1. INTRODUCTION

The MUNBYN Bluetooth Thermal Label Printer, Model ITPP130B, is designed for efficient and high-quality label printing for various applications, including shipping, small businesses, and home organization. This thermal printer operates without ink or toner, offering a cost-effective and reliable printing solution. It features versatile connectivity options, including Bluetooth and USB, and is compatible with a wide range of operating systems and shipping platforms.

2. WHAT'S IN THE BOX

Verify that all components are present in the package:

- MUNBYN Bluetooth Thermal Label Printer (Model ITPP130B)
- USB Cable
- Power Adapter (not explicitly listed but implied for operation)
- User Manual (this document)

3. SETUP

3.1 Unpacking and Placement

Carefully remove the printer from its packaging. Place the printer on a stable, flat surface with adequate space for label feeding and output. Ensure the power cable can reach an electrical outlet and the USB cable (if used) can reach your computer.

3.2 Loading Labels

Open the printer cover and load your thermal labels. Ensure the labels are correctly oriented for printing. The printer supports label widths from 40 mm to 110 mm.

3.3 Connecting the Printer

The MUNBYN ITPP130B offers both USB and Bluetooth connectivity.

USB Connection:

Connect the printer to your computer using the provided USB cable. The printer should be recognized automatically by most operating systems. Install any necessary drivers if prompted.

Bluetooth Connection:

- **For Windows, macOS, and ChromeOS:** Utilize the MUNBYN Editor directly in your Google Chrome browser for driver-free Bluetooth connection.
- **For iOS and Android devices:** Download and use the official MUNBYN app for seamless pairing and printing.
- **For Windows direct Bluetooth connection:** Refer to the detailed instructions in the included manual for driver installation, if required.

3.4 Software/App Installation

For mobile devices, download the "MUNBYN Print" app from your device's app store. For desktop users, the "Munbyn Editor" can be accessed via Google Chrome for label design and printing.

4. OPERATING INSTRUCTIONS

4.1 Basic Printing

Once connected and labels are loaded, open your desired document or label design software. Select the MUNBYN ITPP130B as your printer. Adjust print settings as needed, such as label size and orientation, then initiate the print command. The printer is capable of printing at speeds up to 60 pages per minute with a resolution of 203 DPI.

4.2 Label Customization

The MUNBYN app and online editor provide extensive customization options:

- Access over 3,500 graphic elements and 2,000 templates.
- Choose from 80 available fonts.
- Import PDF/TXT files for printing.
- Utilize OCR (Optical Character Recognition) for text extraction.

4.4 Platform Compatibility

The MUNBYN ITPP130B is compatible with major shipping platforms and e-commerce marketplaces, including:

- FedEx
- UPS
- USPS
- Amazon
- Shopify

- Etsy
- Colissimo
- Vinted
- Leboncoin
- eBay

Note: UPS thermal paper may have compatibility issues.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your printer.

5.1 Cleaning the Print Head

The thermal print head is a critical component. Clean it periodically with an alcohol swab or a specialized thermal print head cleaning pen. Ensure the printer is turned off and cooled down before cleaning.

5.2 Cleaning the Exterior

Wipe the exterior of the printer with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the surface.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your MUNBYN thermal label printer.

6.1 Poor Print Quality

- **Issue:** Faint, streaky, or incomplete prints.
- **Solution:** Clean the thermal print head (refer to Section 5.1). Ensure you are using high-quality thermal labels. Check print density settings in your software or app.

6.2 Connectivity Issues

- **Issue:** Printer not connecting via USB or Bluetooth.
- **Solution (USB):** Ensure the USB cable is securely connected to both the printer and the computer. Try a different USB port or cable. Restart both devices.
- **Solution (Bluetooth):** Ensure Bluetooth is enabled on your device and the printer. For mobile, confirm the MUNBYN app is open and paired. For desktop, ensure you are using the MUNBYN Editor in Chrome or have installed the necessary drivers for direct Bluetooth connection (Windows).

6.3 Label Feeding Problems

- **Issue:** Labels not feeding correctly or jamming.
- **Solution:** Ensure labels are loaded correctly and aligned within the guides. Check for any obstructions inside the printer. Verify that the label roll is not too tight or too loose.

6.4 Printer Not Responding

- **Issue:** Printer is on but does not respond to commands.
- **Solution:** Power cycle the printer (turn it off, wait 10 seconds, then turn it back on). Restart your computer or mobile device. Reinstall printer drivers or the MUNBYN app if the issue persists.

7. SPECIFICATIONS

Feature	Detail
Brand	MUNBYN
Model Name	MU-ITPP130B-BK-EU
Model Number	ITPP130B
Connectivity Technology	Bluetooth, USB

Feature	Detail
Print Technology	Thermal
Special Feature	Bluetooth
Color	Black
Printer Output	Monochromatic
Max Print Speed (Black & White)	60-72 Pages per minute
Item Weight	800 Grams
