Network Connectivity Issues

Check if Airplane Mode is enabled. Restart the device. Verify that your SIM card is properly inserted. If issues persist, contact AT&T support as the device is carrier-locked.

Apps Crashing or Freezing

Close and reopen the app. Clear the app's cache and data (Settings > Apps > [App Name] > Storage > Clear cache/Clear data). Ensure the app is updated to its latest version. If problems continue, consider uninstalling and reinstalling the app.
