4. HOW TO PLAY

4.1 Game Objective

The objective of Monopoly is to be the last player remaining with money and properties, having driven all other players into bankruptcy.

4.2 Game Turn

Players roll both dice. The player with the highest roll goes first. Play proceeds clockwise.

On your turn, follow these steps:

1. **Roll the Dice:** Roll both dice and move your token clockwise around the board the number of spaces indicated.
2. **Action Based on Space:** The action you take depends on the space your token lands on:
 - **Unowned Property (Street, Railroad, Utility):** You may buy the property from the Bank for the price printed on the board. If you choose not to buy it, the Banker immediately auctions it to the highest bidder.
 - **Owned Property:** If another player owns the property, you must pay them rent according to the Title Deed card. If the property is mortgaged, no rent is paid.

- **Chance or Community Chest:** Draw the top card from the respective deck and follow its instructions. Return the card to the bottom of the deck unless it's a "Get Out of Jail Free" card.
 - **Tax Spaces (Income Tax, Luxury Tax):** Pay the specified amount to the Bank.
 - **"GO" (Start):** If you pass or land on "GO", collect €200 from the Bank.
 - **Jail:**
 - If you land on "Just Visiting", you are safe.
 - If you land on "Go to Jail", you immediately move your token to the "In Jail" space. You do not collect €200 for passing "GO".
 - To get out of Jail: Pay €50, use a "Get Out of Jail Free" card, or roll doubles on one of your next three turns. If you fail to roll doubles after three turns, you must pay €50 and then move according to your last roll.
 - **Free Parking:** No action is taken.
3. **Doubles:** If you roll doubles, you take your turn as usual, then roll the dice again for another turn. If you roll doubles three times in a row, you immediately go to Jail.
 4. **Building:** After moving and taking action, you may build houses or hotels on your properties if you own all properties in a color group. Houses must be built evenly across the properties in a group.
 5. **Trading:** You can trade properties, money, or "Get Out of Jail Free" cards with other players at any time.

4.3 Property Management

- **Buying Properties:** When you land on an unowned property, you can buy it for the price listed on the board.
- **Building Houses/Hotels:** Once you own all properties in a color group, you can start building houses. You must build evenly, meaning you cannot place a second house on any property in a group until all properties in that group have one house. Four houses can be traded for one hotel.
- **Mortgaging Properties:** If you need money, you can mortgage properties to the Bank. You receive money from the Bank, but you cannot collect rent on mortgaged properties. To unmortgage, pay the Bank the mortgage value plus 10% interest.
- **Selling Properties:** You can sell undeveloped properties back to the Bank for half their purchase price. Houses and hotels must be sold evenly before selling the property.

5. GAME END

A player is bankrupt if they owe more money than they can pay, even after selling all their buildings and mortgaging all their properties. When a player goes bankrupt, they are out of the game.

The game ends when only one player remains. That player is declared the winner.

6. TROUBLESHOOTING & FAQs

- **Missing Components:** If any components are missing upon opening, please contact customer support (see Section 9).
- **Disputes over Rules:** Refer to this instruction manual for clarification. If a situation is not explicitly covered, players should agree on a fair resolution before continuing.
- **Game Length:** Monopoly can be a long game. For shorter play, consider house rules such as setting a time limit or ending the game when all properties are owned and then counting total assets.
