Bakken- Swiss BKCAS20CRM

Bakken-Swiss 20-Piece Kitchen Cookware Set Instruction Manual

Model: BKCAS20CRM

Brand: Bakken-Swiss

1. INTRODUCTION

Thank you for choosing the Bakken-Swiss Essential 20-Piece Cookware Collection. This set is designed to meet your fundamental cooking needs with a focus on quality, durability, and convenience. Featuring a granite non-stick coating, this cookware ensures efficient cooking and easy cleanup. The robust tempered glass lids and cool-touch handles enhance safety and user comfort. This manual provides essential information for the proper setup, operation, and maintenance of your new cookware set to ensure its longevity and optimal performance.

2. PRODUCT COMPONENTS

Your Bakken-Swiss 20-Piece Kitchen Cookware Set includes a comprehensive selection of pots, pans, bakeware, and essential kitchen tools, designed to cover all your cooking and baking requirements. Each piece is crafted for optimal performance and durability.

Image: Detailed diagram illustrating each of the 20 pieces included in the set, along with their approximate dimensions.

Set Contents:

- 2.6QT Sauce Pot (with lid)
- 4.5QT Jumbo Cooker (with lid)
- 4.0QT Dutch Oven Pot (with lid)
- 8 inch Steel Steamer
- 11 inch Large Fry Pan (with handle)
- 9.5 inch Medium Fry Pan (with handle)
- 2pcs Cookie Sheet

- Roaster Pan
- Muffin Pan
- Loaf Pan
- Square Pan
- Tongs
- Soup Ladle
- Spatula
- Measuring Cups (1/8, 1/4, 1/3, 1/2, 1CUP)
- Measuring Spoons (1/4, 1/2, 1TSP, 1/2, 1TBS)

3. SETUP AND INITIAL USE

Before using your new Bakken-Swiss cookware for the first time, please follow these steps:

1. **Unpack and Inspect:** Carefully remove all items from the packaging. Inspect each piece for any signs of damage.
2. **Initial Cleaning:** Wash all cookware pieces and utensils thoroughly with warm, soapy water using a soft sponge or cloth. Rinse well and dry completely. This removes any manufacturing residues.
3. **Pre-Seasoning (Optional but Recommended for Longevity):** Although the granite coating is non-stick, a light pre-seasoning can further enhance its performance and durability. Apply a thin layer of cooking oil (e.g., vegetable, canola, or grapeseed oil) to the interior surface of the pots and pans with a paper towel. Heat the pan over low heat for 1-2 minutes. Let it cool, then wipe off any excess oil. Repeat this process 2-3 times.

4. OPERATING INSTRUCTIONS

Your Bakken-Swiss cookware is designed for versatile and efficient cooking. Follow these guidelines for optimal performance:

Heat Management:

- **Even Heat Distribution:** The durable construction ensures even heat distribution and retention, preventing hot spots and ensuring consistent cooking results.
- **Stove Compatibility:** This cookware is suitable for all stove types, including induction, gas, ceramic, and electric cooktops.
- **Oven Safety:** All pieces are oven-safe up to a maximum temperature of 392° Fahrenheit (200° Celsius). Always use oven mitts when handling hot cookware.
- **Recommended Heat Settings:** Due to excellent heat retention, medium to low heat settings are often sufficient for most cooking tasks. High heat should only be used for boiling water or searing for short periods. Prolonged high heat can damage the non-stick coating over time.

SUITABLE FOR ALL STOVES

INDUCTION

GAS

CERAMIC OVEN

ELECTRIC

OVEN-SAFE

Non-Stick Performance:

- The advanced granite non-stick coating provides superior food release, requiring minimal oil or butter for cooking.
- **Utensil Compatibility:** While the coating is durable, it is recommended to use silicone, wooden, or plastic utensils to prolong the life of the non-stick surface. Avoid sharp metal utensils.

Design Features:

- **Cool-Touch Handles:** The form-fitting handles are designed to remain cool to the touch during stovetop cooking, providing a comfortable and secure grip. Always exercise caution as handles can become warm under certain conditions.
- **Tempered Glass Lids:** The transparent tempered glass lids allow you to monitor your cooking progress without lifting the lid, helping to retain heat and moisture.

5. MAINTENANCE AND CARE

Proper care will extend the life and maintain the performance of your Bakken-Swiss cookware.

Cleaning:

- **Hand Washing Recommended:** While the pieces are durable enough for the dishwasher, *hand washing is strongly recommended* to ensure the set's longevity and preserve the non-stick coating.
- **Easy Cleanup:** The stain-resistant surfaces make cleaning quick and easy. Allow cookware to cool completely before washing. Use warm, soapy water and a soft sponge or cloth. For stubborn food residues, soak the pan in warm water for a few minutes before cleaning.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or harsh scouring pads, as these can damage the non-stick surface.

Storage:

- The Bakken-Swiss cookware is designed to be stackable, allowing for space-saving storage.
- To protect the non-stick coating when stacking, place a soft cloth or paper towel between pans.

Image: Bakken-Swiss cookware pieces neatly organized in kitchen drawers, highlighting their stackable and space-saving design.

6. SAFETY PRECAUTIONS

Adhering to these safety guidelines will ensure a safe cooking experience:

- Always use oven mitts or pot holders when handling hot cookware, especially after oven use.
- Do not leave cookware unattended on a hot stovetop.
- Ensure handles are securely fastened before use. If any handle becomes loose, discontinue use and contact customer support.
- Keep children and pets away from the cooking area.
- Avoid sudden temperature changes, such as placing a hot pan under cold water, as this can cause warping or damage to the coating.
- **Non-Toxic Materials:** This cookware is PFOA Free, PTFE Free, Lead Free, and Cadmium Free, ensuring a safe cooking environment.

Image: A close-up of the Bakken-Swiss muffin pan, highlighting its eco-friendly and PFOA/PFOS free granite coating, with a maximum temperature rating of 400°F (200°C).

7. TROUBLESHOOTING

Here are some common issues and their potential solutions:

- **Food Sticking:**
 - Ensure the pan is properly preheated before adding food.
 - Use a small amount of oil or butter, even with non-stick surfaces.
 - Avoid using excessively high heat, which can degrade the non-stick coating over time.
- **Handles Getting Hot:**
 - While designed to be cool-touch, handles can still get warm, especially during prolonged cooking or when used in the oven. Always use oven mitts or pot holders as a precaution.
 - Ensure flames on gas stoves do not extend up the sides of the pan, which can heat handles directly.
- **Warping:**
 - Avoid extreme temperature changes (e.g., plunging a hot pan into cold water). Allow cookware to cool naturally before washing.

8. SPECIFICATIONS

Brand	Bakken-Swiss
Model Number	BKCAS20CRM
ASIN	B0CLCVTH1G
UPC	850053769481
Material	Granite (coating), Tempered Glass (lids), Plastic (handles)
Color	Cream
Number of Pieces	20
Item Weight	26.7 pounds
Package Dimensions	22.6 x 15.4 x 13 inches
