## ROOMTEC RXZER23

# ROOMTEC 42-inch Hydraulic Pet Grooming Table

Model: RXZER23

## INTRODUCTION

---

This manual provides detailed instructions for the safe and efficient assembly, operation, and maintenance of your new ROOMTEC 42-inch Hydraulic Pet Grooming Table. Please read all instructions carefully before use to ensure optimal performance and safety for both you and your pet.

## SAFETY INFORMATION

---

**WARNING: Failure to follow these safety guidelines may result in injury or damage.**

- Do not exceed the maximum weight capacity of 330 lbs. Exceeding this limit may cause injury or damage to the table.
- Ensure proper handling of adjustment screws and the clamp-on style arm during assembly and use to prevent injury.
- Improper assembly can lead to instability or collapse of the table. Always follow the provided assembly instructions.
- Be aware of sharp corners, if applicable, to prevent accidental injury.
- Always supervise your pet while on the grooming table. Never leave a pet unattended.

## PACKAGE CONTENTS

---

Your ROOMTEC Hydraulic Pet Grooming Table is shipped in two packages and includes the following components:

- 1 x Tabletop
- 1 x Table Base (Z-shaped Hydraulic Grooming Table with H-base)
- Adjustable Grooming Arm
- Leash Covers
- Tool Organizer
- Hooks
- Adjustment Screws
- Assembly Instructions

## SETUP & ASSEMBLY

The ROOMTEC Hydraulic Pet Grooming Table is designed for straightforward assembly, typically taking less than 30 minutes. Follow the included assembly instructions carefully. The main components are the tabletop and the hydraulic base. Securely attach the tabletop to the base using the provided hardware and adjustment screws. Ensure all connections are tight and stable before use.

## OPERATING INSTRUCTIONS

### Hydraulic Height Adjustment

The grooming table features an adjustable hydraulic design, allowing you to easily modify the table's height from 21 inches to 36 inches. Use the foot pedal located at the base to raise or lower the table to your desired working height. Press the pedal all the way down to lower the table, and pump it to raise it. This feature accommodates various pet sizes and user preferences, reducing strain during grooming sessions.

Video: Demonstration of the hydraulic height adjustment mechanism of the pet grooming table.

## Adjustable Grooming Arm and Tool Organizer

The table includes a multifunctional, adjustable grooming arm with a tool organizer. The arm can be adjusted in height to suit your pet's size and grooming needs. The tool organizer is designed to hold up to 5kg of grooming tools and supplies, keeping them within easy reach. Additionally, three adjustable hooks are located on the underside of the tabletop, providing extra space for hanging items.

## MAINTENANCE

- **Cleaning the Tabletop:** The tabletop features a pebbled, non-slip plastic and rubber composite material with a static-free surface, allowing for easier cleaning. Wipe down the surface with a damp cloth and mild detergent after each use to maintain hygiene and prevent buildup.
- **Frame Care:** Regularly inspect the metal frame for any signs of wear or damage. Clean the frame with a soft, dry cloth.
- **Hydraulic System:** Periodically check the hydraulic system for smooth operation. If you notice any issues, consult the troubleshooting section or contact customer support.
- **Hardware:** Ensure all screws and bolts remain tightened. Periodically check and tighten any loose hardware to maintain stability.

## TROUBLESHOOTING

---

- **Table Wobbling:** If the table wobbles, first ensure it is placed on a flat, stable surface. Check the adjustable screw bases underneath the base and adjust them to stabilize the table. Ensure all assembly bolts are securely tightened.
- **Tabletop Durability:** The table is designed for a weight capacity of 330 lbs. Ensure this limit is not exceeded. For heavy-duty use or larger breeds, consistent monitoring of the tabletop's condition, especially around clamp areas, is recommended.
- **Foot Pump Operation:** If the foot pump feels 'touchy' or is not operating smoothly, ensure there are no obstructions. If issues persist, refer to the assembly instructions for the hydraulic mechanism or contact customer support.

## SPECIFICATIONS

---

Feature	Detail
Overall Size (L x W x H)	45.3" x 23.6" x (21" - 36")
Tabletop Size (L x W)	42.5" x 23.5"
