## IMPORTANT SAFETY INFORMATION

---

- Keep the desk away from walls to prevent scratches or damage during height adjustments.
- This product is designed for indoor use only. Avoid exposure to liquids or excessive moisture.
- The desk features an overheating protection system. If the desk is raised or lowered continuously for approximately 2 minutes, the system will activate. Allow an 18-minute cool-down period before attempting further height adjustments.
- Ensure all cables are properly managed and secured to prevent tripping hazards or damage to the desk mechanism.
- Do not exceed the maximum weight capacity of 154 lbs (70 kg).

## SETUP AND ASSEMBLY

---

Assembly of the VASAGLE Electric Standing Desk is required. For optimal safety and efficiency, it is recommended that two people assemble the desk. An electric drill may be helpful for faster assembly, though all necessary tools are typically included.

## OPERATING INSTRUCTIONS

### Height Adjustment

The desk's height can be adjusted electrically from 28.3 inches (72 cm) to 47.2 inches (120 cm). The motor operates smoothly with a noise level of 48 dB or less and a setting speed of 25 mm/s.

- **Raise/Lower:** Use the up and down arrow buttons on the controller to adjust the desk height.
- **Memory Presets:** The controller features 3 memory buttons (1, 2, 3) to save your preferred sitting and standing heights. To

save a height, adjust the desk to the desired level, then press the 'S' button followed by one of the memory buttons (1, 2, or 3). To recall a saved height, simply press the corresponding memory button.

- **Initialization:** After initial setup or if the desk is unresponsive, perform an initialization by holding the down arrow button for approximately 5 seconds until the desk reaches its lowest point and resets.

## MAINTENANCE

To ensure the longevity and proper function of your VASAGLE Electric Standing Desk, follow these maintenance guidelines:

- **Cleaning:** Wipe the desk surfaces with a dry, soft cloth. Avoid using abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** In case of spills, immediately wipe them dry to prevent moisture damage to the particleboard or electrical components.
- **Cable Inspection:** Periodically check all power cords and connections for any signs of wear or damage. Replace damaged

cables immediately.

- **Screw Tightness:** Occasionally check and tighten any loose screws on the desk frame to maintain stability.

## TROUBLESHOOTING

---

If you encounter issues with your electric standing desk, refer to the following common troubleshooting steps:

- **Desk Not Moving:**
  - Ensure the power cord is securely plugged into both the desk and a working wall outlet.
  - Check if the overheating protection is active (desk was used continuously for 2 minutes). Wait 18 minutes before attempting to adjust the height again.
  - Perform an initialization: Press and hold the down arrow button on the controller for approximately 5 seconds until the desk moves to its lowest position and resets.
- **Uneven Height Adjustment:**
  - Ensure the desk is placed on a level surface.
  - Check that all frame connections are securely tightened.
  - Perform an initialization as described above.
- **LED Lights Not Working:**
  - Verify that the LED light strip is properly connected to its power source.
  - Check the power strip for functionality.
- **Power Outlets/USB Ports Not Working:**
  - Ensure the power strip is correctly installed and connected to the desk's power supply.
  - Check if the main power cord for the desk is plugged in.

If these steps do not resolve the issue, please contact customer support for further assistance.
