1. INTRODUCTION

Thank you for choosing Vloee Rechargeable RGBW Puck Lights. These versatile lights are designed to provide convenient and customizable illumination for various indoor spaces. Featuring a built-in rechargeable battery, remote control, and multiple color and brightness settings, they offer an efficient and flexible lighting solution.

2. IMPORTANT SAFETY INFORMATION

- Read all instructions before use and retain for future reference.
- This product is intended for indoor use only. Do not expose to water or high humidity.
- Do not attempt to disassemble, repair, or modify the device. This will void the warranty.
- Keep out of reach of children and pets.
- Use only the provided USB-C charging cable.
- Avoid direct eye exposure to the light source when at maximum brightness.

3. WHAT'S IN THE BOX

The Vloee Rechargeable RGBW Puck Lights package includes the following components:

- 4 x Vloee Rechargeable Puck Lights
- 1 x Remote Control
- Mounting Hardware (adhesive metal discs)
- 2 x USB-C Charging Cables (each with 3 USB-C connectors)
- 1 x Instruction Manual

Figure 1: Package Contents

The image displays the Vloee Rechargeable Puck Lights kit, showing four black puck lights, a white remote control, and two multi-head USB-C charging cables, all neatly arranged in their packaging.

4. SETUP

4.1 Charging the Puck Lights

Before initial use, fully charge all puck lights. Each light has a built-in 2400mAh lithium battery.

1. Locate the USB-C charging port on the side of each puck light.
2. Connect one of the provided USB-C cables to the puck light and the other end to a standard USB power adapter (not included).
3. A red indicator light will illuminate during charging and turn green when fully charged.
4. Charging typically takes approximately 3 hours for a full charge.

3S Install: Peel & Stick

Damage-free. Renter friendly.

Figure 2: Battery and Charging Information

This image highlights the 2400mAh battery, indicating 12 hours of usage at maximum brightness and a 3-hour charging time. It also shows a puck light connected to a multi-head USB-C charging cable.

4.2 Installation

The Vloee puck lights offer two easy installation methods:

1. **Magnetic Attachment:** The puck lights have strong built-in magnets. Simply attach them directly to any iron or magnetic surface.
2. **Adhesive Mounting:** For non-magnetic surfaces, use the provided adhesive metal discs. Peel off the protective film from one side of the metal disc and firmly press it onto your desired clean, dry surface. Then, attach the puck light magnetically to the metal disc.

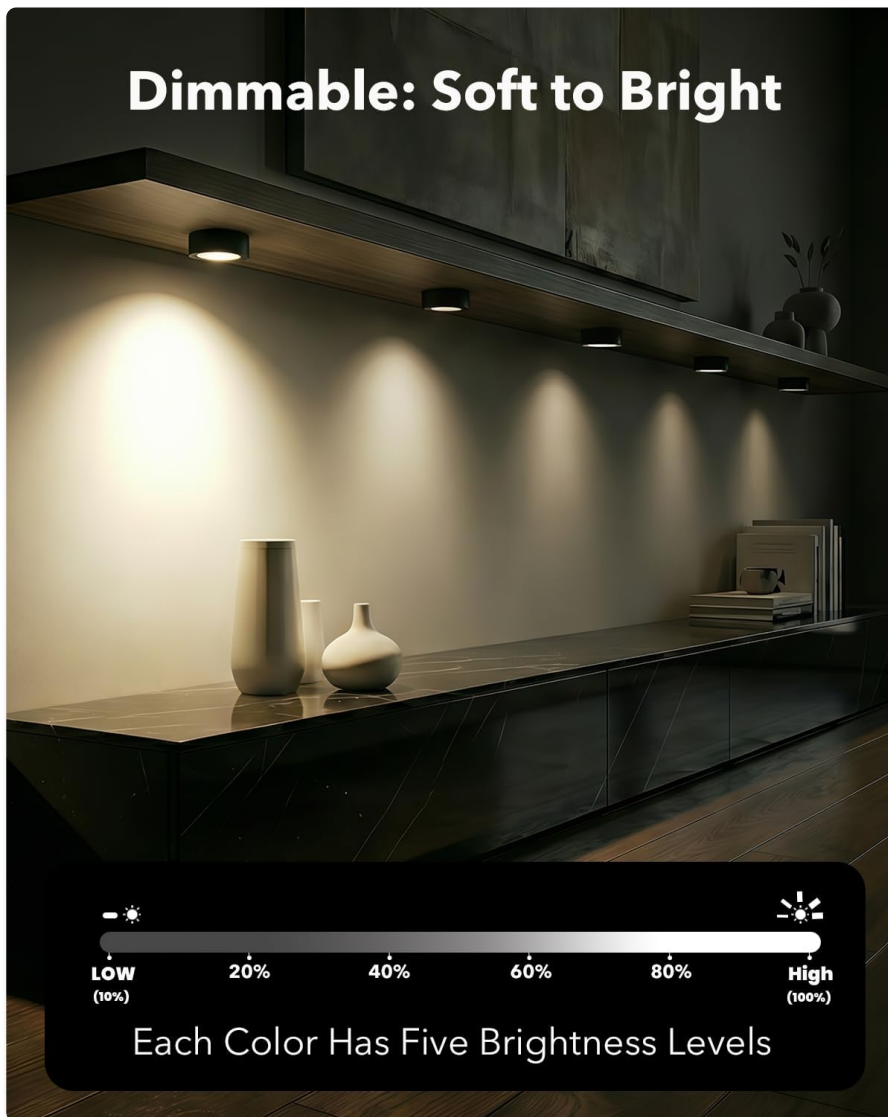

Figure 3: Adhesive Installation Steps

The image illustrates the three steps for installing the puck light on a non-magnetic surface: peeling the adhesive from the metal disc, sticking the disc to the surface, and then magnetically attaching the puck light to the disc. Product dimensions are also shown.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Basic Control

The puck lights can be controlled via touch or the remote control.

