addlon 52-inch Ceiling Fan with Light and Remote Control

User Instruction Manual

PRODUCT OVERVIEW

The addlon 52-inch Ceiling Fan is a modern and efficient solution for both indoor and outdoor spaces (not directly exposed to rain). It features a double-sided fan blade design, offering aesthetic versatility and powerful airflow. Equipped with a remote control, this fan provides convenient operation, including adjustable wind speeds, light settings, and a reversible DC motor for year-round comfort. Its noiseless operation ensures a peaceful environment, making it ideal for bedrooms and living areas.

Video 1: Official installation guide for the addlon 5 Blades Downrod Mount Ceiling Fan with Light, provided by the seller.

Pre-Installation Checklist:

- Ensure you have a fan-rated junction box for secure mounting.
- Verify all components are present as per the packing list.
- Turn off power at the circuit breaker before beginning installation.

OPERATING INSTRUCTIONS

Remote Control Functions:

The included remote control provides comprehensive command over your ceiling fan's features:

- **Power On/Off:** Control the fan and light.
- **Wind Speeds:** Adjust between 6 gears (comfortable, natural, strong wind).
- **Timer:** Set automatic shut-off for 1, 2, or 4 hours.
- **Forward/Reverse Rotation:** Change fan direction for summer cooling or winter heat circulation.
- **Memory Function:** The fan retains its last settings (light brightness, color temperature, fan speed) when turned off via the wall switch and back on after 10 seconds.

The graphic features a central circular image of a black ceiling fan with three blades and a light fixture, set against a blurred indoor background. Below this image is a horizontal line with five orange circular icons, each representing a feature. From left to right, the icons are: a clock for timer setting, two curved arrows for reversible rotation, a remote control for remote control, three wavy lines for wind speeds, and a lightbulb for customizable light.

Multi-function Fan

- Timer Setting**
1 / 2 / 4 / 8 H
- Reversible**

3000-6000K

Figure 3: Overview of the multi-function remote control for the addlon ceiling fan, showing timer, reversible mode, remote control, 6 wind speeds, and customizable light options.

Customizable Lighting:

Tailor the ambiance of your room with flexible lighting options:

- **Dimmable:** Adjust brightness from 10% to 100%.
- **Color Temperature:** Choose from 3 settings:
 - 3000K (Warm White)
 - 4000K (Natural White)
 - 6000K (Cold White)
- **Memory Function:** The fan remembers your preferred light brightness and color temperature settings. Ensure the light is off for at least 10 seconds for settings to save.

Noiseless Experience

Enjoy the wind, but keep out the noise

80dB
50dB
40dB
30dB
24dB

City Normal Chat Whisper Library Ours

The advertisement features a woman lying on a grey rug, wearing headphones and holding a laptop. To her left is a noise level comparison chart with five vertical bars of varying heights, each representing a different noise level. The bars are labeled with their respective decibel (dB) values: 80dB (City), 50dB (Normal Chat), 40dB (Whisper), 30dB (Library), and 24dB (Ours). The 'Ours' bar is highlighted with an orange background and a white border. The background of the advertisement shows a beige sofa and a laptop on the rug.

Figure 4: Visual representation of the three color temperature options (Warm, Natural, Cold) and the 10-100% dimmable range.

Quiet Operation:

Experience superior comfort with minimal noise. This fan operates at a low volume of 35dB, comparable to the sound of falling leaves, ensuring a quiet living and sleeping environment.

Reversible DC Motor

Warm in winter, cool in summer

Summer
Strong wind, rapid cooling

Winter
Balance indoor heating and cooling

Reversible by remote control

Figure 5: Chart illustrating the low noise level (24dB) of the addlon fan compared to typical city noise, normal chat, whisper, and library sounds.

MAINTENANCE

To ensure optimal performance and longevity of your addlon ceiling fan, regular maintenance is recommended:

- **Cleaning:** Periodically wipe down the fan blades and motor housing with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Blade Inspection:** Check fan blades for any dust buildup or damage that could affect balance or airflow.
- **Tighten Screws:** Over time, screws may loosen. Periodically check and tighten all mounting and blade screws to prevent wobbling or noise.
- **Light Kit:** The LED light kit is replaceable. If the light board is damaged or lost, contact customer support for

assistance.

TROUBLESHOOTING

If you encounter any issues with your addlon ceiling fan, refer to the following common troubleshooting tips:

- **Fan Does Not Operate:**
 - Check that the power supply is connected and the wall switch is on.
 - Ensure the remote control batteries are correctly installed and not depleted.
 - Verify all wiring connections are secure.
- **Light Does Not Work:**
 - Confirm the light function is enabled on the remote.
 - Check the light kit connection.
- **Fan Wobbles:**
 - Ensure all blade screws are tightened.
 - Verify the mounting bracket is securely fastened to the ceiling junction box.
- **Noise Issues:**
 - Check for loose screws on the fan blades or motor housing.
 - Ensure the fan is properly balanced.

For further assistance, please contact addlon customer support.

SPECIFICATIONS

Feature	Detail
Brand	addlon
Model Name	KDM52PLY5B01R1
Size	52 inch
Color	Black
Power Source	AC (120 Volts)
Wattage	50 watts
Motor Type	High Quality DC Motor
Wind Speeds	6 Speeds (with Natural Wind Mode)
Light Temperature	3000K, 4000K, 6000K (Adjustable)
Dimmable Light	10%-100%
Control Method	Remote
