

IMPRESA Facial Steamer Cleaner & Descaler Solution

IMPRESA Facial Steamer Cleaner & Descaler Solution Instruction Manual

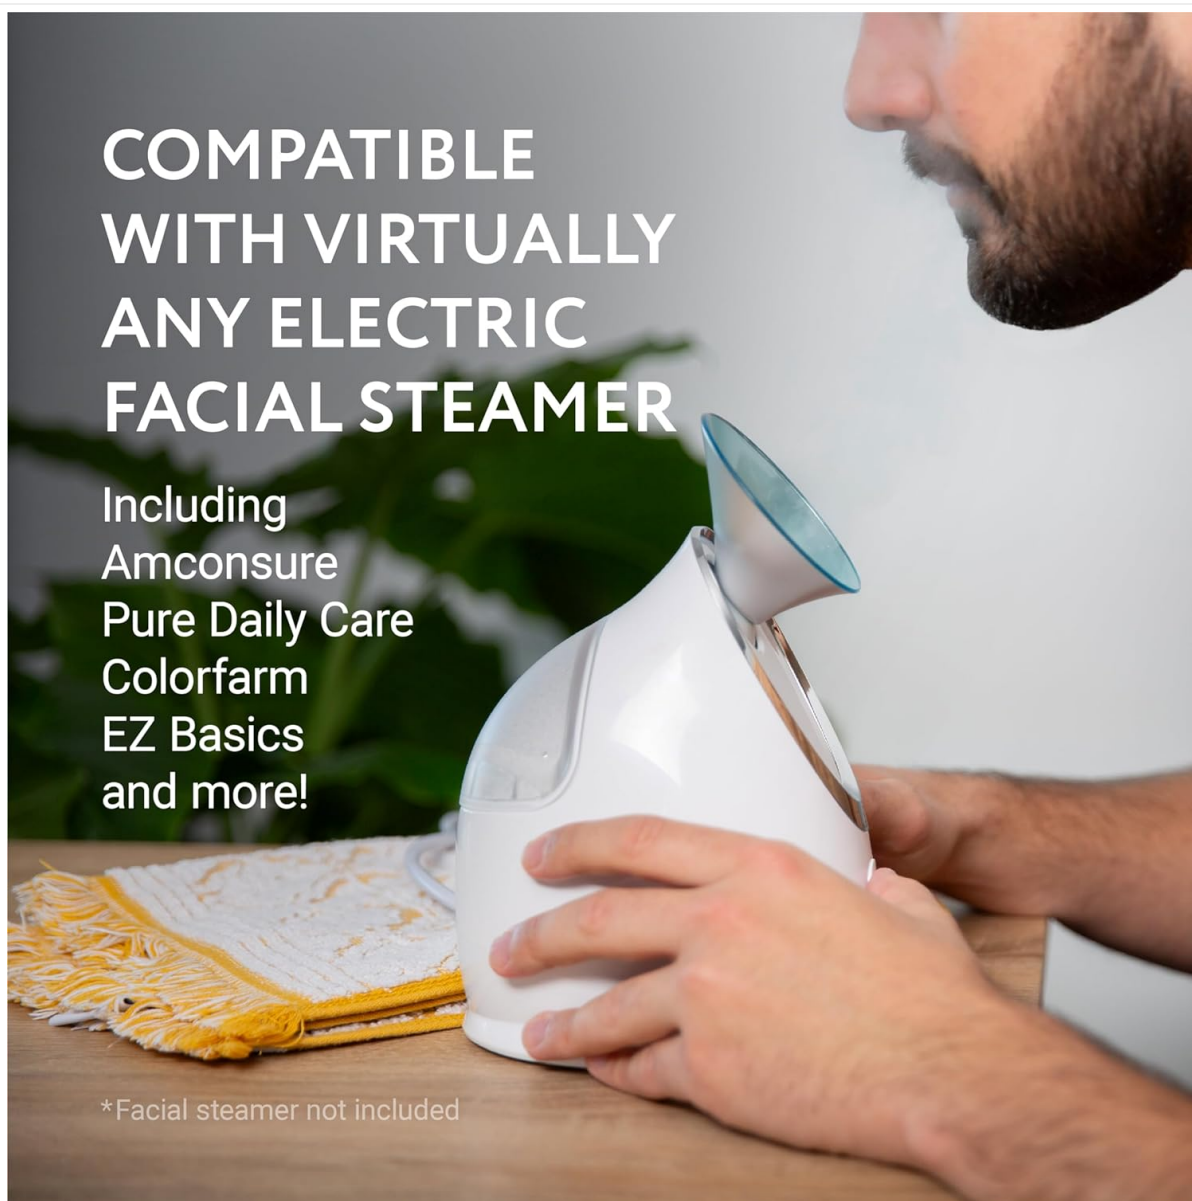

1. INTRODUCTION

The IMPRESA Facial Steamer Cleaner & Descaler Solution is designed to maintain and enhance the performance of facial steamers. This solution effectively removes mineral deposits that can inhibit the functionality of facial steamers, ensuring optimal performance for both sinus relief and skincare routines. Regular use helps extend the lifespan of your facial machine and prevents unnecessary repairs or replacements.

This cleaner is compatible with various facial steamer models, including those from Amconsure, Pure Daily Care, and other major brands.

COMPATIBLE WITH VIRTUALLY ANY ELECTRIC FACIAL STEAMER

Including
Amconsure
Pure Daily Care
Colorfarm
EZ Basics
and more!

*Facial steamer not included

2. SAFETY INFORMATION

- Keep away from children.
- Do not leave the facial steamer unattended during operation.
- Allow the facial steamer to cool completely before handling or refilling the water tank.

3. USAGE INSTRUCTIONS

For optimal performance and longevity of your facial steamer, it is recommended to clean it once a month using the IMPRESA Facial Steamer Cleaner & Descaler Solution. Each 8 oz bottle provides up to 48 uses.

EASY TO USE

- 1 Place machine on a towel. Pour 1-3 capfuls of descaler into the water water reservoir and add distilled water up to manufacturer's suggested amount.

- 2 Run a full cycle. (Angle head upward, if adjustable.)

- 3 Wipe off any mineral deposits with a cloth and rinse the container thoroughly until the water runs clear.

- 4 Refill the container with distilled water and run another full cycle to rinse out any leftover cleaner.

