Weilisi 13M01 Large Full-Screen Ring Light User Manual

Model: **13M01**

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Weilisi 13M01 Large Full-Screen Ring Light. Please read this manual thoroughly before operation and retain it for future reference.

The Weilisi 13M01 is a professional full-screen ring light kit featuring a CRI95+ rating, designed for various applications including studio video photography, live streaming, makeup artistry, and more. It offers adjustable brightness, color temperature, and a stable, extendable stand.

PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- 1 x Weilisi Full-Screen Ring Light
- 1 x Professional Extendable Stand (up to 79 inches / 200.7 cm)
- 1 x DC Power Adapter
- 1 x 360° Rotatable Phone Holder
- 1 x 2.4G Light Controller
- 1 x Bluetooth Remote Control
- 1 x Multifunctional Carrying Case
- 1 x User Manual

SETUP INSTRUCTIONS

1. **Assemble the Stand:** Place the circular base on a flat, stable surface. Insert the telescopic pole into the base and secure it firmly. The base is designed for enhanced stability.

Telescopic Stand

Extended 39 in to 79 in

Image: The telescopic stand extended to its maximum height, demonstrating its stability.

2. **Attach the Ring Light:** Mount the Weili Full-Screen Ring Light onto the top of the telescopic pole. Ensure it is securely fastened.

Full Screen

Surpasses 18 inch

3. **Install the Phone Holder:** Attach the 360° rotatable phone holder to the designated mounting point on the stand or light. Adjust its angle as needed.
4. **Connect Power:** Plug the DC power adapter into the light's power input port, then connect the adapter to a suitable power outlet.
5. **Initial Power On:** Use the integrated light controller or the 2.4G light controller to power on the device.

OPERATING INSTRUCTIONS

Adjusting Brightness and Color Temperature

The Weili 13M01 offers continuous dimming from 1% to 100% and three color modes up to 6500K without needing color filters.

- **Using the Integrated Controller:** The light features an integrated control panel with knobs for adjusting brightness and color temperature.

