## RUN-CHICKEN F80

# RUN-CHICKEN Feeder F80

AUTOMATIC CHICKEN FEEDER INSTRUCTION MANUAL

## 1. Product Overview

The RUN-CHICKEN Feeder Model F80 is an advanced automatic chicken feeder designed to provide a consistent and secure food supply for your flock. Featuring a large 19.8 lbs (9 kg) capacity, a pest-proof design, and smart control via the RUN-CHICKEN App, it ensures your chickens are fed reliably while minimizing manual intervention. The feeder operates on batteries and includes an automatic light sensor for hands-free operation.

Image 1.1: The RUN-CHICKEN Feeder F80, a gray automatic chicken feeder with a secure hatch.

Image 1.2: The F80 BT feeder in an outdoor environment, demonstrating its integration into a chicken coop setup.

## 2. What's in the Box

Your RUN-CHICKEN Feeder F80 package includes:

- RUN-CHICKEN Feeder F80 Unit
- 2 x AA Alkaline Batteries (pre-installed or included separately)
- Mounting Screws (2 for installation, 25 for assembly)
- Instruction Manual (this document)

## 3. Setup and Installation

### 3.1 Assembly

The feeder requires minor assembly. Use the provided 25 screws to secure the panels as indicated in the assembly diagrams (not provided in this text, refer to physical manual if applicable).

Image 3.1: Assembling the feeder using a power drill for quick setup.

### 3.2 Battery Installation

The F80 Feeder operates on two AA alkaline batteries. Ensure they are correctly inserted into the battery compartment. It is recommended to replace batteries once a year, especially before winter, for optimal performance.

# BATTERY-POWERED

One Year Battery Lifetime

2 X AA ALKALINE BATTERIES INCLUDED

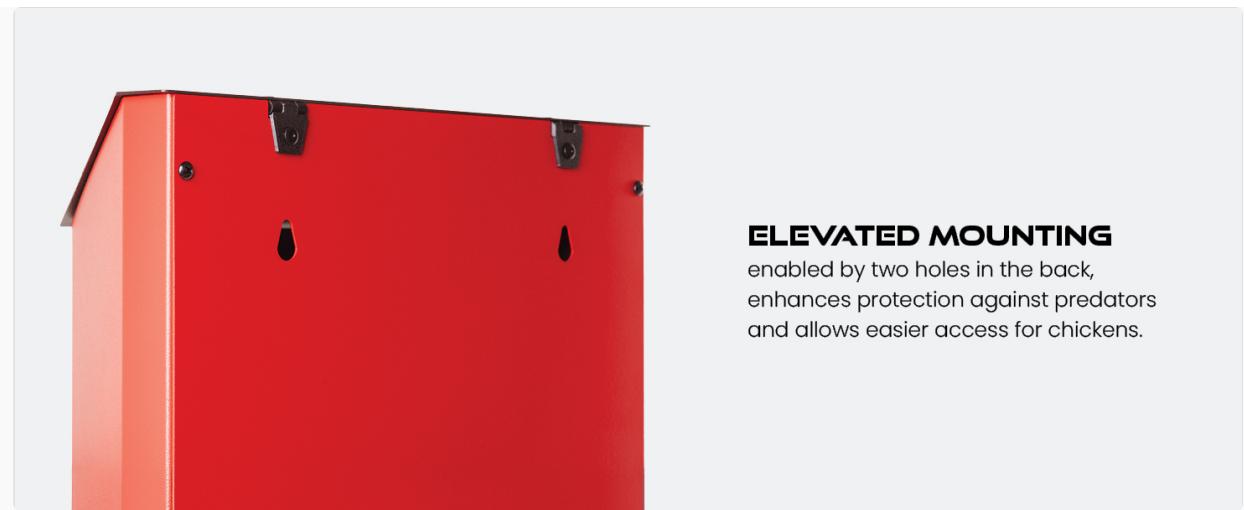

Image 3.2: Installing the AA batteries into the feeder's power unit.

### 3.3 Mounting Options

The lightweight feeder can be mounted on a wall, fence, or stand. It is recommended to mount the feeder approximately 4 inches (10 cm) above the ground to ensure easy access for chickens and to deter pests. Two screws are provided for secure setup.

Image 3.3: The feeder mounted at an appropriate height for chickens.

