smooth operation.
3. **Storage:** Store the trimmer and all accessories in the provided storage base or a dry, safe place away from moisture and direct sunlight.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------------|---|--|
| Trimmer does not turn on. | Low battery or not charged. | Charge the trimmer fully using the provided USB cable. |
| Reduced cutting performance. | Blades are dirty or not oiled. | Clean the blades with the brush and apply lubricating oil. |
| Attachment head falls off. | Head not securely attached. | Ensure the head clicks firmly into place when attaching. |
| Trimmer makes unusual noise. | Blades may be obstructed or require oiling. | Clean and oil the blades. If the issue persists, contact customer support. |
