# Google Nest Hub 7" Smart Display 2nd Generation

MODEL: GUIK2-GA01892INTL

## 1. PRODUCT OVERVIEW

The Google Nest Hub 7" Smart Display 2nd Generation is designed to be the central hub of your helpful home. It offers a seamless way to manage your smart devices, enjoy entertainment, and stay organized. Its compact design and subtle charcoal grey color allow it to blend into any room, whether it's the kitchen, living room, or bedroom.

## Key Features:

- **Entertainment Hub:** Play music, catch up on your favorite shows and videos from services like Netflix and YouTube, and listen to podcasts and audiobooks on the enhanced speaker.
- **Smart Home Control:** Control your compatible lights, TVs, and other smart devices with a simple tap on the screen or using your voice with Google Assistant.
- **Family Connection:** Broadcast messages across your home, chat from room to room, and make Duo audio calls to keep everyone in sync.

- **Personal Organizer:** View your calendar, create reminders and to-do lists, and get quick answers to your questions.
- **Sleep Tracking:** With Nest Hub on your bedside table, Sleep Sensing can track your sleep patterns, including when you go to bed, when you wake up, and how long you've slept.
- **Privacy Features:** Easily turn off the microphone at any time with the mic switch and clear your Google Assistant history whenever desired.

## 2. SETUP

---

Before setting up your Google Nest Hub, ensure you have a stable Wi-Fi network, a nearby electrical outlet, and a compatible mobile device (Android or iOS) with the Google Home app installed.

### Initial Setup Steps:

1. **Power On:** Plug your Nest Hub into a nearby electrical outlet using the provided power cable. The device will power on automatically.
2. **Download Google Home App:** If you haven't already, download the Google Home app from your mobile device's app store.
3. **Add Device:** Open the Google Home app and follow the on-screen prompts to add a new device. Select your Nest Hub from the list of nearby devices.
4. **Scan QR Code:** The app may prompt you to scan a QR code displayed on your Nest Hub's screen. This helps in quickly connecting and configuring the device.
5. **Connect to Wi-Fi:** Follow the instructions in the Google Home app to connect your Nest Hub to your home Wi-Fi network. Ensure you select the correct network and enter the password accurately.
6. **Complete Configuration:** The app will guide you through personalizing settings, linking your Google account, and setting up voice match.
7. **Software Updates:** Allow the Nest Hub to download and install any available software updates. This may require a reboot.

If the device starts in a foreign language, adding it through the Google Home app and scanning the QR code should automatically correct the language setting to English. If you experience issues connecting to Wi-Fi or the device freezes during the initial tour, try rebooting the Nest Hub via the Google Home app and allowing it to update.

## 3. OPERATING INSTRUCTIONS

---

The Google Nest Hub is designed for intuitive voice and touch control. Here's how to get the most out of your device:

### Voice Commands with Google Assistant:

- To activate Google Assistant, simply say "Hey Google" or "Ok Google".
- **Smart Home Control:** "Hey Google, turn off the living room lights." "Ok Google, set the thermostat to 72 degrees."
- **Entertainment:** "Hey Google, play jazz music." "Ok Google, play The Office on Netflix." "Hey Google, play the latest news."
- **Information & Organization:** "Ok Google, what's the weather like today?" "Hey Google, set a timer for 10 minutes." "Ok Google, add milk to my shopping list."

## Touchscreen Navigation:

- **Swipe Down:** Access quick settings and controls for brightness, volume, Do Not Disturb, and more.
- **Swipe Up:** View notifications and recent activities.
- **Swipe Left/Right:** Navigate through different cards on the home screen, such as Your Morning, Home Control, Media, and Communicate.
- **Home Control Dashboard:** Tap the "Home control" tab to access a visual dashboard for managing all your connected smart devices, including lights, cameras, speakers, and climate control.