Image: A step-by-step visual guide demonstrating the cleaning process for a facial steamer using the descaler solution.

Step-by-Step Cleaning Process:

1. **Prepare the Steamer:** Place your facial steamer on a towel.
2. **Add Solution and Water:** Pour 1 capful of the descaler solution into the steamer's water reservoir. Fill the reservoir with distilled water up to the manufacturer's suggested amount.
3. **Run Cleaning Cycle:** Angle the machine head upward, if adjustable. Run the facial steamer on a normal cycle. Note that the cleaning solution may spurt during this process as it is not 100% converted to steam.
4. **Clean Reservoir:** After the cycle, rub the inside of the water reservoir with a cloth to remove any remaining build-up. Rinse the reservoir thoroughly with running water until the water runs clear.
5. **Final Rinse Cycle:** Refill the reservoir with distilled water and run the facial steamer on a normal cycle again to rinse out any remaining cleaner.

Important Note: This is an aftermarket product manufactured by Impresa. Any other brands mentioned are for illustrative purposes only and are in no way affiliated with Impresa, nor do they endorse Impresa.

4. SPECIFICATIONS

Brand	IMPRESA
Capacity	8 Fluid Ounces
Product Benefits	Maintains skin radiance, extends steamer life, and ensures optimal performance with wide compatibility
Package Dimensions	6.38 x 1.81 x 1.73 inches
Item Weight	10.23 ounces

5. TROUBLESHOOTING

If your facial steamer continues to exhibit poor performance or mineral buildup after following the cleaning instructions, ensure that you have used the correct amount of solution and distilled water. Repeat the cleaning process if necessary. For persistent issues, please contact IMPRESA customer support for further assistance.