#### **ELEVATED MOUNTING**

enabled by two holes in the back,  
enhances protection against predators  
and allows easier access for chickens.

Image 3.4: Rear view of the feeder highlighting the elevated mounting points.

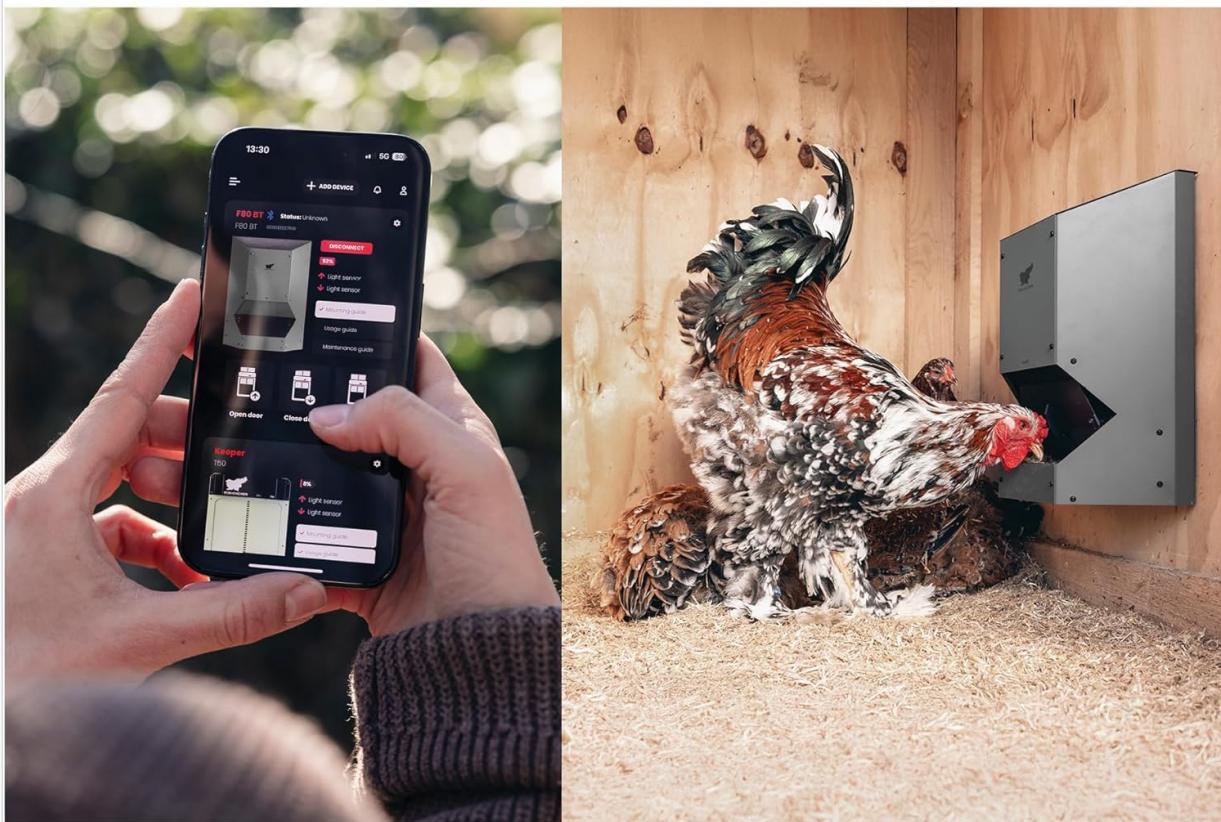

### **3.4 App Installation and Connection**

Download the RUN-CHICKEN App to control your feeder. The app allows you to program feeding times, receive updates, and manage settings via Bluetooth within a 15-meter range.

- For Android devices: [Download on Google Play](#)
- For iOS devices: [Download on the App Store](#)

# BLUETOOTH CONTROL

Customize Your Feeder Settings with Ease

PROGRAMMING VIA APP

RANGE UP TO 30FT / 10M

MANUAL OPENING/CLOSING

Image 3.5: Controlling the feeder settings via the RUN-CHICKEN mobile application.

## 4. Operating Instructions

### 4.1 Filling the Feeder

The F80 Feeder has a large capacity of 19.8 lbs (9 kg), reducing the frequency of refills. Open the top lid and pour the chicken feed into the reservoir. Ensure the lid is securely closed after filling to maintain freshness and deter pests.

