# RadioShack Mini Projector Spectra User Manual

Model: Spectra

## INTRODUCTION

This user manual provides comprehensive instructions for the operation, setup, maintenance, and troubleshooting of your RadioShack Mini Projector Spectra. Please read this manual thoroughly before using the product to ensure proper functionality and to prevent damage.

Image: Front view of the RadioShack Mini Projector Spectra, highlighting its compact design, prominent lens, and top-mounted control buttons.

## SAFETY INFORMATION

Always observe the following safety precautions to avoid electric shock, fire, or injury:

- Do not expose the projector to rain or moisture.
- Do not open the projector casing. Refer all servicing to qualified personnel.
- Ensure proper ventilation around the projector. Do not block ventilation openings.

- Avoid direct eye exposure to the projector lens when the lamp is on.
- Use only the power adapter supplied with the projector.

## PACKAGE CONTENTS

---

Verify that all items are present in the package:

- RadioShack Mini Projector Spectra
- Power Adapter
- Remote Control (if applicable, not specified but common)
- User Manual (this document)

## PRODUCT OVERVIEW

---

### Front View

The front of the projector features the main projection lens and an infrared receiver for the remote control.

### Top Panel

The top panel includes control buttons for navigation and settings, such as power, menu, source, and directional keys.

### Rear Panel

The rear panel houses various input/output ports:

- HDMI Port: For connecting to devices like laptops, gaming consoles, or Blu-ray players.
- 3.5mm Audio Jack: For connecting external speakers or headphones.
- Power Input: For connecting the power adapter.

### Side Panels

The side panels typically contain ventilation grilles to ensure proper airflow and prevent overheating.

## SETUP

---

### Placement

Place the projector on a stable, flat surface, such as a table, at an appropriate distance from the projection screen or wall. Ensure there are no obstructions blocking the lens or ventilation openings.

### Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the power adapter into a suitable electrical outlet.

### Connecting Devices

To connect an external device (e.g., laptop, DVD player, streaming stick):

1. Use an HDMI cable to connect the device's HDMI output to the projector's HDMI input.
2. If connecting external audio, use a 3.5mm audio cable from the projector's audio output to your external speakers or headphones. The projector also has an integrated 3W speaker.

# OPERATING INSTRUCTIONS

## Powering On/Off

- To power on: Press the Power button on the projector or remote control.
- To power off: Press the Power button again. Confirm shutdown if prompted.

## Focus Adjustment

Rotate the focus ring located near the lens until the projected image is clear and sharp.

## Source Selection

Press the 'Source' button on the projector or remote control to cycle through available input sources (e.g., HDMI).

## Menu Navigation

Use the directional buttons and 'OK' button on the projector or remote to navigate the on-screen display (OSD) menu for settings like picture mode, aspect ratio, and sound.

# MAINTENANCE

## Cleaning the Lens

Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners or excessive force.

## Cleaning the Casing

Wipe the projector's exterior with a soft, damp cloth. Avoid using harsh chemicals.

## Ventilation

Ensure the ventilation openings are clear of dust and debris to maintain proper airflow and prevent overheating. Use a soft brush or compressed air to gently clean the vents.

# TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power cable loose; Incorrect input source; Device not connected properly.	Check power connection; Select correct input source; Reconnect HDMI/other cables.
Image is blurry	Focus not adjusted; Projector too close/far from screen.	Adjust the focus ring; Adjust projection distance.
No sound	Volume too low; External speakers not connected; Audio source issue.	Increase volume; Connect external speakers if desired; Check audio settings on source device.
Projector overheats	Blocked ventilation; Prolonged use in hot environment.	Ensure vents are clear; Operate in a well-ventilated area; Allow to cool down.

# SPECIFICATIONS

- **Model:** Spectra

- **Brand:** RadioShack
- **Resolution:** 1280 x 720 Pixels
- **Special Features:** Glass Lens, Integrated 3W Speaker
- **Connectivity:** HDMI, 3.5mm Audio Jack
- **Form Factor:** Portable
- **Mounting Type:** Table Mount
- **Dimensions:** 32.2 x 31.2 x 11.2 cm (12.68 x 12.28 x 4.41 inches)
- **Weight:** 1.39 kg (3.06 lbs)
- **Recommended Use:** Home Cinema
