Topyond Car Coffee Maker Instruction Manual

Model: e283abf2-8642-444f-8229-22e65c826306

PRODUCT OVERVIEW

The Topyond Car Coffee Maker is a portable and compact coffee machine designed for use in vehicles. It operates on both 12V and 24V power sources, making it suitable for cars, trucks, and RVs. This device allows users to brew a fresh cup of coffee on the go, featuring an efficient heating system and a user-friendly design.

Key Features:

- **Dual Voltage Compatibility:** Designed for both 12V and 24V cigarette lighters, compatible with various vehicles.
- **Compact and Portable:** Easy to carry and store, ideal for travel, camping, and road trips.
- **Safe and User-Friendly:** Maximum water capacity of 150ml for safety and ease of use. Coffee temperature reaches approximately 60 degrees Celsius.
- **Efficient Heating System:** Advanced heating technology ensures fast brewing in 5-8 minutes.
- **High-Quality Material:** Constructed from food-grade 304 stainless steel for durability and wear-resistance.

SAFETY INSTRUCTIONS

Please read and understand all safety instructions before operating the device to prevent injury or damage.

- Always use pure water for best results and to prevent mineral buildup.
- Do not exceed the maximum water capacity of 150ml. Overfilling can lead to spills and potential hazards.
- Always unplug the coffee machine from the power source before cleaning or performing any maintenance.
- Do not submerge the main unit of the coffee machine in water or any other liquid.
- Avoid using alcohol or harsh detergents for cleaning. Use only clean water and a soft brush as instructed.

- Ensure the device is placed on a stable, flat surface during operation, especially in a moving vehicle.
- Keep out of reach of children.
- Do not operate the device if the power cord or plug is damaged.

SETUP

Before first use, ensure all components are present and clean.

Package Contents:

- 1 x Main Unit
- 1 x Cup Holder
- 1 x Cup Lid
- 1 x Inner Tank
- 1 x Cup Body
- 1 x Power Cord (Cigarette Lighter 12/24V)
- 1 x Insurance Tube
- 8 x Plastic Bracket

Assembly:

1. Ensure all parts are clean and dry before assembly.
2. Assemble the cup body, inner tank, and cup lid as shown in the diagram.
3. Connect the assembled cup to the main unit.
4. Insert the cigarette lighter plug of the power cord into your vehicle's 12V or 24V outlet.

OPERATING INSTRUCTIONS

Follow these steps to brew coffee with your Topyond Car Coffee Maker:

1. **Fill with Water:** Fill the lower part of the coffee maker (the water reservoir) with cold, pure water. Do not exceed the 150ml maximum capacity.
2. **Add Coffee Grounds:** Fill the funnel (filter basket) with your desired amount of ground coffee. Do not tamp the coffee grounds.
3. **Assemble:** Screw the top part of the coffee maker back onto the main unit securely.
4. **Power On:** Ensure the power cord is securely plugged into your vehicle's cigarette lighter socket. Turn the switch on the coffee maker to the "ON" position.
5. **Brewing:** The coffee machine will begin the brewing process automatically. Heating and brewing typically take 5-8 minutes.
6. **Enjoy:** Once brewing is complete, the delicious coffee is ready to be served. The coffee temperature will be around 60 degrees Celsius.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and longevity of your coffee maker.

1. **Unplug Before Cleaning:** Always unplug the coffee machine from the power source before attempting any cleaning.
2. **Clean Coffee Container:** Clean the coffee container (cup body and inner tank) with clean water. You may use a mild dish soap if necessary, rinsing thoroughly.
3. **Clean Water Tank:** Use a soft brush to clean the water tank (lower part of the main unit).
4. **Do Not Submerge:** *Do not submerge the main unit of the coffee machine in water or any other liquid.*
5. **Avoid Harsh Cleaners:** Do not use alcohol, abrasive cleaners, or strong detergents, as these can damage the materials.
6. **Drying:** Ensure all parts are completely dry before reassembling or storing the coffee maker.

TROUBLESHOOTING

If you encounter issues with your Topyond Car Coffee Maker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Coffee maker does not turn on.	Not properly plugged in; vehicle's cigarette lighter socket is not providing power; blown fuse in the cigarette lighter plug.	Ensure the plug is fully inserted. Check if the vehicle's power outlet is working. Inspect the fuse in the cigarette lighter plug and replace if necessary (refer to included insurance tube).
Coffee is not hot enough.	Insufficient heating time; too much water.	Allow the full 5-8 minutes for heating. Ensure water level does not exceed 150ml.
Coffee tastes weak.	Not enough coffee grounds; coffee grounds too coarse.	Increase the amount of coffee grounds. Use a finer grind suitable for drip coffee makers.
Water leaks from the unit.	Components not assembled correctly; overfilled water reservoir.	Ensure all parts (cup body, inner tank, lid) are securely screwed together. Do not exceed the 150ml water capacity.

SPECIFICATIONS

Specification	Detail
Product Size (Assembly Height)	254mm / 10.00in
Product Size (Bottom Diameter)	77mm / 3.03in
Plug Voltage	Cigarette Lighter 12V/24V (Universal)
Cup Capacity	150ml
Material	304 Stainless Steel and ABS
Gross Weight	907g / 31.99oz (approx. 1.87 pounds)
Heating Time	5-8 minutes
Coffee Temperature	Around 60 degrees Celsius
Model Name	Portable
Operation Mode	Manual
Coffee Input Type	Ground Coffee
