3. **Connect Power:** Insert the power adapter into the DC input port on the massager. Plug the power adapter into a suitable electrical outlet.
4. **Prepare for Use:** Ensure the inner foot covers are properly inserted.

6. Operating Instructions

Follow these steps to operate your Snailax Shiatsu Foot Massager:

1. **Power On:** Press the Power button on the unit or the remote control to turn on the massager. The unit will typically start with default low settings for all functions.
2. **Insert Feet:** Gently place your feet into the foot inserts of the massager. The massager is designed to accommodate feet up to size 12.
3. **Select Massage Mode:**
    - **Kneading:** Press the "Knead" button to cycle through low, medium, and high intensity levels for deep kneading massage.
    - **Air Compression:** Press the "Air" button to adjust the air compression intensity (low, medium, high).
    - **Vibration:** Press the "Vibration" button to select low, medium, or high vibration intensity.
4. **Activate Heat Function:** Press the "Heat" button to turn on the warming function. Press again to cycle between low and high heat levels. The heat function can be used independently or in conjunction with other massage modes. The unit heats up quickly to a maximum of 131°F (55°C).
5. **Adjust Settings:** Use the respective buttons on the unit or remote control to customize your massage experience. Each function can be turned on/off or adjusted separately.
6. **Automatic Shut-off:** The massager is equipped with an automatic shut-off timer, typically set for 15 minutes, to prevent overheating and ensure safety. You can restart the unit for another session if desired.
7. **Power Off:** When finished, press the Power button to turn off the massager. Unplug the unit from the power outlet when not in use.

7.2. Storage

Store the massager in a cool, dry place when not in use. Avoid placing heavy objects on top of the unit.

8. Troubleshooting

Problem	Possible Cause	Solution
Massager does not turn on.	Power cord not securely plugged in. No power from outlet. Unit has overheated and auto-shutoff activated.	Ensure power cord is firmly connected to the unit and outlet. Test the outlet with another device. Unplug the unit and allow it to cool down for at least 30 minutes before restarting.

Problem	Possible Cause	Solution
Heat function is not working.	Heat function not activated. Unit has reached its maximum operating temperature.	Press the "Heat" button on the unit or remote. Allow the unit to cool down. The heat function may temporarily disable if the internal temperature exceeds safe limits.
Massage intensity feels too strong/weak.	Intensity setting is not preferred.	Adjust the kneading, air, or vibration intensity using the respective buttons on the unit or remote control.
Remote control is not responding.	Batteries are low or depleted. Obstruction between remote and unit.	Replace the batteries in the remote control. Ensure there is a clear line of sight between the remote and the massager's sensor.
