Karlsson Cuckoo Modern Wall Clock Instruction Manual

Model: PTG-KA5964WD

INTRODUCTION

Thank you for choosing the Karlsson Cuckoo Modern Wall Clock. This timepiece combines contemporary design with the charm of a traditional cuckoo clock, offering both aesthetic appeal and reliable timekeeping. This manual provides essential information for the proper setup, operation, and maintenance of your new clock to ensure its longevity and optimal performance.

SAFETY INFORMATION

- Keep batteries out of reach of children and pets.
- Do not mix old and new batteries, or different types of batteries.
- Remove batteries if the clock will not be used for an extended period to prevent leakage.
- Dispose of used batteries responsibly according to local regulations.
- Avoid placing the clock in direct sunlight or near extreme heat sources, as this may damage the mechanism or finish.
- Do not attempt to disassemble or repair the clock yourself. Refer to qualified personnel for service.

SETUP

1. **Unpacking:** Carefully remove the clock from its packaging. Inspect for any damage.
2. **Battery Installation:** Locate the battery compartment on the back of the clock. Insert the required batteries (typically 3x AA, check compartment for exact type and quantity) ensuring correct polarity (+/-).
3. **Setting the Time:** Use the time-setting knob or wheel on the back of the clock to adjust the hands to the current time. Rotate the knob clockwise until the correct time is displayed.
4. **Mounting:** Choose a suitable location on a wall. The clock is designed to be hung using a nail or screw (not

included) through the hanging slot on the back. Ensure the mounting point is secure and can support the clock's weight.

OPERATING INSTRUCTIONS

- 1. **Timekeeping:** Once batteries are installed and the time is set, the clock will begin keeping time automatically.
- 2. **Cuckoo Function:** The cuckoo bird will emerge from its opening and chime on the hour. The cuckoo mechanism typically operates during daylight hours and is silent at night, often controlled by a light sensor.
- 3. **Volume Adjustment:** If available, locate the volume control for the cuckoo sound on the back or side of the clock. Adjust to your preferred sound intensity.

MAINTENANCE

- **Cleaning:** Wipe the clock surface with a soft, dry cloth. Do not use abrasive cleaners, solvents, or polishes, as these may damage the finish.
- **Battery Replacement:** Replace all batteries annually, or sooner if the clock begins to lose time or the cuckoo function becomes weak or stops.
- **General Care:** Avoid exposing the clock to excessive moisture or extreme temperature fluctuations.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock not working / hands not moving.	Dead or incorrectly installed batteries.	Check battery polarity. Replace with fresh batteries.
Cuckoo not sounding.	Low batteries, dark room (night sensor active), volume too low.	Replace batteries. Ensure adequate light. Increase cuckoo volume.
Clock losing or gaining time.	Low batteries.	Replace with fresh batteries. Re-set the time accurately.
