JIO JioMotive JCR1440

JioMotive OBD GPS Tracker & Wi-Fi Router

USER MANUAL

Your guide to setting up, operating, and maintaining your JioMotive device.

1. PRODUCT OVERVIEW

The JioMotive is an advanced On-Board Diagnostics (OBD) device that transforms your vehicle into a smart, connected car. It offers real-time GPS tracking, in-car Wi-Fi, vehicle health monitoring, and driving behavior analysis, all powered by Jio's 4G eSIM technology.

The JioMotive device and its accompanying smartphone application for comprehensive vehicle management.

Key Features:

- **Real-time GPS Tracking:** Monitor your vehicle's location 24x7.

- **Geo-Fencing and Time-Fencing:** Set custom boundaries and time restrictions with instant alerts for entry or exit.

- **In-Car Wi-Fi:** Enjoy high-speed 4G Wi-Fi connectivity for up to 8 devices using your existing Jio SIM plan.

- **Vehicle Health Monitoring:** Receive updates on your car's health, including Diagnostic Trouble Codes (DTCs), battery voltage, coolant temperature, and air intake temperature.

- **Driving Behavior Analysis:** Gain insights into driving patterns to promote safer habits.

- **Vehicle Security and Safety:** Get automatic alerts for towing and device tampering.

- **Easy DIY Installation:** Simple plug-and-play setup process.

2. SETUP AND INSTALLATION

The JioMotive device is designed for easy Do-It-Yourself (DIY) installation. Follow these steps to get your device up and running.

DIY Setup Process in 9 Easy Steps:

1. Download and Install the JioThings App from Google Play Store or Apple App Store.

2. Login or Sign up to JioThings with your Jio Number. Click on "+" and select JioMotive.

3. Enter the IMEI Number from the JioMotive Box or the Device and Click "Proceed".

4. Enter your car details like Registration Number, Car Name (Set a Name for Your Car), Vehicle Make, Model, Fuel Type, Year of Make and Click "Save".

5. Plug the JioMotive Device into your car's OBD Port. Turn Your Car On and follow the next steps. Ensure your Car is in an open space with good Jio Network.

6. Agree to the terms and conditions of JioEverywhere Connect Number Sharing Plan and Click "Enable".

7. Click on "JioJCR1440" and Click "Proceed" On the Next Screen.

8. You will receive a confirmation message on Screen for Activation Request.

9. Keep Your Car on for 10 mins/drive for 4-5 Kms in good Jio Network for the device to get activated. Your data will start flowing in JioThings app within 4 Hours (at max).

3. OPERATING YOUR JIOMOTIVE

Real-time GPS Tracking

The JioMotive provides continuous 24x7 tracking of your vehicle. You can view its live location, historical routes, and speed data directly through the JioThings app.

WiFi In Car

4G Realtime Car tracking

Instant Notification Alerts

My Car entered office
10:15 AM

My Car - Being towed
14:08 PM

My Car exceeds speed limit, current sped is 89 kmph
18:32 PM

JioMotive eSIM

Harsh Driving Alerts

Easy Setup & Low Maintenace

Check Engine Health

Geo Fencing Alert

Monitor your vehicle's location and trip summary in real-time.

Geo-Fencing and Time-Fencing

Create custom geofences of any shape on the map and receive instant alerts when your vehicle enters or exits these defined areas. Time-fencing allows you to set specific hours during which the vehicle should not be in motion, providing peace of mind.

Visualize and manage your geo-fenced zones for enhanced security.

In-Car Wi-Fi Hotspot

The JioMotive acts as a 4G Wi-Fi router, providing high-speed internet connectivity inside your car. It supports up to 8 connections simultaneously, utilizing your existing Jio Smartphone Data Plan without additional costs.

Real-Time Vehicle Health Insights*

Detects Diagnostic Codes & Prevents unexpected breakdowns

JioMotive 4G

Engine Load Alert

Diagnostic Trouble Codes

Coolant Temperature

Battery Health

Air Intake Temperature

*Most Petrol and Diesel cars, Year 2013 Onwards, have CAN based Engines and are supported. K-Line Engine based cars are not fully compatible.

Enjoy seamless internet connectivity for entertainment and productivity on the go.

