Crivit 390334

Parkside PAAL 6000 C2 Rechargeable Work Light Instruction Manual

Model: 390334 | Brand: Crivit

1. INTRODUCTION

Thank you for choosing the Parkside PAAL 6000 C2 Rechargeable Work Light. This versatile and robust work light is designed to provide powerful illumination in various environments, featuring multiple operating modes, a USB power bank function, and durable construction. Please read this manual carefully before use to ensure proper operation and maintenance.

2. PRODUCT FEATURES

- **Mobile Lamp with USB Power Bank Function:** Charge your mobile devices on the go.
- **Powerful 20W COB LED:** Provides bright and efficient illumination.
- **4 Operating Modes:** Max. brightness, 50% power saving mode, SOS signal, and red flashing light.
- **Dual USB Ports:** Includes 2 USB ports for charging external devices.
- **Battery Status Indicator:** Located under a protective cover for easy monitoring.
- **Shock-Resistant Housing:** Features rubber edges for enhanced durability.
- **IP65 Jet Protection:** Resistant to water jets, suitable for outdoor use.
- **Foldable Magnetic Stand:** Ensures secure placement on metallic surfaces.
- **Hanging Option:** Can also be hung for versatile lighting angles.

3. PACKAGE CONTENTS

Please check that all items are present and in good condition:

- 1 x Parkside PAAL 6000 C2 Rechargeable Work Light
- 1 x USB Cable
- 1 x Car Charging Adapter
- 1 x Power Supply

Image: Included accessories - USB cable, car charger, and power supply.

4. SAFETY INSTRUCTIONS

- Do not look directly into the LED light when it is on, as it may cause eye damage.

- Keep the device away from children.

- Do not attempt to disassemble or modify the work light. This may void the warranty and pose safety risks.

- Use only the provided charging accessories or compatible alternatives.

- Ensure the protective cover for the USB ports is securely closed when not in use, especially in wet conditions.

- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.

5. PRODUCT OVERVIEW

Familiarize yourself with the main components of your work light:

- **Front:** COB LED panel for illumination.

- **Back:** Solar panel (for charging), USB output ports, USB-C input port, power button, and battery indicator lights.

- **Sides:** Rotatable stand/handle with magnetic base.

6. Operation

The work light features a single power button to cycle through its lighting modes.

1. **Power On** / **Max Brightness:** Press the power button once to turn on the light at maximum brightness.
2. **50% Power Saving Mode:** Press the power button a second time to switch to 50% brightness.
3. **SOS Signal:** Press the power button a third time for the white SOS flashing signal.
4. **Red Flashing Light:** Press the power button a fourth time for the red flashing emergency light.
5. **Power Off:** Press the power button a fifth time to turn off the light.

Using the Power Bank Function:

- Open the protective cover on the back of the unit.
- Connect your mobile device to one of the USB output ports using a compatible USB cable.
- The work light will automatically begin charging your device.
- Monitor the battery indicator lights to check the remaining power of the work light.

7. Charging the Work Light

The Parkside PAAL 6000 C2 can be charged via USB-C or its integrated solar panel.

USB-C Charging:

- Open the protective cover on the back of the unit.
- Connect the provided USB cable to the USB-C input port on the work light and to a power source (e.g., wall adapter, car charger, computer USB port).
- The battery indicator lights will illuminate to show the charging progress. All lights will be solid when fully charged.

Solar Charging:

- Place the work light with the solar panel facing direct sunlight.

- The solar charging indicator light will show when the device is receiving power.

- Solar charging is slower than USB-C charging and is best used for maintaining charge or in emergencies.

8. Mounting and Placement

The integrated foldable stand offers multiple positioning options:

- **Magnetic Attachment:** The stand has a magnetic base, allowing the light to be securely attached to metallic surfaces for hands-free operation.

- **Freestanding:** Fold out the stand to position the light on any flat surface.

- **Hanging:** The stand can also be used as a handle or hook to hang the light.

9. Maintenance and Care

- Clean the device with a soft, damp cloth. Do not use abrasive cleaners or solvents.

- Ensure the USB ports are dry before charging or using the power bank function.

- Store the work light in a cool, dry place when not in use.

- Charge the battery at least once every three months to prolong its lifespan if stored for extended periods.

10. Troubleshooting

- **Light not turning on:** Check battery level. Recharge the device if necessary.

- **Device not charging:** Ensure the charging cable is properly connected and the power source is active. Try a different cable or power source.

- **Mobile device not charging from work light:** Ensure the work light has sufficient battery power. Check the connection cable.
- **Reduced brightness:** Battery may be low. Recharge the device.

11. SPECIFICATIONS

Attribute	Value
