HOW TO PLAY

La Bonne Paye is a game about managing your finances through a simulated month. The player who best manages their money and accumulates the most wealth by the end of the game wins.

Game Objective

The primary goal is to be the wealthiest player at the end of the game, which typically concludes after a set number of 'months' (full rounds of the board) or when a specific condition is met as per the rulebook.

Gameplay Overview

Players take turns rolling the die and moving their pawn around the board. Each space on the board represents a 'day' of the month and may require you to perform an action:

- **Mail (Courrier):** Draw a Mail card and follow its instructions, which may involve paying bills, receiving unexpected income, or other financial transactions.
- **Acquisition:** These spaces offer opportunities to buy or sell various items, potentially leading to profit or loss.
- **Event (Événement):** Draw an Event card and react to unexpected situations that can impact your finances.
- **Pay Day (Jour de Paye):** When you land on or pass 'Pay Day', you collect your salary and manage your finances, including paying off loans or saving money.

Strategic decisions about spending, saving, and taking out loans are crucial to avoid debt and accumulate wealth. The player with the most money at the end of the game is the winner.
