MINYE F760

MINYE F760 Double Din Car Stereo User Manual

Model: F760

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your MINYE F760 Double Din Car Stereo. Please read this manual thoroughly before using the product to ensure proper function and safety. Keep this manual for future reference.

2. SAFETY INFORMATION

- **Professional Installation Recommended:** Due to the complexity of car audio systems, professional installation is highly recommended to prevent damage to the unit or vehicle.
- **Power Supply:** Ensure the car stereo is connected to a 12V DC power supply with a negative ground.
- **Wiring:** Incorrect wiring can cause damage to the unit or vehicle. Follow the wiring diagram carefully.
- **Driving Safety:** Do not operate the unit in a way that distracts you from driving. Always prioritize road safety.
- **Temperature:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.
- **Moisture:** Keep the unit away from water and moisture to prevent electrical hazards.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- MINYE F760 Car Stereo Unit
- Power Harness
- Remote Control
- USB Cable
- Mounting Brackets and Screws
- Backup Camera (if included in package)
- User Manual

4. PRODUCT OVERVIEW

The MINYE F760 features a 7-inch LCD touchscreen and various connectivity options. Below is a general overview of the unit's front panel and key features.

Wireless CarPlay & Android Auto

Connecting CarPlay or Android Auto without cable allows your car to access various Apps / Features of your smartphone.

Image: Front view of the MINYE F760 car stereo, showing the 7-inch touchscreen display, physical buttons on the left side (power, volume, mode, reset), and USB/Type-C ports at the bottom left.

Key Features:

- 7-inch LCD Touchscreen (1024x600 resolution)
- Wireless Apple CarPlay & Android Auto
- Bluetooth 5.1 for hands-free calling and audio streaming
- Mirror-Link function for screen mirroring
- RDS FM/AM Radio
- Type-C and USB ports for charging and data
- Support for Backup Camera input
- Steering Wheel Control compatibility

5. SETUP AND INSTALLATION

Proper installation is crucial for optimal performance. If you are unsure about any steps, consult a professional installer.

5.1 Wiring Diagram

Refer to the provided wiring harness and diagram for correct connections. Common connections include:

- **Yellow Wire:** Constant 12V (Battery Positive)
- **Red Wire:** ACC (Accessory Power, Switched 12V)
- **Black Wire:** Ground (Chassis Ground)
- **Orange Wire:** Illumination/Dimmer
- **Reverse Wire:** Connect to vehicle's reverse light signal for backup camera activation.
- **Speaker Wires:** Connect to vehicle's speakers (e.g., White/White-Black for Front Left, Gray/Gray-Black for Front Right, Green/Green-Black for Rear Left, Purple/Purple-Black for Rear Right).

Note: Ensure all connections are secure and insulated to prevent short circuits.

5.2 Mounting the Unit

Use the provided mounting brackets and screws to secure the car stereo into your vehicle's double din opening. Ensure the unit is firmly in place to prevent vibrations and movement.

6. OPERATING INSTRUCTIONS

6.1 Basic Operations

- **Power On/Off:** Press the **Q/M** button to turn the unit on or off.
- **Volume Control:** Rotate the knob to adjust the volume.
- **Menu Navigation:** Use the touchscreen to navigate through menus and select functions. The home icon (Home) returns to the main menu.

6.2 Radio (FM/AM/RDS)

Select the "Radio" icon from the main menu to access the radio function.

- **Band Selection:** Tap "Band" to switch between FM1, FM2, FM3, AM1, and AM2.
- **Auto Scan:** Tap "Scan" to automatically search and save strong stations.
- **Manual Tuning:** Use the left/right arrows to fine-tune frequencies.
- **Preset Stations:** Tap on P1-P6 to select saved stations. Long-press to save the current station.
- **RDS:** Radio Data System provides additional information like station name, program type, and traffic announcements.

Reversing Camera

Automatically switch to full-screen reversing image when the car reverse gear is engaged.

6.3 Bluetooth 5.1

Connect your mobile device via Bluetooth for hands-free calls and audio streaming.