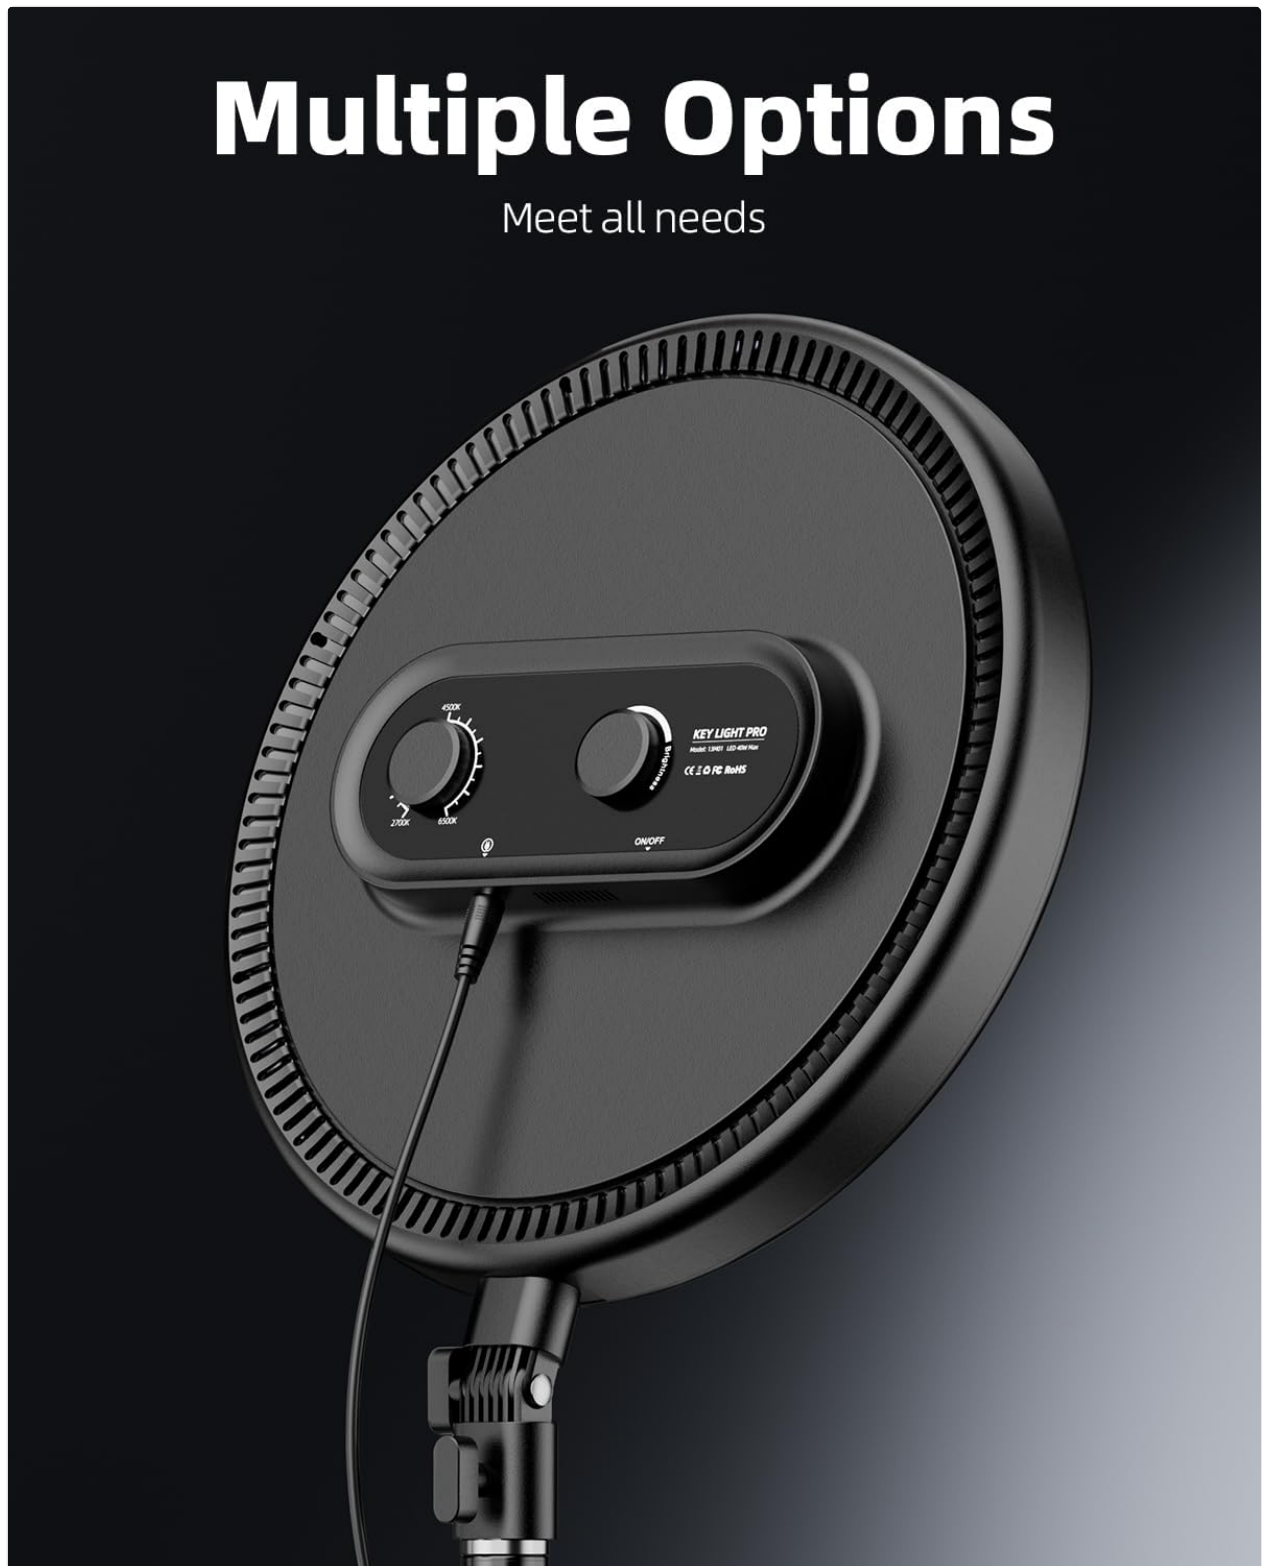

Image: Integrated control panel for brightness and color adjustments.

