4. SETUP INSTRUCTIONS

Follow these steps to connect your Lapcare LUS-006 speakers:

1. **Position the Speakers:** Place the two speaker units on a stable surface, such as a desk or table, ensuring they are positioned for optimal stereo sound.
2. **Connect Audio:** Insert the 3.5mm audio jack into the audio output port of your device (computer, laptop, smartphone, or smart TV).
3. **Connect Power:** Insert the USB-A connector into an available USB port on your device or a USB power adapter (not

included). The speakers will power on and the LED lights will illuminate.

4. **Adjust Volume:** Use the inline volume control to set the desired audio level. You may also need to adjust the volume on your connected device.

5. OPERATING INSTRUCTIONS

Once connected, operating your Lapcare LUS-006 speakers is straightforward:

- **Power On/Off:** The speakers power on automatically when the USB cable is connected to a powered USB port. Disconnect the USB cable to power off.
- **Volume Control:** Use the inline volume control dial located on the cable to increase or decrease the audio output. Turn the dial clockwise to increase volume and counter-clockwise to decrease it.
- **LED Lights:** The 7-color LED lights will automatically cycle through colors when the speakers are powered on. There is no separate control for the LED lighting.
- **Audio Source:** Ensure your connected device's audio output is directed to the speakers. This may require selecting the correct audio output device in your operating system's sound settings.

6. MAINTENANCE

To ensure the longevity and optimal performance of your speakers, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the speakers. Do not use liquid cleaners, aerosols, or solvents.
- **Avoid Moisture:** Keep the speakers away from water, excessive humidity, and liquids.
- **Storage:** When not in use for extended periods, store the speakers in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handle with Care:** Avoid dropping the speakers or subjecting them to strong impacts.

7. TROUBLESHOOTING

If you encounter issues with your Lapcare LUS-006 speakers, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from speakers	<ul style="list-style-type: none"> • USB power not connected or insufficient. • 3.5mm audio jack not fully inserted. • Volume too low on speakers or device. • Incorrect audio output selected on device. 	<ul style="list-style-type: none"> • Ensure USB cable is securely connected to a powered USB port. • Verify the 3.5mm audio jack is fully inserted into the device's audio output. • Increase volume using the inline control and on your connected device. • Check your device's sound settings and select the speakers as the output device.
LED lights not working	<ul style="list-style-type: none"> • Speakers not receiving power. 	<ul style="list-style-type: none"> • Ensure the USB cable is securely connected to a powered USB port. • Try a different USB port or power adapter.
Distorted or poor sound quality	<ul style="list-style-type: none"> • Volume too high, causing clipping. • Loose audio connection. • Interference from other devices. 	<ul style="list-style-type: none"> • Reduce the volume on both the speakers and the connected device. • Check that the 3.5mm audio jack is securely connected. • Move speakers away from other electronic devices that may cause interference.