1. On the car stereo, select the "BT" icon.
2. On your mobile device, enable Bluetooth and search for available devices.
3. Select "MINYE F760" (or similar) from the list and confirm pairing.
4. Once paired, you can make/receive calls and stream music.

Bluetooth Handsfree

Bluetooth 5.1 with high-speed and more stable connection, better sound quality, makes calls clearer and zero latency.

Image: The Bluetooth handsfree calling screen on the MINYE F760 car stereo, showing a phone call in progress and the dial pad.

6.4 Wireless Apple CarPlay / Android Auto

Connect your smartphone wirelessly to access navigation, music, messages, and more.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car stereo, select the "PhoneLink" or "CarPlay/Android Auto" icon.
3. Follow the on-screen prompts to connect your device. For Apple CarPlay, select "CarPlay" and for Android Auto, select "Auto".
4. The system will automatically connect to your phone's CarPlay or Android Auto interface.

Image: The MINYE F760 car stereo displaying the Apple CarPlay interface, with a smartphone shown next to it indicating wireless connection.

6.5 Mirror-Link (Wired)

Use the Mirror-Link function to display your smartphone screen on the car stereo via a wired connection.

1. Connect your smartphone to the car stereo's USB or Type-C port using a compatible cable.
2. Select the "Mirror-Link" icon on the car stereo.
3. Follow any prompts on your phone to allow screen mirroring.

Phone Mirror-Link

Cast your phone's display to the car stereo touchscreen, allowing you to share movies, games, music, maps, etc on the stereo.

6.6 Backup Camera

When properly installed, the backup camera automatically displays the rear view when the vehicle is shifted into reverse.

- Ensure the backup camera is connected to the dedicated video input and the reverse trigger wire is connected to the vehicle's reverse light signal.
- The display will automatically switch to the camera view when reversing.
- The camera features 12-LED night vision and a 170° viewing angle.

RDS Radio

Radio Data System inside, automatic frequency adjustment, traffic event broadcasting.

Image: The MINYE F760 car stereo displaying the backup camera feed with parking guidelines, showing a car in a parking garage.

6.7 Steering Wheel Controls

The unit supports learning for existing steering wheel controls. Access this feature via the "Setup" menu.

1. Go to **Setup > Wheel**.
2. Follow the on-screen instructions to program each steering wheel button (e.g., Volume Up, Volume Down, Next Track, Previous Track).

Steering Wheel Learning

Control your stereo with the buttons on your car's steering wheel

Image: The steering wheel control learning interface on the MINYE F760 car stereo, showing options to assign functions like Pre, Next, Vol+, Vol-, Mute, and Mode.

6.8 Display Settings

Customize the display parameters for optimal viewing.

- Navigate to **Setup > Display Settings**.
- Adjust Brightness, Contrast, Hue, and Saturation.
- You can also change the background wallpaper via **Setup > Background**.

6.9 Sound Settings

Adjust audio settings to your preference.

- Access **Setup > Sound Setup**.
- Adjust the equalizer settings (e.g., Jazz, Classic, Rock, Pop, Flat, User-defined).
- Enable or disable Loudness.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and unit. Do not use abrasive cleaners or solvents.
- **Firmware Updates:** Check the manufacturer's website for any available firmware updates to ensure optimal performance and new features.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not power on.	Incorrect wiring (power/ground), blown fuse.	Check power and ground connections. Verify vehicle fuses and unit's inline fuse.
No sound.	Volume too low, incorrect speaker wiring, mute activated.	Increase volume. Check speaker connections. Ensure mute is off.
Bluetooth not connecting.	Bluetooth not enabled, device not in pairing mode, interference.	Ensure Bluetooth is on for both devices. Try re-pairing. Move closer to the unit.
CarPlay/Android Auto not working wirelessly.	Wi-Fi/Bluetooth off, phone not compatible, software glitch.	Ensure Wi-Fi and Bluetooth are active. Check phone compatibility. Restart phone and stereo.
Backup camera not displaying.	Camera not connected, reverse trigger wire not connected.	Verify camera video input and reverse trigger wire connection.

9. SPECIFICATIONS
