## 5. CARE AND MAINTENANCE

### 5.1 Cleaning

The Ethylene Vinyl Acetate (EVA) material of your Crocs Dylan Mules Clogs makes them easy to clean. For general cleaning, use mild soap and cold water. A soft cloth or sponge can be used to gently wipe away dirt and debris. Avoid harsh chemicals or abrasive cleaners, as these may damage the material.

### 5.2 Drying

Allow the clogs to air dry completely after cleaning. Do not expose them to direct sunlight or high heat, as this can cause the material to shrink or warp.

### 5.3 Storage

Store your clogs in a cool, dry place away from direct heat sources. Avoid leaving them in hot cars or direct sunlight for extended periods.

## 6. TROUBLESHOOTING

### 6.1 Foot Perspiration

Due to the closed design and material, some users may experience increased foot perspiration. If this occurs, wearing socks with your clogs can help absorb moisture and improve comfort. Ensure socks are made of breathable material.

### 6.2 Sizing Discrepancies

If the clogs feel too wide or too narrow despite following the sizing guide, consider the natural width of your foot. Crocs are known for a roomy fit. If issues persist, consult the retailer or manufacturer for further assistance.
