6. CARE AND MAINTENANCE

- **Cleaning:** The cat tree is made of plush fabric and sisal. For general cleaning, spot clean with a damp cloth and mild detergent. The manufacturer recommends dry cleaning for thorough cleaning.
- **Location:** Keep the cat tree indoors and in a dry place to prevent damage to materials.
- **Inspection:** Regularly check all connections and tighten any loose screws or bolts to maintain stability.
- **Sisal Condition:** Monitor the sisal scratching surfaces for wear. While durable, sisal will fray over time with use.

- **Wobbling/Instability:** Ensure the cat tree is placed on a level surface. Re-tighten all assembly hardware. Verify the anti-tip kit is correctly installed and secured to a wall.
- **Loose Parts:** Periodically check all screws and bolts. Tighten any that have become loose due to cat

activity.

- **Cat Disinterest:** Introduce your cat to the tree gradually. Place familiar toys or treats on different levels. Catnip can also be used to encourage exploration.
