

FOFNON S7

FOFNON S7 Stainless Steel Cat Water Fountain Instruction Manual

1. INTRODUCTION

Thank you for choosing the FOFNON S7 Stainless Steel Cat Water Fountain. This manual provides essential information for the proper setup, operation, and maintenance of your new pet water fountain. Please read these instructions carefully before use to ensure optimal performance and the well-being of your pet.

2. PRODUCT OVERVIEW

The FOFNON S7 Stainless Steel Cat Water Fountain is designed to provide fresh, filtered water for your pets, encouraging increased hydration. Its 3.2-liter (108oz) capacity is suitable for cats and small to medium-sized dogs.

Key Features:

- **Material:** Constructed from SUS304 stainless steel for durability, corrosion resistance, and hygiene.
- **Capacity:** 3.2 Liters (108 ounces), reducing the frequency of refills.
- **Quiet Operation:** Operates at approximately 30 dB, ensuring a peaceful environment.
- **Multiple Filtration System:** Includes carbon filters and pump sponges to remove impurities, hair, and soften water.
- **Faucet Design:** Simulates a natural water flow, attracting pets to drink.
- **Water Level Window:** A visible window with an LED light allows for easy monitoring of the water level.

3. SETUP INSTRUCTIONS

Follow these steps to set up your FOFNON S7 Cat Water Fountain:

1. **Prepare Filters:** Submerge the carbon filters and pump sponges in a clean container of water for 5 minutes. This helps remove any loose carbon dust and ensures proper filtration from the start.
2. **Assemble Pump:** Attach the pump to the base of the fountain's top plate. Ensure it is securely fitted.
3. **Place Filters:** Insert the prepared carbon filter into its designated slot on the pump assembly. Place the pump sponge around the pump.
4. **Assemble Fountain:** Place the assembled top plate with the pump and filters onto the stainless steel bowl. Ensure the faucet spout is correctly positioned.
5. **Fill with Water:** Fill the stainless steel bowl with clean water up to the maximum fill line, visible through the water level window. Do not overfill.
6. **Connect Power:** Plug the power adapter into a wall outlet. The fountain will begin operating, and the LED light in the water level window will illuminate.

4. OPERATING INSTRUCTIONS

Once assembled and plugged in, the FOFNON S7 Cat Water Fountain operates continuously, providing a constant flow of fresh water for your pet.

- **Continuous Flow:** The pump circulates water through the filtration system and out the faucet, mimicking a natural stream.
- **Water Level Monitoring:** The transparent water level window on the side of the fountain, illuminated by an LED light, allows you to easily check the remaining water volume. Refill as needed to prevent the pump from running dry.
- **Quiet Operation:** The fountain is designed for low noise output, ensuring it does not disturb your household or startle your pets.

5. MAINTENANCE

Regular maintenance is crucial for the longevity of your fountain and the health of your pets.

Cleaning:

- **Weekly:** Rinse the fountain components (bowl, top plate, faucet) with warm water.
- **Monthly:** For a thorough cleaning, disassemble the fountain completely. Wash all stainless steel parts with mild soap and water. Clean the pump by disassembling it and removing any debris or hair from the impeller. Use a small brush if necessary.

Filter Replacement:

- **Carbon Filter:** Replace the carbon filter every 2-4 weeks, or more frequently if you have multiple pets or notice reduced water flow.
- **Pump Sponge:** Replace the pump sponge every 2-4 weeks.

Replacement filters and pumps can be found by searching for "FOFNON filter" and "FOFNON water pump" online.

6. TROUBLESHOOTING

- **No Water Flow:**
 - Check if the power adapter is securely plugged in.
 - Ensure the water level is sufficient; refill if low.
 - Disassemble and clean the pump, removing any hair or debris that may be blocking the impeller.

- Check if the filter is clogged; replace if necessary.

• **Excessive Noise:**

- Ensure the water level is adequate; low water levels can cause the pump to make noise.
- Clean the pump thoroughly, as debris can cause vibrations.
- Ensure all components are correctly assembled and seated.

• **LED Light Not Working:**

- Verify the power connection.
- If the pump is working but the light is not, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	FOFNON
Model Name	S7-SC-Pro
Item Model Number	S7
Material	Stainless Steel (SUS304)
Capacity	3.2 Liters (108 oz)