### LARGE CAPACITY

With a 19.8 lbs capacity, the F80 keeps chickens fed longer and reduces refill frequency.

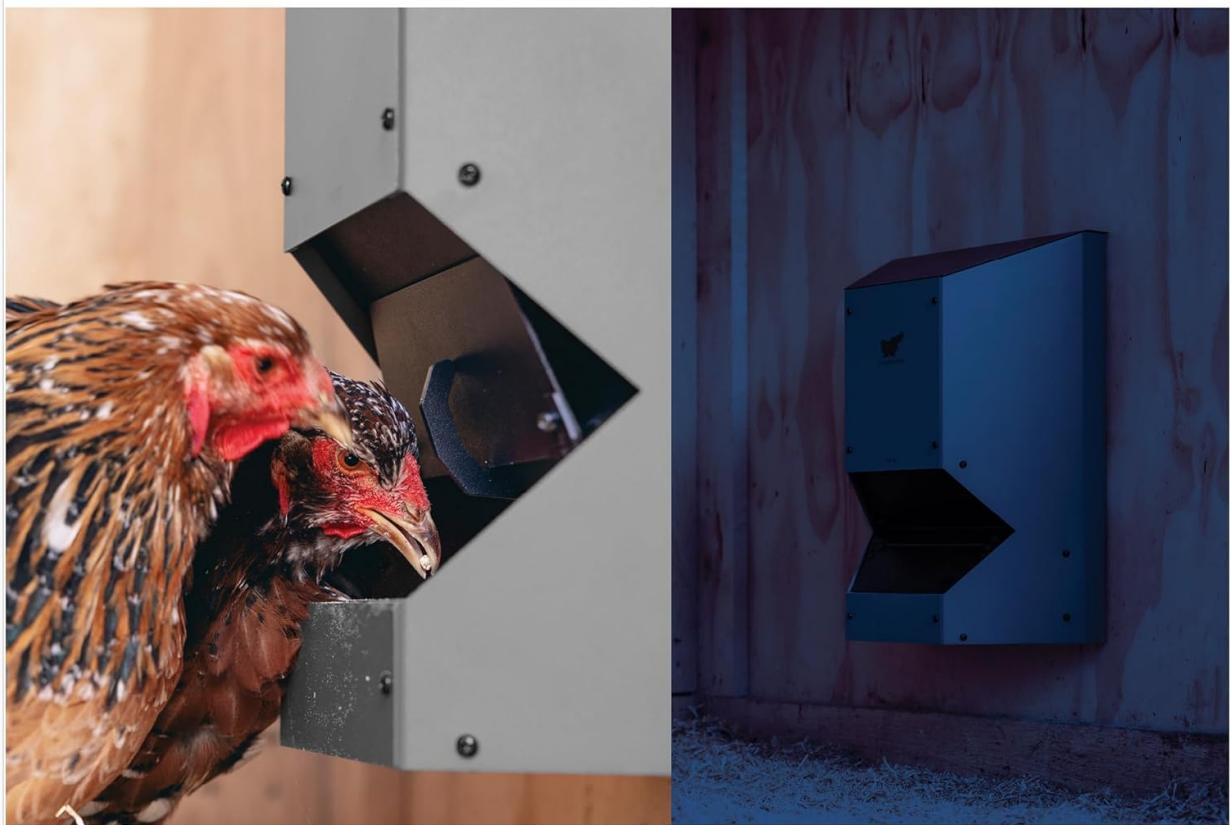

Image 4.1: Refilling the feeder with chicken feed.

#### 4.2 Automatic Operation (Light Sensor)

The F80 Feeder features a smart light sensor that automates the opening and closing of the protective lid. The lid opens approximately 20 minutes after sunrise and closes 20 minutes after sunset. This hands-free operation keeps feed fresh and safe from pests.

## AUTO-OPENING/CLOSING

Timed Feeding for Safe, Pest-Free Nights

PEST-PROOF

SECURE CLOSING MECHANISM

ELEVATED WALL MOUNTING (2 screws included)

Image 4.2: Day and night operation of the automatic feeder hatch.

#### 4.3 App Control and Programming

Use the RUN-CHICKEN App to customize your feeder's schedule and settings. You can program specific opening and closing times, use a GPS-based timer that adapts to sunrise/sunset, or manually open/close the feeder. The app provides real-time control and flexibility.

