

Gavigain B0CLB2QDDY

Gavigain 4G USB WiFi Dongle Instruction Manual

Model: B0CLB2QDDY

1. INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your Gavigain 4G USB WiFi Dongle. Please read this manual thoroughly before using the device to ensure optimal performance and safety.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Gavigain 4G USB WiFi Dongle
- 1 x Instruction Manual

3. PRODUCT OVERVIEW

The Gavigain 4G USB WiFi Dongle is a portable device designed to provide internet access by converting a 4G cellular signal into a Wi-Fi hotspot. It supports multiple 4G networks and allows up to 10 devices to connect simultaneously.

Plug and Play Enjoy 4G network

Connect powered device
and insert SIM card
Use SIM card data to access
the Internet anytime, anywhere

Figure 3.1: Gavigain 4G USB WiFi Dongle, front view.

Key Features:

- **Multi-User Support:** Allows up to 10 users to share the internet connection.
- **Plug-and-Play Functionality:** Simple setup by inserting a SIM card and connecting to a USB power source.
- **Multi-Device Connectivity:** Supports simultaneous internet access for various devices including mobile phones, laptops, computers, and smart TVs.
- **Fast and Stable Internet:** Provides high-speed 4G network access with stable signal indicators.
- **Secure Connection:** Features WPA and WPA2 WiFi encryption for enhanced wireless network security.

Support Multiple 4G Networks

Internet sharing for up to 10 wifi users
Powered by devices with USB ports
Such as phone charger, car charger,
mobile power

4. SETUP

Follow these steps to set up your 4G USB WiFi Dongle:

1. **Insert Micro SIM Card:** Locate the Micro SIM card slot on the device. Carefully insert your activated Micro SIM card into the slot until it clicks into place. Ensure the card is oriented correctly.
2. **Connect to Power:** Plug the USB connector of the dongle into a compatible USB power source. This can be a mobile phone charger, car charger, power bank, or a USB port on a laptop/computer.

Figure 4.1: USB-A connector for power supply.

The device is designed for plug-and-play operation. Once powered, it will automatically detect the SIM card and establish a 4G network connection, broadcasting a Wi-Fi signal.

5. OPERATING INSTRUCTIONS

After successful setup, the device will begin broadcasting a Wi-Fi network. The indicator lights will provide status information.

Figure 5.1: Indicator lights for signal and Wi-Fi status.

Connecting Devices:

1. On your Wi-Fi enabled device (e.g., smartphone, laptop), search for available Wi-Fi networks.
2. Select the network name (SSID) corresponding to your Gavigain 4G USB WiFi Dongle. The SSID and password are typically found on a label on the device or in the packaging.
3. Enter the Wi-Fi password when prompted.
4. Once connected, your device will have internet access through the dongle's 4G connection.

The dongle supports up to 10 simultaneous connections. For security, the device utilizes WPA and WPA2 encryption protocols. It is recommended to change the default Wi-Fi password for enhanced security.

6. MAINTENANCE

To ensure the longevity and proper functioning of your Gavigain 4G USB WiFi Dongle, follow these maintenance guidelines:

- Keep the device clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.

- Do not drop or subject the device to strong impacts.
- Ensure the Micro SIM card slot is free from debris.
- Disconnect the device from the power source when not in use for extended periods.

7. TROUBLESHOOTING

If you encounter issues with your Gavigain 4G USB WiFi Dongle, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No internet connection	SIM card not inserted correctly or not activated; no 4G signal; device not powered.	Ensure SIM card is properly inserted and active. Check for 4G network availability in your location. Verify the device is receiving power from the USB source.
Slow internet speed	Weak 4G signal; too many connected devices; network congestion.	Move to an area with better 4G signal. Disconnect unnecessary devices. Contact your service provider if issues persist.
Cannot connect to Wi-Fi	Incorrect Wi-Fi password; device not broadcasting Wi-Fi.	Double-check the Wi-Fi password. Ensure the dongle is powered on and its Wi-Fi indicator light is active. Restart the dongle and your connecting device.
Device is not recognized by computer	USB port issue; driver not installed (if applicable).	Try a different USB port. Ensure the device is designed for data transfer if you expect it to be recognized as a storage device or modem by a computer.

8. SPECIFICATIONS

Technical specifications for the Gavigain 4G USB WiFi Dongle:

Feature	Detail
Model	B0CLB2QDDY
Item Type	4G USB WiFi
Material	ABS
Color	White
SIM Card Slot	Micro SIM Card
4G LTE Bands	B1, B3, B5, B40
Wi-Fi Support	802.11 b, g, n
Max Users	Up to 10
Item Weight	1.41 ounces
Manufacturer	Gavigain

9. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact Gavigain customer service through the retailer where the product was purchased. Keep your purchase receipt for warranty claims.
