## 2. SETUP AND INSTALLATION

The OMNIHIL AC Power Cord is designed for simple plug-and-play operation. Follow these steps to connect your device:

1. **Identify the Power Input:** Locate the power input port on your electronic device (e.g., speaker system, MP3 player charger). This port typically matches the figure-8 (C7) connector of the power cord.
2. **Connect to Device:** Insert the figure-8 (C7) connector of the OMNIHIL AC Power Cord firmly into the power input port of your device. Ensure a snug fit.
3. **Connect to Power Outlet:** Insert the standard two-prong AC plug of the power cord into a compatible wall outlet or surge protector. Ensure the outlet provides the correct voltage for your device.
4. **Verify Connection:** Once both ends are connected, your device should receive power. Refer to your device's specific manual for power-on instructions.

### 3. OPERATING INSTRUCTIONS

---

Once properly connected, the OMNIHIL AC Power Cord functions as a conduit for electrical power. It does not require any specific operational steps beyond proper connection.

- Ensure the power cord is not kinked, twisted, or placed under heavy objects to prevent damage.

- Avoid pulling the cord by the cable itself when disconnecting; always grasp the plug firmly.
- For optimal performance, use the cord within its intended voltage and current ratings.

## 4. MAINTENANCE AND CARE

To ensure the longevity and safe operation of your OMNIHIL AC Power Cord, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power cord from both the device and the wall outlet before cleaning. Wipe the cord with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cord loosely and store it in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tight coiling or bending, which can damage the internal wires.
- **Inspection:** Periodically inspect the cord for any signs of damage, such as cuts, fraying, exposed wires, or discolored insulation. If any damage is observed, discontinue use immediately and replace the cord.
- **Environmental Conditions:** Do not expose the power cord to water, excessive moisture, or corrosive substances.
