## MAIDeSITe O2 Pro Plus

# MAIDeSITe O2 Pro Plus Electric Height-Adjustable Desk Instruction Manual

Model: O2 Pro Plus (EL2 Plus Art)

## 1. PRODUCT OVERVIEW

The MAIDeSITe O2 Pro Plus is an electric height-adjustable desk frame designed for ergonomic workspaces. It features a robust dual-motor system, an innovative oval leg design, and a smart control panel with memory functions and safety features.

Image 1: Overview of the MAIDeSITe O2 Pro Plus electric height-adjustable desk frame, including the dual leg columns, crossbar, cable management tray, and the digital control panel.

This desk frame is constructed from high-quality industrial carbon steel, ensuring stability and durability. It is suitable for various environments, including home offices, professional workspaces, and gaming setups.

---

## 2. SETUP AND ASSEMBLY

Assembly of the MAIDeSITe O2 Pro Plus desk frame is required. The package includes all necessary tools and hardware. For optimal safety and ease, it is recommended to have two people for certain steps, especially when handling and positioning the assembled frame.

- **Estimated Assembly Time:** Approximately 20 minutes.
- **Tools Provided:** All required assembly tools are included.
- **Clear Instructions:** The assembly instructions are precise, with numbered bags for screws to prevent errors.
- **Casters:** Four casters are included for optional installation, providing mobility to the desk.

24h x 7

Image 2: An illustration detailing the ease of assembly for the desk frame, indicating that tools are included, assembly takes approximately 20 minutes, and customer support is available. It also highlights the inclusion of four casters.

## Assembly Tips:

- Follow the provided instruction manual step-by-step.
- Ensure all components are present before beginning assembly.
- When attaching the desktop (not included), ensure it is centered and securely fastened to the frame.
- For safety, have a second person assist when flipping the desk over after assembly.

## 3. OPERATING INSTRUCTIONS

The MAIDeSITe O2 Pro Plus desk features a user-friendly control panel for height adjustments and various smart functions.

