## Maintenance

Proper maintenance will extend the life of your Heybly Cat Tree:

- **Cleaning:** The plush fabric components are recommended for dry clean only. For minor spots, use a damp cloth and mild detergent, then air dry.
- **Location:** Keep the cat tree indoors and in a dry place to prevent damage to the engineered wood

and fabric.

- **Inspection:** Regularly check all screws and connections to ensure they are tight and secure. Tighten as needed.
- **Scratching Posts:** Monitor the sisal-wrapped posts for wear and tear. While durable, heavily used areas may eventually require replacement or repair to maintain effectiveness.

## Troubleshooting

If you encounter any issues with your Heybly Cat Tree, consider the following:

- **Stability Concerns:** Ensure all connections are securely tightened. Verify the anti-tip kit is properly installed and anchored to a wall.
- **Cat Not Using the Tree:** Introduce your cat to the tree gradually. Place treats or familiar toys on different levels. Catnip can also be used to encourage exploration.
- **Damaged Components:** If any part of the cat tree is damaged or missing, please contact Heybly customer support for assistance. Do not attempt to use the tree if it is unstable or has broken parts.
