3. SETUP INSTRUCTIONS

Your Dripex Hollywood Makeup Mirror offers flexible installation options: tabletop or wall-mounted.

3.1 Tabletop Installation:

1. Carefully unpack all components from the packaging.
2. Attach the metal base to the bottom of the mirror using the provided screws. Ensure the base is securely fastened to provide stability.
3. Place the mirror on a flat, stable surface such as a vanity table or dresser.
4. Connect the power adapter to the mirror's power input and then plug it into a suitable electrical outlet.

Figure 2: Mirror in tabletop configuration.

3.2 Wall-Mounted Installation:

1. Remove the metal base if it was previously attached for tabletop use.
2. Identify the two mounting holes on the back of the mirror.
3. Choose a suitable location on a sturdy wall. Mark the positions for drilling, ensuring they align with the mirror's mounting holes.
4. Drill holes and insert appropriate wall anchors (not always included, use suitable ones for your wall type).
5. Securely fasten the mirror to the wall using screws through the mounting holes. Ensure the mirror is level and stable.
6. Connect the power adapter to the mirror's power input and then plug it into a suitable electrical outlet.

4. OPERATING INSTRUCTIONS

The mirror features intuitive touch controls located on the mirror surface.

4.1 Touch Control Functions:

- **Center Button (Power):** Tap to turn the lights ON or OFF.
- **"M" Button (Mode/Color Change):** Tap to cycle through the three light color modes:
 - Warm Light
 - Natural Light
 - White Light
- **"P" Button (Brightness Adjustment):** Press and hold to continuously adjust the brightness level. Release when the desired brightness is reached.

4.2 Memory Function:

The mirror is equipped with a memory function that automatically saves your last used light color and brightness settings. When you turn the mirror back on, it will resume with these saved settings.

5. MAINTENANCE

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into the electrical components.
- **Cleaning the Frame:** Wipe the metal frame with a soft, damp cloth. Avoid harsh chemicals.
- **Power Disconnection:** Always unplug the mirror from the power outlet before cleaning or performing any maintenance.
- **Avoid Moisture:** Do not expose the mirror to excessive moisture or spray liquids directly onto it.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lights do not turn on.	- Power adapter not connected. - Power outlet not working. - Touch sensor unresponsive.	- Ensure the power adapter is securely plugged into the mirror and the wall outlet. - Test the outlet with another device. - Gently tap the center power button. If unresponsive, try unplugging and replugging the mirror after 10 seconds.
Lights flicker or are dim.	- Brightness set too low. - Loose power connection.	- Press and hold the "P" button to increase brightness. - Check all power connections.
Touch controls are unresponsive.	- Dirty mirror surface over sensors. - Temporary electronic glitch.	- Clean the mirror surface, especially around the touch buttons. - Unplug the mirror for 10-15 seconds, then plug it back in to reset.
Mirror stand is unstable.	- Base not securely attached. - Uneven surface.	- Ensure all screws securing the base are tightened. - Place the mirror on a completely flat and stable surface.