## Control Panel Functions:

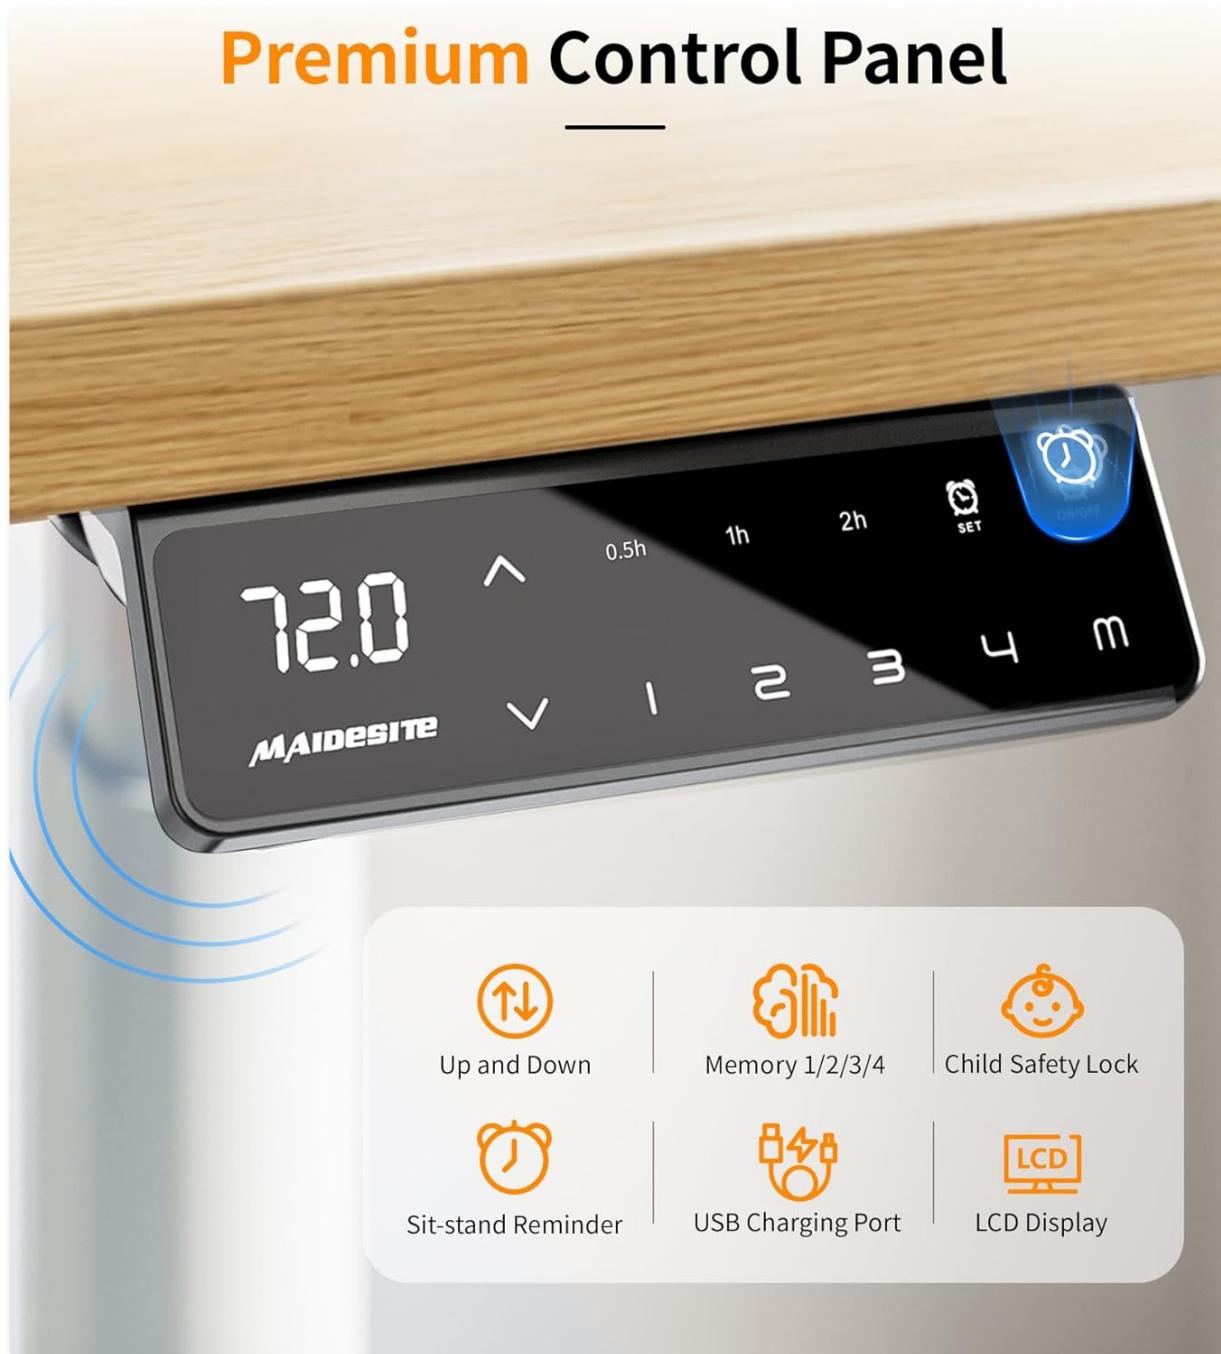

Image 3: A detailed view of the premium control panel, showcasing its LCD display, up/down buttons, four memory presets (1, 2, 3, 4), a 'SET' button, a timer button for sit-stand reminders, and a USB charging port. Icons indicate features like up/down movement, memory settings, child safety lock, sit-stand reminder, USB charging, and LCD display.

- **Height Adjustment:** Use the up (  $\wedge$  ) and down (  $\vee$  ) arrows to smoothly adjust the desk height. The desk operates quietly, with noise levels below 45 decibels, and a lifting speed of 40mm/s.
- **Memory Presets:** The control panel includes four memory buttons (1, 2, 3, 4). To save a preferred height, adjust the desk to the desired level, then press 'SET' followed by the desired memory button (e.g., 'SET' + '1'). The desk will then move to this saved height with a single press of the corresponding button.
- **Sit-Stand Reminder:** Activate the reminder function using the timer button (clock icon). You can set reminders for 0.5, 1, or 2 hours to prompt you to change your working position, promoting healthier habits.
- **Child Lock:** Engage the child lock feature to prevent accidental adjustments, ensuring safety in environments with children.

