Xmobile X63 Pro Case and Tempered Glass Screen Protector User Manual

Model: Xmobile X63 Pro | Brand: Generic

1. INTRODUCTION

This user manual provides detailed instructions for the installation, operation, and maintenance of your Xmobile X63 Pro Phone Case and Tempered Glass Screen Protector. Designed to offer robust protection and enhanced functionality, this product ensures your device remains safe and convenient to use.

2. PACKAGE CONTENTS

Please verify that all items listed below are present in your package:

- 1 x Xmobile X63 Pro Phone Case
- 1 x Tempered Glass Screen Protector

3. KEY FEATURES

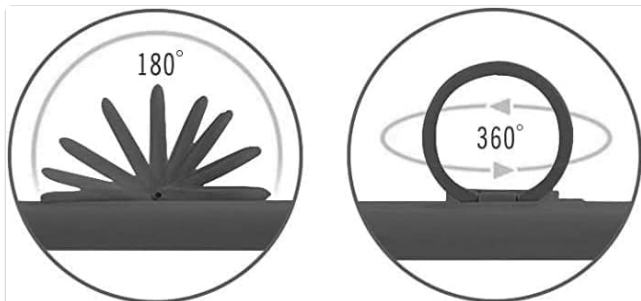

- **360° Rotatable Ring Holder:** Integrated into the back of the case, this ring holder provides a secure grip and functions as a kickstand for hands-free viewing. It rotates 360 degrees for optimal positioning.
- **Magnetic Car Mount Compatibility:** The case features a built-in metal plate that allows direct adsorption to magnetic car mount holders (magnetic car mount not included). This enables convenient GPS navigation or media playback while driving.
- **Enhanced Protection:** Constructed from durable TPU material, the case offers scratch-proof and fingerprint-proof properties. It features a soft silicone frame, a hard PC backplane, and thickened four corners with a silicone buffer layer for superior shock absorption. The design ensures the case is higher than the screen and camera for added protection.
- **Precision Cutouts:** Designed with precise cutouts for all ports, buttons, and speakers, ensuring full access to all phone features and operations without removing the case.
- **High-Definition Pattern Printing:** The case features a stylish marble texture design with high-definition printing that resists fading.
- **Tempered Glass Screen Protector:** Provides 9H high hardness, shatterproof protection, perfect adhesion, and 99.9% super transparency. It is case-friendly and anti-fingerprint.

4. SETUP AND INSTALLATION

4.1 Installing the Phone Case

1. Ensure your Xmobile X63 Pro phone is clean and free of dust or debris.
2. Align the phone with the case, starting with the top or bottom edge.
3. Gently press the phone into the case, ensuring all corners and edges are securely fitted.
4. Verify that all cutouts for ports, buttons, and cameras align correctly.

4.2 Installing the Tempered Glass Screen Protector

For optimal adhesion and clarity, follow these steps carefully:

1. **Clean the Screen:** Use the provided alcohol wipe (if included) to thoroughly clean your phone's screen. Remove all smudges, dust, and fingerprints.
2. **Dry the Screen:** Use the microfiber cloth to dry the screen completely. Ensure no lint or dust particles remain.
3. **Remove Dust:** Use the dust absorber sticker to pick up any remaining dust particles from the screen.
4. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Hold the protector by its edges and align it precisely with your phone's screen, paying attention to the cutouts for the speaker and camera.
5. **Apply and Press:** Once aligned, gently lower the protector onto the screen. It will begin to adhere automatically. If air bubbles appear, gently push them towards the edges using the microfiber cloth or a soft card.
6. **Final Wipe:** Give the screen protector a final wipe with the microfiber cloth to remove any smudges.

5. OPERATING INSTRUCTIONS

5.1 Using the 360° Rotatable Ring Holder

- **For Grip:** Insert your finger through the ring to secure your phone, reducing the risk of accidental drops.
- **For Kickstand:** Rotate the ring to your desired angle and prop your phone up on a flat surface for hands-free viewing of videos or video calls. The 360-degree rotation allows for both portrait and landscape orientations.
- **One-Hand Operation:** The ring holder can assist in reaching more areas of your phone screen comfortably with one hand.

5.2 Using with Magnetic Car Mount

- The case has a built-in metal plate. Simply attach your phone (with the case on) directly to a compatible magnetic car mount. No additional patches or adhesives are required on the phone or case.
- **Note:** This product does not include a magnetic car mount. Wireless charging may not be supported when using the magnetic car mount feature due to the metal plate.

6. MAINTENANCE AND CARE

- **Cleaning the Case:** Wipe the phone case regularly with a soft, damp cloth to remove dust and smudges. For tougher stains, a mild soap solution can be used, followed by drying with a clean cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For fingerprints or smudges, a screen cleaner spray designed for electronics can be used.
- **Avoid Extreme Temperatures:** Do not expose the case or screen protector to extreme heat or cold, as this may affect their material integrity.

- **Handle with Care:** While the product offers protection, avoid intentionally dropping or subjecting your phone to severe impacts.

7. TROUBLESHOOTING

- **Case not fitting properly:** Ensure you have the correct model (Xmobile X63 Pro). Remove any existing films or protectors on your phone before installing the case.
- **Air bubbles under screen protector:** Small bubbles can often be pushed out to the edges using a soft cloth or credit card wrapped in a cloth. If large bubbles persist, it might indicate dust particles. Carefully lift a corner of the protector, remove the dust with a dust absorber, and reapply.
- **Ring holder feels loose:** The ring holder is designed to rotate. If it feels excessively loose and doesn't hold position, inspect for any damage.
- **Wireless charging issues:** The integrated metal plate for magnetic car mounts may interfere with wireless charging. If you use wireless charging, you may need to remove the case or use a charger that is compatible with cases containing metal.
