Redragon M915-RGB, M910-K

Redragon Gaming Mouse Bundle User Manual

Models: M915-RGB, M910-K

1. INTRODUCTION

This manual provides detailed instructions for the Redragon M915-RGB Ergonomic Gaming Mouse and the Redragon M910-K Gaming Mouse, sold as a bundle. Please read this manual carefully before using your new gaming mice to ensure optimal performance and longevity.

1.1. Package Contents

- Redragon M915-RGB Ergonomic Gaming Mouse
- Redragon M910-K Gaming Mouse
- User Manual (this document)

2. SETUP AND INSTALLATION

2.1. Connecting Your Mouse

1. Locate an available USB port on your computer.
2. Plug the USB connector of the gaming mouse into the USB port.
3. Your operating system will automatically detect and install the necessary drivers. This process may take a few moments.
4. Once installation is complete, the mouse will be ready for use.

2.2. Software Installation (M910-K for advanced features)

For advanced customization, including macro programming, key remapping, and detailed RGB lighting control for the M910-K mouse, it is recommended to install the Redragon software. The M915-RGB mouse also supports software customization.

- Visit the official Redragon website (www.redragonusa.com) to download the latest software for your specific mouse model.

- Follow the on-screen instructions to complete the software installation.
- After installation, launch the software to configure your mouse settings.

3. OPERATING YOUR GAMING MICE

3.1. Redragon M915-RGB Ergonomic Gaming Mouse Features

- **Adjustable DPI:** The M915-RGB features 5 adjustable DPI levels, allowing you to switch sensitivity on the fly. Default levels typically range from 500 to 8000 DPI.
- **High Polling Rate:** Supports up to 1000Hz polling rate for rapid response.
- **Fire Button:** A dedicated fire button (often located near the thumb rest) can be configured to perform multiple clicks with a single press, enhancing gaming performance.

- **PAW3389 Pro Sensor:** Equipped with a high-precision optical sensor for accurate tracking.
- **Customizable RGB Backlighting:** Features 16.8 million colors and 5 RGB backlight modes for personalized aesthetics.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your gaming mice.

4.1. Cleaning

- Disconnect the mouse from your computer before cleaning.
- Use a soft, dry, lint-free cloth to wipe the surface of the mouse.
- For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid excessive moisture.
- Use a cotton swab or compressed air to clean around buttons and crevices.
- Do not use harsh chemicals, abrasive cleaners, or immerse the mouse in water.

4.2. Storage

When not in use, store your mice in a clean, dry environment away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues with your Redragon gaming mice, refer to the following common solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure USB cable is securely plugged in. Try a different USB port. Restart your computer. Reinstall mouse drivers.
DPI settings not changing	Software not installed/configured, incorrect button press.	Ensure you are pressing the correct DPI adjustment buttons. Install and configure the Redragon software to verify DPI settings.
RGB lighting not working or incorrect	Software settings, physical damage.	Check RGB settings in the Redragon software. Try cycling through lighting modes using the mouse's physical buttons (if available). Ensure the mouse is properly connected.
Buttons not programmable	Software not installed, incorrect software version, profile not active.	Install the correct Redragon software for your mouse model. Ensure the desired profile is active in the software. Save changes after programming buttons.

If the problem persists after trying these solutions, please contact Redragon customer support.