Image 4.3: The RUN-CHICKEN app interface for controlling feeder operations.

Image 4.4: Remote control of the feeder via the app from up to 30 feet away.

### GPS-BASED TIMER

Set up location-based automation that adapts with the seasons. Let your feeder follow the rhythm of the sun.

### CUSTOM TIMER

Take full control with personalized timing—set daily opening and closing times to match your flock's routine.

### REMOTE CONTROL

Easily open and close the feeder remotely—no need to step into the coop, get your boots dirty, or disturb your calm, happy flock.

Image 4.5: App features including GPS-based timing, custom timers, and remote control.

## 5. Maintenance

### 5.1 Cleaning

The F80 Feeder is designed for low maintenance and easy cleaning. Wipe down the feeder with a cloth and running water to prevent bacterial growth. Ensure the feeder is fully dry before refilling with feed to maintain optimal hygiene.

# USER-FRIENDLY DESIGN

Durable Build for Long-Term Performance

ALUMINUM BUILD

EASY ASSEMBLY (25 screws included)

EFFORTLESS CLEANING

Image 5.1: Cleaning the feeder with water for easy maintenance.

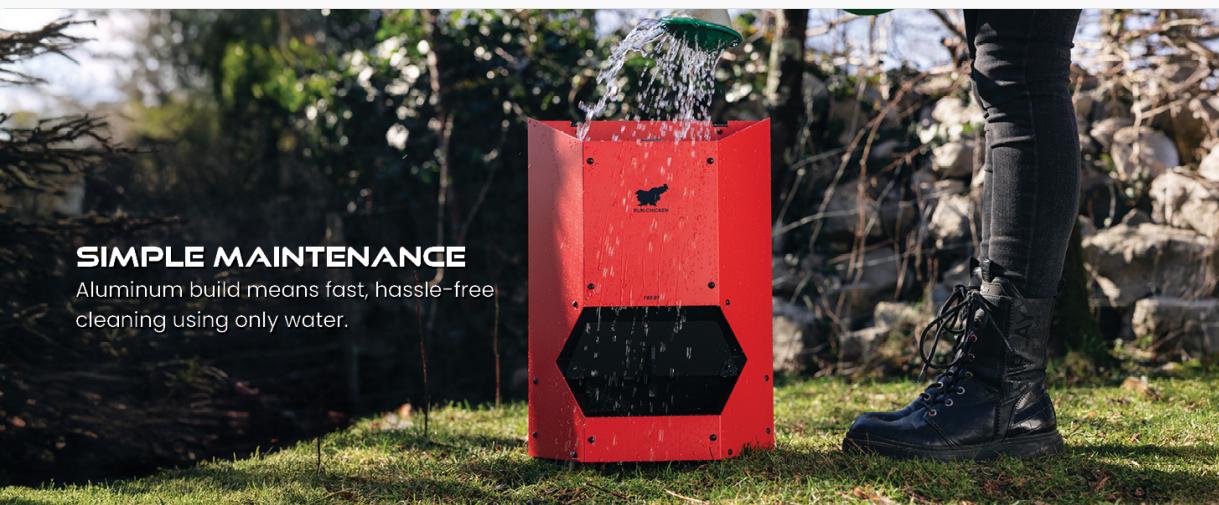

Image 5.2: Simple cleaning of the aluminum feeder with water.

## 5.2 Battery Replacement

Replace the two AA alkaline batteries annually, or as needed, to ensure continuous and reliable operation, especially before colder seasons.

## 6. Troubleshooting

If you encounter any issues with your RUN-CHICKEN Feeder F80, consider the following:

- **Feeder not opening/closing:** Check battery levels and replace if necessary. Ensure there are no obstructions preventing the hatch from moving freely. Verify app settings and Bluetooth connection.
- **App connectivity issues:** Ensure your smartphone is within the 15-meter Bluetooth range of the feeder. Restart the app and/or your phone's Bluetooth.
- **Pest intrusion:** Confirm the feeder is mounted at the recommended height (approx. 4 inches above ground). Ensure the magnetic lid is fully closed and the automated hatch is functioning correctly.