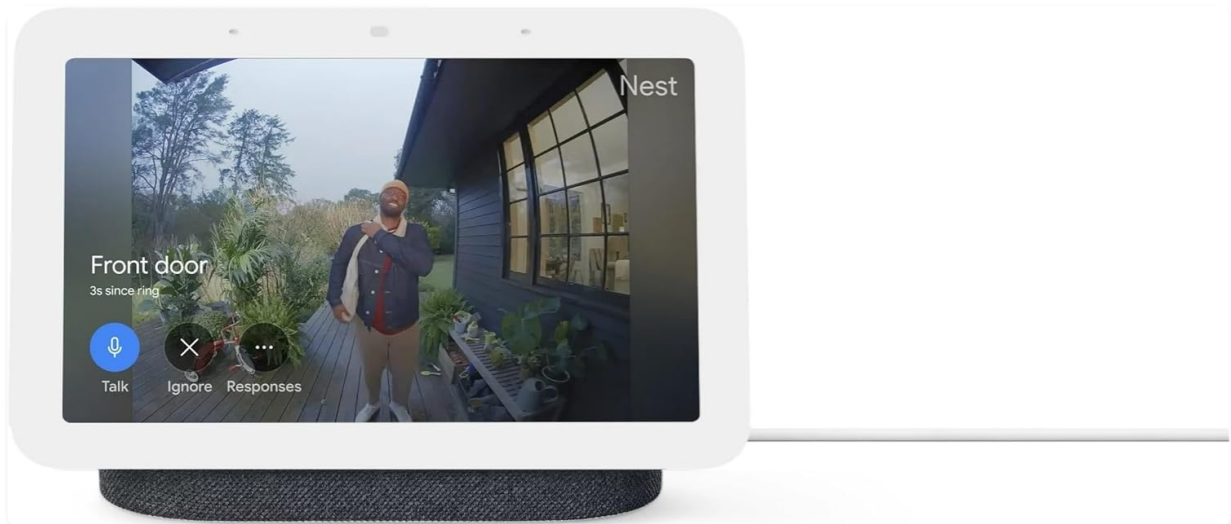

Figure 2: The Nest Hub displaying a live feed from a connected doorbell camera, allowing for visual monitoring and interaction.

## Specific Functions:

- **Video Calls:** Use Google Duo for video calls. The built-in camera allows for clear communication.
- **Kitchen Companion:** Follow step-by-step recipes, set multiple timers, and watch instructional cooking videos hands-free.
- **Photo Frame:** Display your favorite photos from Google Photos when not in active use.
- **Sleep Sensing:** Place the Nest Hub on your bedside table to utilize Sleep Sensing technology, which tracks your sleep without requiring wearables.

## 4. MAINTENANCE

---

To ensure the longevity and optimal performance of your Google Nest Hub, follow these simple maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth, slightly dampened with water, to gently wipe the screen. Avoid using abrasive cleaners, solvents, or aerosol sprays, as they can damage the display.
- **Cleaning the Fabric Base:** For the charcoal grey fabric base, use a dry, soft brush or a lint roller to remove dust and debris. For minor stains, a slightly damp cloth with mild soap can be used, but ensure the fabric is not oversaturated.
- **Dusting:** Regularly dust the device, especially around the speaker grille and ports, to prevent dust buildup that could affect performance.
- **Placement:** Place the Nest Hub on a stable, flat surface away from direct sunlight, heat sources, and excessive moisture. Ensure adequate ventilation around the device.
- **Software Updates:** Keep your device's software updated. Updates often include performance

improvements and bug fixes. The Nest Hub typically updates automatically when connected to Wi-Fi.

## 5. TROUBLESHOOTING

---

If you encounter issues with your Google Nest Hub, try the following troubleshooting steps:

### Common Issues & Solutions:

- **Device Not Responding / Frozen Screen:**

- **Solution:** Reboot the device. You can do this by unplugging it from the power outlet, waiting for 10 seconds, and then plugging it back in. Alternatively, use the Google Home app to remotely reboot the device.

- **Wi-Fi Connection Issues:**

- **Solution:** Ensure your Wi-Fi network is active and within range. Try moving the Nest Hub closer to your router. Check if other devices can connect to the Wi-Fi. If issues persist, try restarting your Wi-Fi router.

- **Incorrect Language Displayed:**

- **Solution:** This can occur during initial setup. Use the Google Home app on your mobile device to add the Nest Hub and scan the QR code displayed on its screen. The app will guide you to set the correct language.

- **Google Assistant Not Responding:**

- **Solution:** Ensure the microphone switch on the back of the device is not turned off. Check your internet connection. Try re-calibrating your voice match in the Google Home app.

- **Audio Quality Issues:**

- **Solution:** Check the volume level on the device and in the Google Home app. Ensure there are no obstructions blocking the speakers.

For further assistance, refer to the Google Nest support website or contact customer service.

## 6. SPECIFICATIONS

---

Detailed technical specifications for the Google Nest Hub 7" Smart Display 2nd Generation:
