## SETUP AND INSTALLATION

---

The Weuaste Carplay Screen is designed for easy installation on all motorcycles. Follow these steps to set up

your device:

1. **Mounting the Device:** Use the provided bracket kits and tools to securely mount the 5-inch IPS Touch Screen on your motorcycle's handlebar. The kit includes various spacers to accommodate different handlebar diameters (Max 35mm / Minimum 22mm).
2. **Power Connection:** You have two options for power:
  - **USB Connection:** Connect the device via the provided USB power cable.
  - **ACC + 12V Connection:** For a more integrated setup, connect the waterproof power cable to your motorcycle's ACC + 12V and Ground wiring. This ensures the device powers on and off with your motorcycle's ignition.
3. **Bluetooth Pairing:** Once powered on, the device features built-in Bluetooth. Pair your smartphone to the Carplay touch screen via Bluetooth. Then, pair your phone to your Bluetooth helmet/earphone. This allows you to adjust volume, switch songs, and make hands-free calls directly from your helmet or earphone.
4. **Wireless CarPlay & Android Auto:** Ensure your smartphone supports wireless CarPlay or wireless Android Auto functionality. The device will connect wirelessly, making all your phone's features accessible through the intelligent touch screen.

## OPERATING INSTRUCTIONS

The 5-inch IPS touch screen provides an intuitive interface for controlling your smartphone's features while riding.

- **Accessing Phone Features:** All your phone's features, including navigation, music, and calls, are easily accessible through the intelligent touch screen. This eliminates the need to frequently take out your mobile phone, ensuring driving safety.
- **Voice Control:** The device supports voice commands (Siri for Apple CarPlay, Google Voice for Android Auto) for hands-free operation, allowing you to wake up navigation, listen to music, and make calls without taking your hands off the handlebars.
- **Waterproof and Durable:** The IP65 waterproof design ensures reliable performance in various weather conditions, from heavy rains to scorching sun. The screen also features an anti-glare design for clear visibility.

Warranty	1 year
Voice Command	Touchscreen
Brand	Weuaste
Vehicle Service Type	Motorcycle
Special Feature	Touchscreen, Bluetooth, Waterproof
Connectivity Technology	Wireless, Bluetooth, Wi-Fi
Map Type	Worldwide
Audio Output Mode	Stereo

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Weuaste Carplay Screen, follow these general maintenance guidelines:

- Regularly clean the screen with a soft, damp cloth. Avoid abrasive cleaners.
- Ensure all connections are secure and free from corrosion.
- While the device is IP65 waterproof, avoid submerging it in water for extended periods.
- Store the device in a cool, dry place when not in use, especially during extreme weather conditions.

## TROUBLESHOOTING

---

If you encounter any issues with your Weuaste Carplay Screen, try the following troubleshooting steps:

- **Device Not Powering On:**
  - Check all power connections (USB or ACC + 12V) to ensure they are secure.
  - Verify that your motorcycle's power source is functioning correctly.
- **Wireless CarPlay/Android Auto Not Connecting:**
  - Ensure your phone's Bluetooth and Wi-Fi are enabled.
  - Confirm that your phone supports wireless CarPlay or Android Auto.
  - Restart both the Carplay screen and your smartphone.
- **Audio Issues:**
  - Check Bluetooth connection between your phone, the Carplay screen, and your helmet/earphone.
  - Adjust volume settings on both the Carplay screen and your helmet/earphone.
- **Screen Responsiveness:**
  - Ensure the screen is clean and dry.
  - If issues persist, try restarting the device.