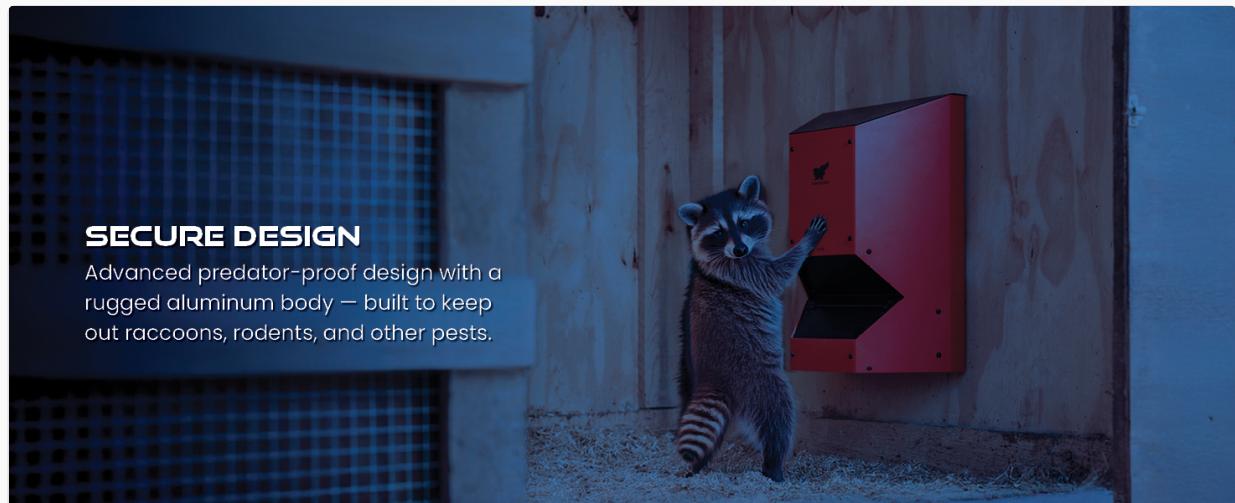

Image 6.1: The feeder's secure design deters pests like raccoons.

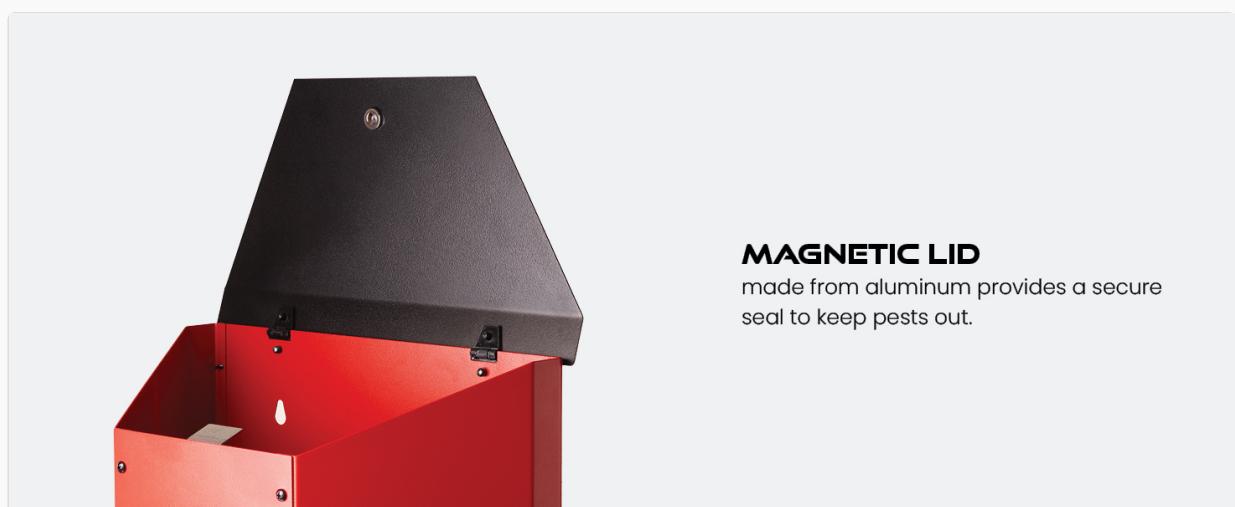

Image 6.2: The magnetic lid provides a secure seal against pests.

### **AUTOMATED HATCH**

is designed to prevent raccoons from opening it, with no buttons to push.

Image 6.3: The automated hatch is designed to prevent raccoons from opening it.

## **7. Specifications**