- **USB Charging Port:** A convenient USB port is integrated into the control panel for charging devices.

### Dual Motor System:

The desk is equipped with two powerful motors that ensure stable and efficient height adjustments. This dual-motor system contributes to the desk's smooth operation and its capacity to handle significant loads.

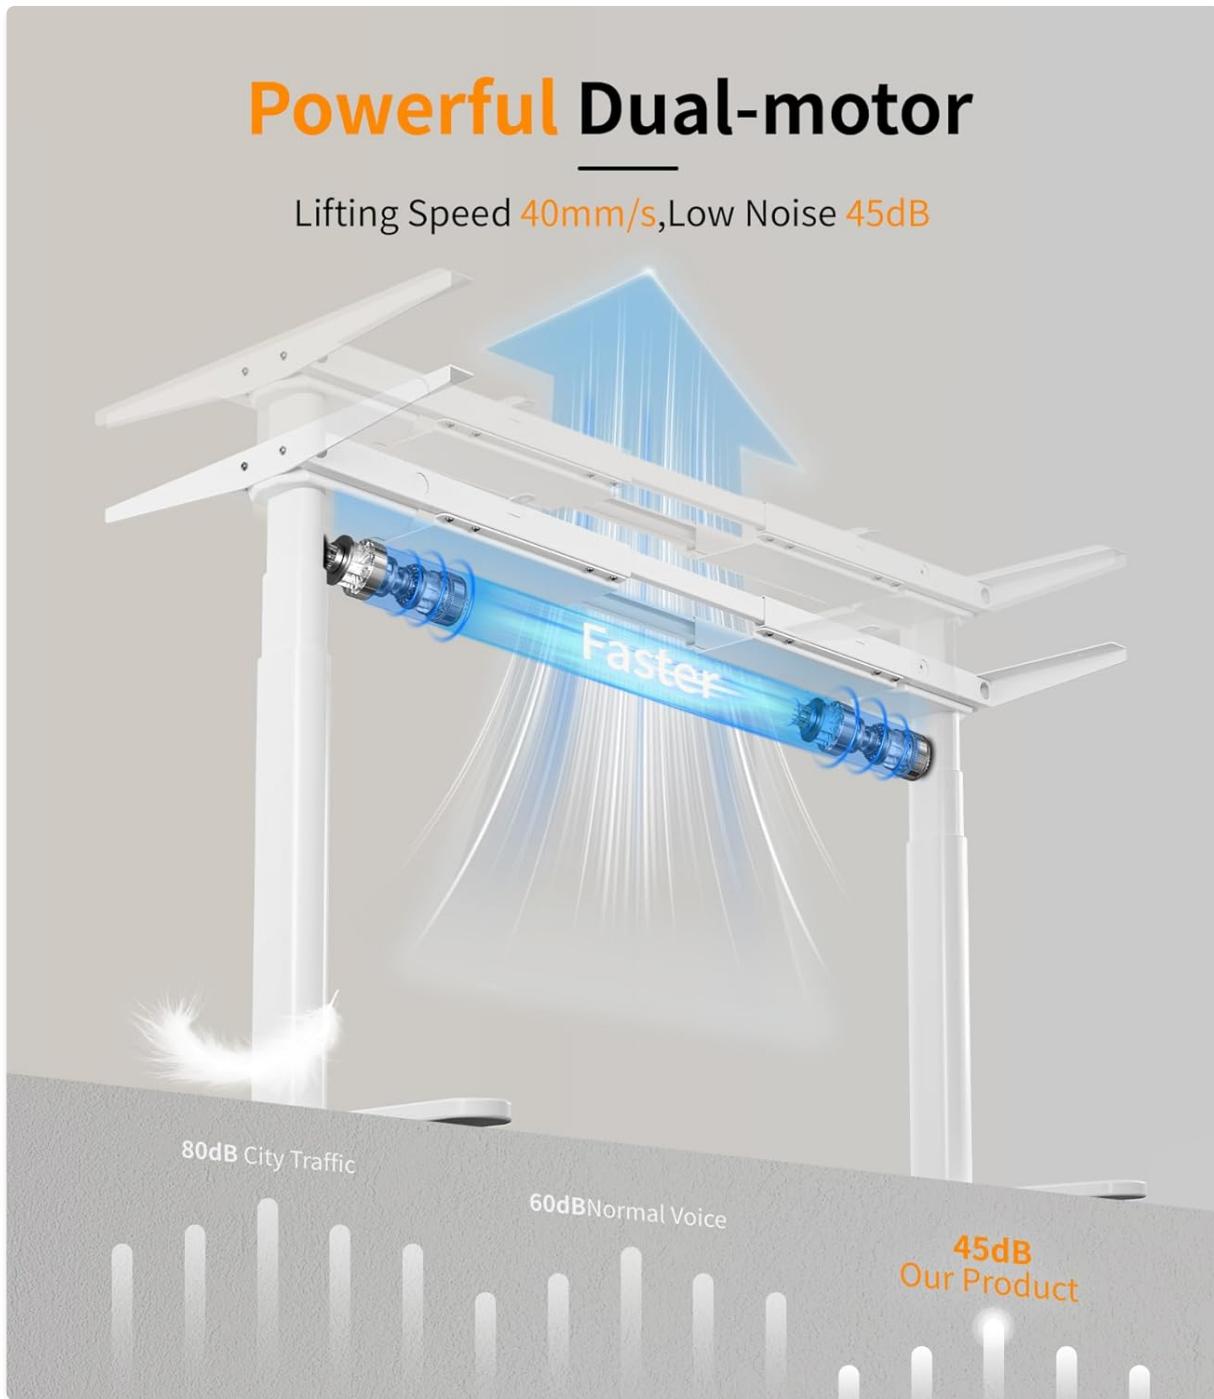

Image 4: An internal view diagram highlighting the powerful dual-motor system within the desk frame, emphasizing its 40mm/s lifting speed and quiet operation at less than 45 decibels, significantly lower than city traffic (80dB) or normal voice (60dB).

## 4. SAFETY FEATURES

### Anti-Collision System:

The MAIDeSITe O2 Pro Plus desk includes a built-in anti-collision system. This sensor-based system automatically detects obstructions during height adjustment and stops movement to prevent damage to

objects or injury to users, pets, or children.

# Anti-collision System

Built-in sensor detects. Safeguard pets and kids.

Image 5: An illustration demonstrating the anti-collision system in action, where the desk automatically stops its downward movement upon detecting an object (a plant) placed on a cabinet beneath it, safeguarding against potential collisions.

## Child Lock:

As mentioned in the operating instructions, the child lock function on the control panel provides an additional layer of safety by preventing unintended height changes.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your MAIDeSITe O2 Pro Plus desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desk frame and control panel with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish.

- **Cable Management:** Regularly check and organize cables to prevent tangling or interference with the desk's movement. The integrated cable management tray helps keep wires tidy.
- **Inspection:** Periodically inspect all screws and connections to ensure they are secure. Tighten any loose fasteners as needed.
- **Obstruction Clearance:** Ensure the area around and under the desk is clear of obstructions before adjusting its height to allow the anti-collision system to function effectively.

---

## 6. TROUBLESHOOTING

If you encounter any issues with your MAIDeSITe O2 Pro Plus desk, consider the following common troubleshooting steps:

- **Desk Not Moving:**
  - Check if the power cable is securely plugged into both the desk and the wall outlet.
  - Ensure the child lock is not activated.
  - Verify there are no obstructions preventing movement. The anti-collision system will stop movement if an object is detected.
- **Uneven Movement:**
  - Ensure the desk is not overloaded beyond its maximum weight capacity.
  - Check that all components are securely fastened and that the desk is on a level surface.
- **Control Panel Not Responding:**
  - Unplug the desk from the power source for 30 seconds, then plug it back in to reset the system.

For persistent issues or problems not covered here, please contact MAIDeSITe customer support.
