Safety Information

WARNING:

- Not for use by children. Always use under adult supervision.
- Do not charge the toothbrush while wet. Avoid contact with water while charging.
- Replace brush head every 3 months for optimal performance and hygiene.

Legal Disclaimer: Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

Setup

1. **Charge the Toothbrush:** Place the toothbrush on the wireless charging dock. The toothbrush is powered by a lithium-ion battery and holds its charge for 30+ days. The UV Sanitizing Charging Travel Case can also charge the toothbrush when plugged in.

2. **Attach Brush Head:** Securely push a ProFlex brush head onto the metal shaft of the toothbrush handle.
3. **Optional App Connection:** The Clinical AQ toothbrush is Bluetooth-enabled and can connect to a proprietary app for guided brushing. Download the "Aquasonic Clinical AQ" app from your device's app store. Follow the in-app instructions to pair your toothbrush. Note: Some users have reported app connectivity issues. All important features are accessible directly on the toothbrush's touchscreen.

Operating Instructions

Powering On/Off

Press the power button () to turn the toothbrush on or off. The touchscreen will display "Hello!" upon activation.

Brushing Modes

The Clinical AQ features a high-performance 50,000 VPM motor with 5 distinct brushing modes. Swipe up or down on the touchscreen to cycle through the modes:

- **Clean:** Standard brushing mode for daily cleaning.
- **Soft:** Gentle mode suitable for sensitive teeth and gums.
- **Whiten:** Helps remove daily surface stains for a brighter smile.
- **Massage:** Delivers vibrating microbursts to gently stimulate gums.
- **Deep Clean:** Targets stubborn discoloration and polishes teeth.

Smart Timers and Adjustable Brushing Duration

The toothbrush includes smart timers that signal every 30 seconds to prompt you to move to the next quadrant of your mouth. It automatically powers off when brushing is complete.
You can adjust the brushing duration (2-3 minutes) directly on the touchscreen. Press the lower button below the screen to access settings like brush time and battery level.

Pressure Sensor

The built-in pressure sensor warns you if you are brushing too hard, helping to protect your gums and teeth from damage.

Travel Mode

To prevent accidental activation and battery discharge during travel, press and hold the power button to lock the handle into Travel Mode.

Maintenance

Brush Head Replacement

For optimal performance and hygiene, it is recommended to replace your ProFlex brush head every 3 months, or sooner if the bristles become worn.

UV Sanitizing Travel Case

The included UV Sanitizing Charging Travel Case helps keep your brush heads clean. Place the brush heads inside the case and close the magnetic lid. When plugged in, the case will sanitize the brush heads using its UV bulb.

Troubleshooting

Problem	Possible Cause	Solution
Toothbrush not turning on.	Low battery.	Place the toothbrush on the charging dock or in the plugged-in travel case to charge.
App not connecting or buggy.	Bluetooth issue, app bug, or incorrect pairing.	Ensure Bluetooth is enabled on your device. Try restarting the app and toothbrush. Re-attempt pairing. If issues persist, note that all core functions are available directly on the toothbrush.
Touchscreen changes settings accidentally.	Water contact or accidental touch.	Be mindful of water contact with the screen during use. Use Travel Mode to lock the screen when not in use.
Toothbrush feels less effective.	Worn brush head.	Replace the brush head. It is recommended every 3 months.

Specifications

- **Model Number:** Clinical
- **Brand:** Aquasonic
- **Motor:** 50,000 VPM (Vibrations Per Minute)