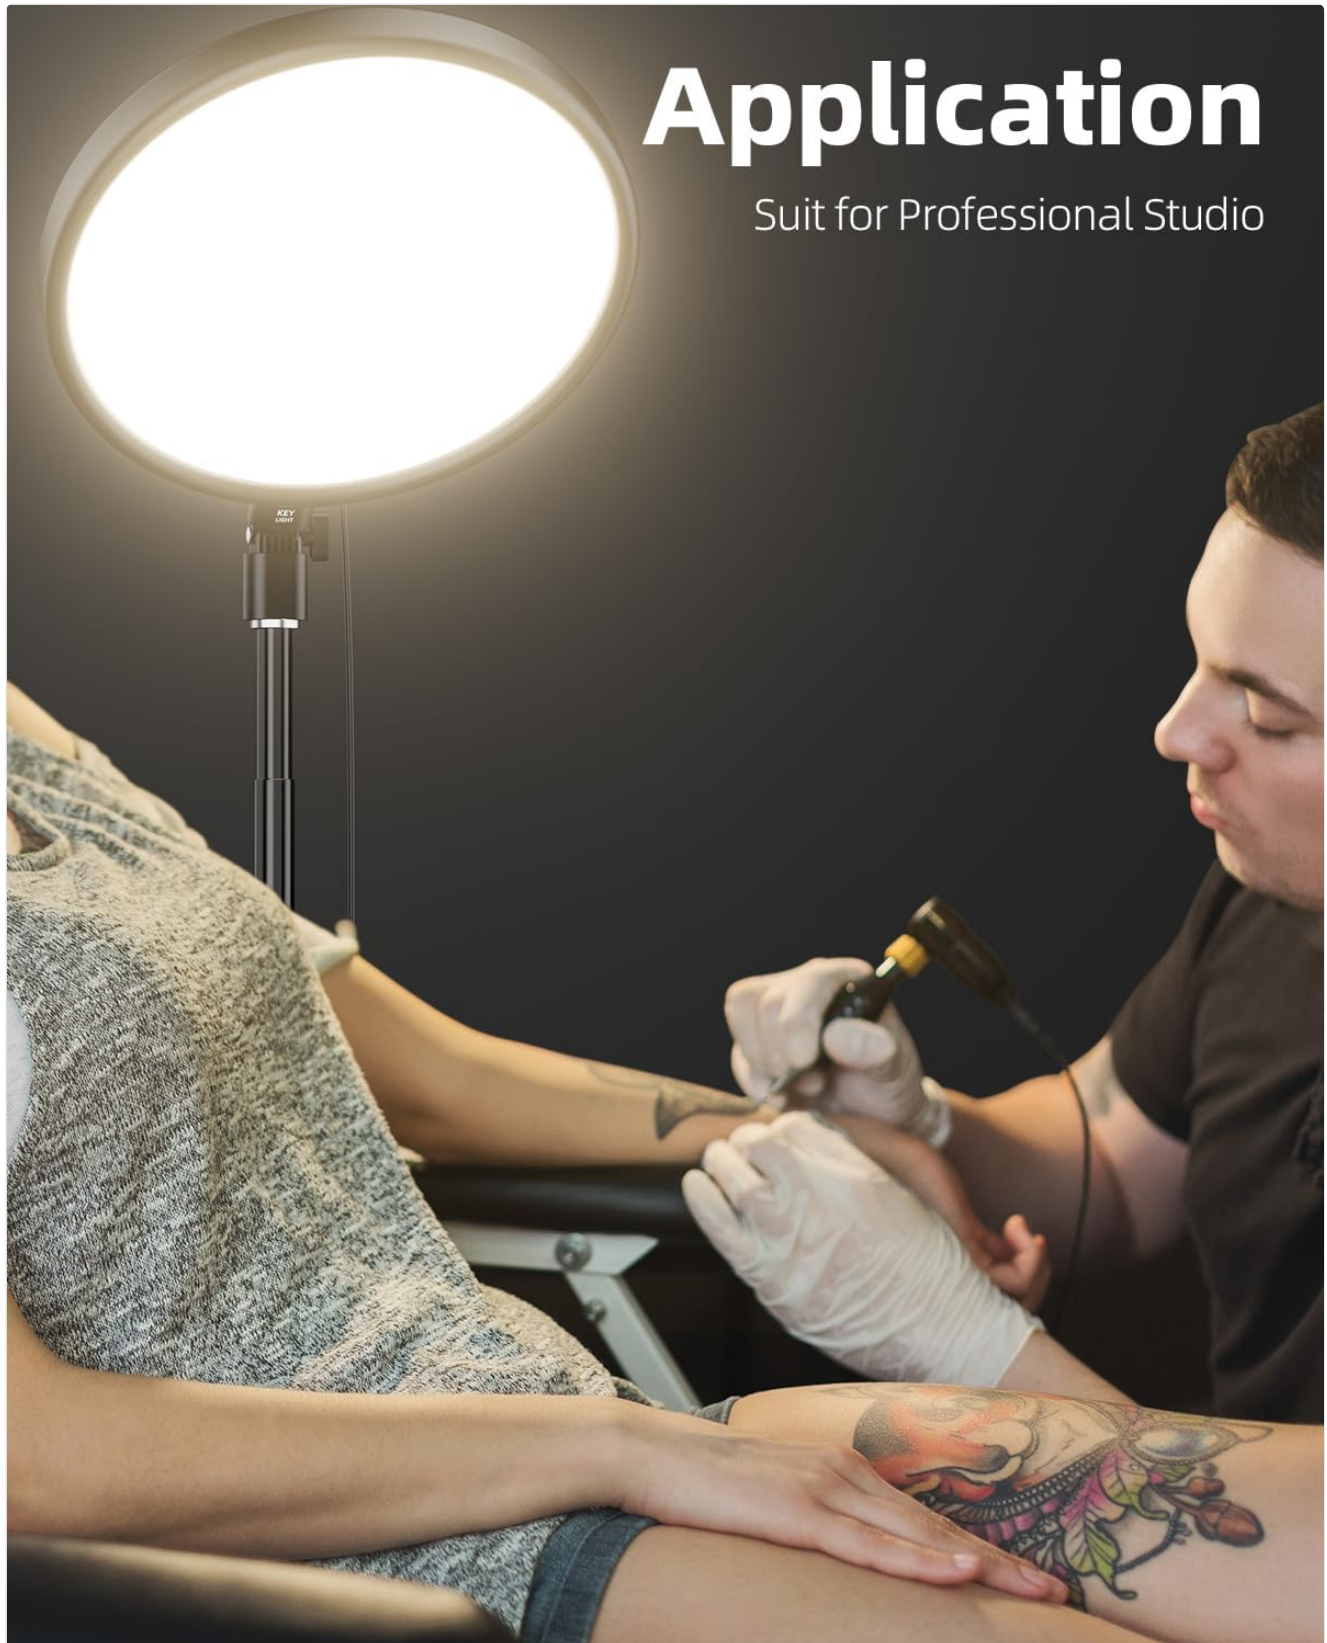

- **Using the 2.4G Light Controller:** For remote adjustments, use the provided 2.4G light controller. Refer to its specific instructions for pairing and operation.
- **Using the Bluetooth Remote Control:** The Bluetooth remote control is primarily for camera shutter functions when connected to a smartphone. Pair it with your phone via Bluetooth settings.

Positioning the Light

- **Height Adjustment:** The professional stand can be extended up to 79 inches (200.7 cm). To adjust, simply pull the telescopic pole directly to the desired height.
- **Angle Adjustment:** The ring light can be tilted and rotated to achieve optimal lighting angles for your subject.

Smartphone Usage

Place your smartphone securely in the 360° rotatable phone holder. The holder is compatible with various phone models, including iPhone 15 Pro Max, Samsung Galaxy S23, Huawei P60, and Google Pixel 7 Pro.

Application

Suit for Professional Studio

MAINTENANCE

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the light panel and stand. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the ring light and its components in the provided multifunctional carrying case to protect them from dust and damage.
- **Handling:** Avoid dropping or subjecting the unit to strong impacts. The light is not waterproof; keep it away from liquids.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Power adapter not connected properly or power outlet issue.	Ensure the DC power adapter is securely connected to the light and a working power outlet. Check the power switch on the integrated controller.
Light flickers or is unstable.	Loose connection or power supply fluctuation.	Check all power connections. Try a different power outlet.
Remote control not responding.	Battery low or not paired correctly.	Replace the battery in the remote control. For the Bluetooth remote, ensure it is correctly paired with your smartphone. For the 2.4G controller, ensure it is within range and paired with the light.
Stand is unstable.	Not fully extended or placed on an uneven surface.	Ensure the telescopic pole is fully extended and locked, and the circular base is on a flat, stable surface.
