Detailed Assembly Steps

- 1. Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and identify each part using the provided parts list.
- 2. Assemble Side Rails:** Connect the side rail sections using the provided wooden dowels and bolts. Ensure the top surface (indicated by a sticker) is facing upwards.

- 3. Attach Bed Hardware:** Secure the bed hardware (metal brackets) to the ends of the assembled side rails using the short bolts and Allen wrench.

4. **Connect Side Rails to Headboard and Footboard:** Attach the side rails to the headboard and footboard using the long bolts. Loosely tighten initially.
5. **Install Center Support Rails:** Connect the center support rails to the main frame using the designated bolts.
6. **Attach Legs:** Screw the bed legs into the designated holes on the frame. Ensure all 6 legs are securely attached to prevent damage.