Vehicle Health Monitoring

Receive critical updates on your car's health. The JioMotive detects Diagnostic Trouble Codes (DTCs) and provides insights into various parameters, helping prevent unexpected breakdowns.
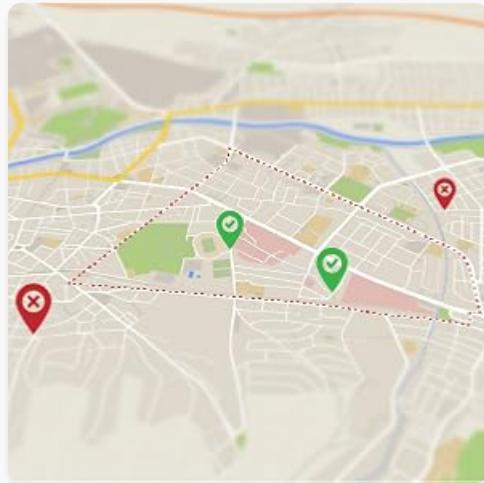

Engine Load Alert

Diagnostic Trouble Codes

Coolant Temperature

Battery Health
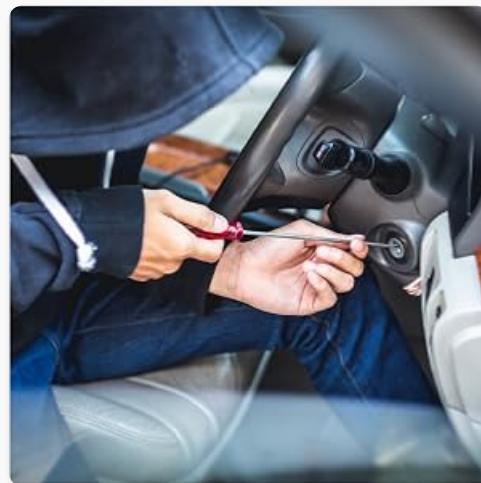

Air Intake Temperature

Monitor key vehicle health parameters directly from the app.

Driving Behavior Analysis

The device helps inculcate safe driving behavior by analyzing metrics such as harsh braking, rapid acceleration, overspeeding, and sharp turns. This data can be reviewed in the app to improve driving habits.

Promote safer driving habits with detailed behavior analysis.

Vehicle Security and Safety Alerts

Receive instant notifications for critical events such as vehicle towing and device tampering, ensuring the security of your car even when you're not around.

Ignition On/Off Alerts

Device Tampering Alerts

Stay informed about your vehicle's security status.

4. MAINTENANCE

The JioMotive device is designed for minimal maintenance. Keep the device clean and ensure it is securely plugged into the OBD port. Avoid exposing it to extreme temperatures or moisture. Regular updates to the JioThings app will ensure optimal performance and access to the latest features.

5. TROUBLESHOOTING

If you encounter any issues with your JioMotive device, please refer to the common solutions below. For further assistance, contact customer support.

- **Device Not Activating/No Data Flow:** Ensure your car is in an open area with good Jio network coverage during activation. Drive for 4-5 km after plugging in the device. Data flow may take up to 4 hours to begin. Verify the IMEI number entered during setup is correct.

- **No Vehicle Health Data:** The JioMotive supports most Petrol and Diesel cars manufactured from 2013 onwards with CAN-based engines. K-Line engine based cars are not compatible for vehicle health data. Electric Vehicles, Hybrids, Heavy Load Vehicles, Fiat Cars, Volvo S90 (2023 Make), and Bikes are not compatible with the device.

- **Jio SIM Related Issues:** The device works exclusively with a Jio SIM. Once paired, the Jio number cannot be changed. Ensure your primary Jio Smartphone plan is active and extended to your JioMotive.

- **Inaccurate Location/Speed:** Ensure the device is securely plugged in and has a clear GPS signal. In some cases, minor delays in speed updates are normal.

- **App Not Responding:** Try restarting the JioThings app or your smartphone. Ensure the app is updated to the latest version.

6. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	JIO
Model Name	JioMotive
Item Model Number	JCR1440
Product Dimensions	6.6 x 5.1 x 2.3 cm
