

## AVATTO T6EpanelS

# AVATTO Smart Multi-functional Control Panel T6E panel S User Manual

Model: T6EpanelS

Brand: AVATTO

## 1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, maintenance, and troubleshooting of your AVATTO Smart Multi-functional Control Panel T6E panel S. Please read this manual thoroughly before using the device to ensure proper functionality and safety. Keep this manual for future reference.

## 2. SAFETY INFORMATION

Observe the following safety precautions to prevent damage to the device or injury to yourself:

- Do not expose the device to extreme temperatures, humidity, or direct sunlight.
- Avoid dropping or subjecting the device to strong impacts.
- Do not attempt to disassemble or repair the device yourself. Refer all servicing to qualified personnel.
- Ensure the power supply meets the specified requirements before connecting the device.
- Keep the device away from water and other liquids.

## 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- AVATTO Smart Multi-functional Control Panel T6E panel S
- Mounting Bracket
- Mounting Screws and Wall Anchors
- User Manual (this document)

## 4. PRODUCT OVERVIEW

Familiarize yourself with the components of your Smart Control Panel.

Figure 4.1: Front view of the AVATTO Smart Multi-functional Control Panel T6E panel S. This image displays the device's screen, which shows the current time, date, and temperature, along with two prominent buttons labeled 'Leave mode' and 'Home mode'. The panel has a sleek, dark gray bezel.

Figure 4.2: Angled view of the AVATTO Smart Multi-functional Control Panel T6E panel S. This perspective highlights the depth of the device and its side casing, which appears to house internal components or mounting mechanisms. The screen content is identical to the front view.

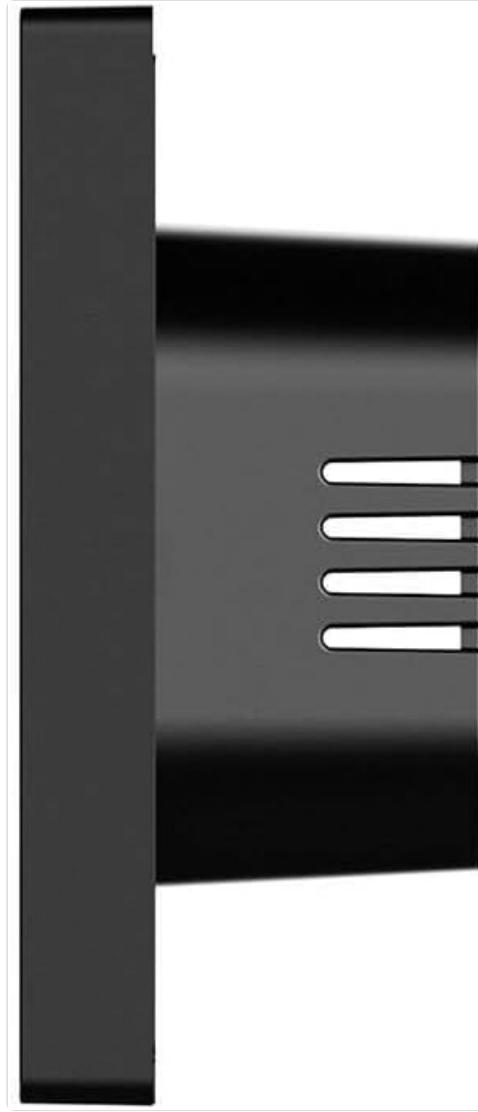

Figure 4.3: Side view of the AVATTO Smart Multi-functional Control Panel T6E panel S. This image clearly shows the thickness of the panel and features ventilation slots on the side, suggesting heat dissipation or sensor integration. The mounting mechanism is also visible from this angle.

## 5. SETUP

---

### 5.1 Installation

1. **Choose a Location:** Select a central location within your home, preferably near a power outlet and within Wi-Fi range.
2. **Mount the Bracket:** Use the provided screws and wall anchors to securely mount the bracket to the wall. Ensure it is level.
3. **Connect Power:** Connect the power adapter to the panel and then to a suitable power outlet.
4. **Attach the Panel:** Carefully align the panel with the mounted bracket and slide it into place until it clicks securely.

