## 2. Doll Hair Care

Upon first unboxing, the doll's hair may contain styling gel. To prepare the hair for brushing and styling:

1. Gently wash the doll's hair thoroughly with mild soap and lukewarm water.
2. Rinse completely to remove all styling gel residue.
3. Allow the hair to air dry completely before brushing.

## Operating Instructions

### 1. Sparkle Slime Creation

Follow these steps to create your custom sparkle slime:

1. Open the packet of plain slime.
2. Carefully pour the entire packet of shimmer powder into the slime.
3. Mix the shimmer powder into the slime thoroughly until it is evenly distributed and shimmery.

The resulting slime will be a shimmery purple color, matching Violet's aesthetic.

### 2. Magical Pet Customization

Your magical pet can be customized using the newly created sparkle slime:

1. Locate the opening on the pet's head.
2. Fill the pet's head with the sparkle slime. This will change the pet's color and appearance.
3. Ensure the opening is securely closed after filling.

### 3. Customizing Fashion Accessories

The doll's shoes and handbag can also be customized with the sparkle slime:

- Apply a small amount of sparkle slime to the designated areas on the doll's shoes.
- Apply a small amount of sparkle slime to the designated areas on the doll's handbag.
- This allows for personalized styling and color changes to the accessories.

### 4. Posing the Doll

The Rainbow High Violet doll is fully articulated, allowing for a wide range of poses. Her head, arms, hands, and legs are designed to bend. This flexibility enables various creative poses, including dynamic actions like splits. Use the included doll stand for display purposes.

## Maintenance

### Doll Care

- **Cleaning:** Wipe the doll's body and clothing with a damp cloth. Avoid harsh chemicals.
- **Hair Care:** Regularly brush the doll's hair with the provided comb after ensuring it is dry. For tangled

hair, gently detangle with fingers before brushing.

- **Slime Storage:** Store the sparkle slime in an airtight container when not in use to prevent it from drying out.
- **Pet Care:** If the pet's slime becomes dirty, remove it and clean the pet with a damp cloth before refilling with fresh slime.

## Troubleshooting

- **Slime is too sticky/dry:** If the slime is too sticky, try adding a very small amount of activator (if available, or a tiny pinch of baking soda mixed with water). If it's too dry, add a few drops of water and knead thoroughly.
- **Doll's joints are stiff:** Gently manipulate the joints to loosen them. Avoid excessive force.
- **Hair is tangled:** Wash the hair as described in the "Setup" section, then use the comb to gently brush from the ends upwards.
- **Accessories not staying on:** Ensure accessories are properly aligned and snapped into place.
