OVUTEK VWS530-KUS

Ovutek VWS530-KUS Digital Bathroom Scale Instruction Manual

Model: VWS530-KUS

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Ovutek VWS530-KUS Digital Bathroom Scale. Please read this manual thoroughly before use and retain it for future reference.

2. SAFETY INFORMATION

- Always place the scale on a hard, flat surface for accurate measurements. Avoid carpets or uneven floors.
- The scale surface is made of tempered glass. To prevent slipping, ensure the surface is dry before stepping on it.
- Do not jump on the scale or subject it to sudden impacts.
- Do not immerse the scale in water or use abrasive cleaning agents.
- Keep batteries out of reach of children.
- The maximum weight capacity is 450 lb (205 kg). Do not exceed this limit.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- Ovutek VWS530-KUS Digital Bathroom Scale
- 4 x AAA Batteries
- Quick Start Guide (this manual)

Image: The Ovetek VWS530-KUS Digital Bathroom Scale, black, with four AAA batteries shown alongside.

4. SETUP

4.1 Battery Installation

1. Locate the battery compartment on the underside of the scale.
2. Open the battery compartment cover.
3. Insert the 4 AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

4.2 Scale Placement

Place the scale on a hard, flat, and stable surface. Uneven surfaces or soft flooring like carpets can affect accuracy.

4.3 Unit Selection

On the underside of the scale, locate the 'UNIT' button. Press this button to cycle through the available weight units:

pounds (lb), kilograms (kg), or stones (st).

Image: A close-up view of the underside of the scale, highlighting the battery compartment and the 'UNIT' button for changing measurement units.

5. OPERATING INSTRUCTIONS

5.1 Basic Weighing

1. Step onto the scale with bare feet, standing still and centered.
2. The scale will automatically turn on and display your weight.
3. Remain on the scale until the reading stabilizes and flashes, then locks.
4. Step off the scale. The weight will remain displayed for approximately 15 seconds before the scale automatically turns off.

Larger Display for Easy Reading

Bright and clear LED display
for easy reading day or night from any angle

Image: The Ovutek digital scale showing a clear, bright LED display with a weight reading, visible in both bright and dim lighting conditions.

5.2 Family Mode (Baby/Pet Weighing)

The scale features a 'Family Mode' to accurately weigh babies or pets. This mode calculates the difference between two measurements.

1. First, weigh yourself alone and wait for the reading to stabilize and lock.
2. Step off the scale.
3. Immediately pick up your baby or pet and step back onto the scale.
4. The scale will display your combined weight, then automatically calculate and display the weight of the baby or pet.

Image: A visual guide demonstrating the three steps of Family Mode: weighing an adult, then the adult holding a baby, and finally the scale displaying the baby's calculated weight.

5.3 Weighing Light Items

The scale can measure items as light as 0.2 lb (100g) with increments down to 0.05 lb (0.02 kg).

- For items under 5 lb, activate the scale first by briefly stepping on it and then stepping off.
- Place the light item on the center of the scale.
- The scale will display the item's weight.

Image: The Ovutek scale accurately displaying the weight of a small, wrapped gift box, demonstrating its capability to weigh light items.

6. MAINTENANCE

6.1 Cleaning

Wipe the scale surface with a soft, damp cloth. Do not use chemical cleaning agents or abrasive materials, as these can damage the glass and electronic components.

6.2 Battery Replacement

When the battery indicator appears on the display, replace all 4 AAA batteries with new ones. Refer to section 4.1 for battery installation instructions.

6.3 Storage

Store the scale in a cool, dry place. Avoid extreme temperatures and direct sunlight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No display/Scale won't turn on	Dead batteries; Incorrect battery installation	Replace batteries; Check battery polarity
Inaccurate readings	Scale on uneven surface; Scale not calibrated; Movement during weighing	Place on hard, flat surface; Step on and off briefly to calibrate; Stand still during measurement
"Err" message on display	Overload; Unstable reading	Ensure weight is within 450 lb limit; Step off and re-weigh, standing still
Weight fluctuates	Scale on soft surface; Movement; Air currents	Ensure scale is on a stable, hard surface; Stand still; Avoid drafts

8. SPECIFICATIONS

Feature	Detail
Model Number	VWS530-KUS
Brand	OVUTEK
Product Dimensions	11.8 x 11.8 x 1 inches
Item Weight	3.53 ounces
Weight Limit	450 Pounds (205 kg)
Accuracy Increment	0.05 lb (0.02 kg)