### 5.2 Initial Power-On and Network Connection

1. Once powered on, the panel will display the AVATTO logo and then proceed to the setup wizard.
2. Follow the on-screen prompts to select your language and region.
3. When prompted, select your Wi-Fi network from the list and enter the password. Ensure you are connecting to a 2.4GHz Wi-Fi network for optimal compatibility.

4. The panel will connect to the network. Once successful, it will proceed to the main interface.

## 6. OPERATING INSTRUCTIONS

---

### 6.1 Basic Navigation

- **Touch Screen:** The panel features a responsive touch screen for all interactions.
- **Home Screen:** Displays time, weather, and quick access modes (e.g., 'Home mode', 'Leave mode').
- **Swipe Gestures:** Swipe left/right to access different control pages (e.g., lighting, climate, security). Swipe down from the top for quick settings.

### 6.2 Controlling Smart Devices

The AVATTO T6E panel S integrates with various smart home devices. To add and control devices:

1. Navigate to the 'Devices' or 'Control' section on the panel.
2. Select 'Add Device' and follow the on-screen instructions to pair new smart devices (e.g., smart lights, thermostats, sensors).
3. Once added, you can tap on the device icon to control its functions (e.g., turn lights on/off, adjust thermostat temperature).

### 6.3 Customizing Settings

Access the 'Settings' menu to personalize your panel:

- **Display:** Adjust brightness, screen timeout, and wallpaper.
- **Network:** View Wi-Fi status or connect to a different network.
- **System:** Check for software updates, reset the device, or view system information.
- **Scenes/Automations:** Create custom scenes or automated routines that trigger multiple devices simultaneously (e.g., 'Good Morning' scene turns on lights and adjusts thermostat).

## 7. MAINTENANCE

---

### 7.1 Cleaning

To clean the panel, gently wipe the screen and body with a soft, dry, lint-free cloth. Do not use abrasive cleaners, solvents, or aerosol sprays, as these may damage the surface or internal components.

### 7.2 Software Updates

Periodically check for software updates to ensure your panel has the latest features and security enhancements. Navigate to *Settings > System > Software Update* and follow the on-screen instructions.

## 8. TROUBLESHOOTING

---

If you encounter issues with your AVATTO Smart Multi-functional Control Panel, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Panel does not power on.	No power, loose connection.	Ensure power adapter is securely connected to both the panel and the outlet. Check if the outlet is functional.
Cannot connect to Wi-Fi.	Incorrect password, out of range, 5GHz network.	Verify Wi-Fi password. Move panel closer to router. Ensure you are connecting to a 2.4GHz network. Restart router.
Smart devices not responding.	Device offline, network issue, pairing issue.	Check if the smart device is powered on and connected to the network. Re-pair the device if necessary. Check panel's network connection.
Screen is unresponsive.	Temporary software glitch.	Perform a soft reset by disconnecting and reconnecting power. If issue persists, perform a factory reset (data will be lost).

## 9. SPECIFICATIONS

The following are general specifications for the AVATTO Smart Multi-functional Control Panel T6E panel S. Specific details may vary.

- **Model:** T6EpanelS
- **Connectivity:** Wi-Fi (2.4GHz)
- **Power Input:** [Specific Voltage/Amperage, e.g., DC 12V/1A] *(Please refer to product label for exact power requirements)*
- **Display:** [e.g., LCD Touch Screen]
- **Operating Temperature:** [e.g., 0°C to 40°C (32°F to 104°F)]
- **Dimensions:** [e.g., Approx. 86mm x 86mm x 35mm]

## 10. WARRANTY AND SUPPORT

AVATTO products are designed for reliability and performance. This product comes with a standard manufacturer's warranty against defects in materials and workmanship. The warranty period typically begins from the date of purchase.

For warranty claims, technical support, or service inquiries, please contact your retailer or visit the official AVATTO support website. Be prepared to provide your product model number (T6EpanelS) and proof of purchase.

*Please note:* The warranty does not cover damage caused by misuse, accident, unauthorized modification, or improper installation.
