5. OPERATING INSTRUCTIONS

Once the LED Light Kit is fully installed according to the provided guides, connect the power supply to an appropriate power source. The kit is designed for "Plug and Play" operation, meaning the lights should illuminate automatically upon connection. Ensure all connections are secure for optimal performance.

6. MAINTENANCE

To ensure the longevity and optimal performance of your LED Light Kit, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the LED lights and wires with a dry, soft cloth to remove dust. Avoid using liquid cleaners directly on the electrical components.
- **Handling:** Handle the illuminated model with care to prevent damage to the delicate wiring.
- **Storage:** If storing the model for an extended period, disconnect the power supply.

7. TROUBLESHOOTING

If you encounter any issues with your LED Light Kit, please refer to the following common troubleshooting steps:

- **Lights Not Illuminating:**
 - Check if the power supply is securely connected to both the kit and the power outlet.
 - Ensure the power outlet is functional.
 - Verify that all connecting cables within the LEGO model are properly seated and not loose.
 - Inspect for any visible damage to the wires or LED components.
- **Flickering Lights:**
 - Ensure all connections are firm. Loose connections can cause flickering.
 - Check the power supply for stable output.

If these steps do not resolve the issue, please contact VONADO customer support for further assistance.
