## OPERATING (USAGE) GUIDELINES

The Rolanstar Gel Memory Foam Mattress is designed for various sleep positions and bed types.

- **Body Adaptive Support:** The mattress conforms to body contours, providing personalized support and spinal alignment, which helps minimize pressure points.
- **Breathability:** The bamboo charcoal foam layer promotes airflow, preventing heat buildup and contributing to a cooler sleep environment.
- **Odor Control:** Natural deodorizing properties of bamboo charcoal foam help maintain mattress freshness.

## MAINTENANCE AND CARE

Proper care will extend the life and performance of your Rolanstar mattress.

- **Spot Cleaning:** For minor spills or stains, gently spot clean the affected area with a mild detergent and water. Blot dry thoroughly. Do not saturate the mattress.
- **Mattress Protector:** Using a waterproof mattress protector is highly recommended to shield against spills, stains, and allergens.
- **Ventilation:** Periodically air out your mattress by removing bedding to allow for better air circulation.
- **Rotation:** Rotate your mattress every 3-6 months to promote even wear and extend its lifespan. This mattress does not need to be flipped.
- **Avoid Harsh Chemicals:** Do not use harsh cleaning agents, bleach, or abrasive cleaners, as these can damage the foam and fabric.

## TROUBLESHOOTING

- **Mattress Not Fully Expanded:** If the mattress does not fully expand within 72 hours, ensure it is placed on a flat surface in a well-ventilated room. Cooler temperatures can slow expansion; allow more time in such conditions.
- **Initial Odor:** A new mattress may have a slight, harmless odor upon unpacking (off-gassing). This is normal and will dissipate within a few days in a well-ventilated area.
- **Discomfort:** Allow your body time to adjust to a new mattress, typically 2-4 weeks. If discomfort persists, ensure your bed frame or foundation provides adequate support.
