

Fastrack NT3287KL02

Fastrack Tick Tock Quartz Multifunction Watch NT3287KL02 User Manual

Model: NT3287KL02 | Brand: Fastrack

INTRODUCTION

Thank you for choosing the Fastrack Tick Tock Quartz Multifunction Watch NT3287KL02. This timepiece is designed for men who appreciate minimal elegance combined with practical functionality. This manual provides essential information for setting up, operating, and maintaining your watch to ensure its longevity and accurate performance.

PRODUCT OVERVIEW

The Fastrack Tick Tock watch features a crisp white dial with a clean multifunction layout. It includes three subdials displaying day, date, and 24-hour time. The watch is encased in polished stainless steel and secured with a brown leather strap.

Key Features:

- **Multifunction Subdials:** Displays day, date, and 24-hour time for added functionality.
- **Rose Gold-Toned Pusher:** Adds a subtle accent of luxury and contrast to the side profile.
- **Stainless Steel Case:** Sleek silver-toned case ensures durability and modern appeal.
- **Brown Leather Strap:** Rich brown genuine leather offers all-day comfort and classic style.
- **50M Water Resistance:** Safely withstands splashes, rain, and brief immersion.

SETUP INSTRUCTIONS

Setting the Time:

1. Pull the crown (located on the right side of the watch case) out to the second click position.
2. Rotate the crown to set the hour and minute hands to the desired time. Ensure the 24-hour subdial also aligns correctly for AM/PM.
3. Push the crown back into the normal position to start the watch.

Setting the Date and Day:

1. Pull the crown out to the first click position.
2. Rotate the crown clockwise or counter-clockwise (depending on the specific subdial mechanism) to adjust the date and day subdials. Refer to the watch face for specific subdial indicators.
3. Once the date and day are set, push the crown back into the normal position.

OPERATING INSTRUCTIONS

Your Fastrack Tick Tock watch is a quartz multifunction timepiece. Once the time, day, and date are set, the watch will operate continuously. The subdials will automatically update as the main time progresses.

Water Resistance:

This watch is rated for 50 meters (5 ATM) water resistance. This means it is suitable for everyday use, including splashes, rain, and brief immersion in water. It is **not** suitable for swimming, diving, or prolonged water activities. Avoid operating the crown or pushers when the watch is wet or submerged to prevent water ingress.

MAINTENANCE

Cleaning:

Wipe the watch case and crystal with a soft, dry cloth. For the leather strap, use a slightly damp cloth and allow it to air dry. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish or strap.

Strap Care:

Leather straps can be affected by moisture, sweat, and direct sunlight. To prolong the life of your leather strap, avoid prolonged exposure to water and direct sunlight. If the strap becomes wet, dry it thoroughly before wearing.

Battery Replacement:

The watch is powered by a quartz movement, which requires a battery. When the watch stops or the second hand begins to jump erratically (indicating a low battery), it is time for a battery replacement. It is recommended to have the battery replaced by an authorized Fastrack service center to ensure proper sealing and maintain water resistance.

TROUBLESHOOTING

- **Watch Not Running:**

Check if the crown is pushed all the way in. If it is, the battery may need replacement. Contact an authorized service center.

- **Incorrect Time/Date:**

Refer to the "Setup Instructions" section to reset the time, day, and date. Ensure the crown is fully pushed in after adjustment.

- **Condensation Inside Crystal:**

This may indicate a loss of water resistance. Avoid further contact with water and take the watch to an authorized service center immediately.

SPECIFICATIONS

Feature	Detail
Model Name	Tick Tock
Model Number	NT3287KL02