- **Touch Control:** Tap the center lens of the light to turn it on/off or cycle through Warm, Red, Green, and Blue colors.
- **Remote Control:** Use the 'ON' and 'OFF' buttons on the remote to power the lights. Ensure the remote is pointed directly at the light's sensor for optimal response.

Uninterrupted Shower Spa

Rechargeable 2400mAh = Big Savings.

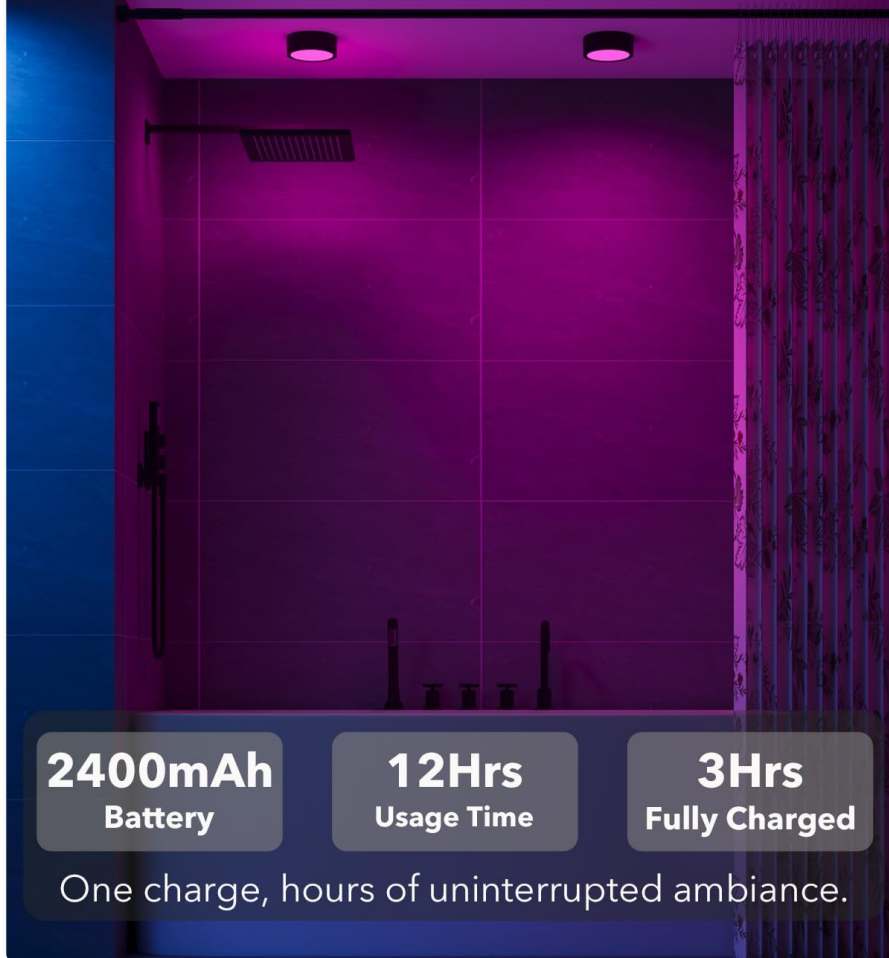

Figure 4: Dual Control Options

This image shows two methods of controlling the puck lights: a finger tapping the light for direct control and a remote control being used to operate the light from a distance.

5.2 Color Changing Modes

The lights offer 13 vibrant colors and 2 dynamic RGB modes.

- **Preset Colors:** Use the color buttons on the remote to select from 13 available preset colors (e.g., Red, Green, Blue, Yellow, Purple, etc.).
- **Dynamic Modes:**
 - **SMOOTH Mode:** Press the 'SMOOTH' button on the remote for a seamless transition through all 13 rainbow colors.
 - **FADE Mode:** Press the 'FADE' button for a soft pulsation of a single color.

Dual Control: Remote & Tap

Easy reach for high shelves.

Figure 5: 12 RGB Vivid Colors

The image showcases various display shelves, each illuminated by a puck light set to a different vibrant color, demonstrating the wide range of RGB options available.

5.3 Brightness Adjustment

Adjust the light intensity to suit your needs.

- **Touch Control:** Long press the center lens of the puck light to cycle through brightness levels.
- **Remote Control:** Use the '+' and '-' buttons on the remote to increase or decrease brightness. Dedicated '50%' and '100%' buttons are also available for quick adjustments. The lights feature a memory function that retains your last brightness setting.

Figure 6: Dimmable Functionality

This image displays puck lights illuminating a shelf, with a visual scale indicating five brightness levels from 10% (Low) to 100% (High), demonstrating the dimmable feature.

5.4 Timer Function

Set the lights to automatically turn off after a specified period.

- Use the timer buttons on the remote control to set the lights to turn off after 30 or 60 minutes. This feature helps conserve battery life and provides convenience.

6. MAINTENANCE

6.1 Cleaning

To clean the puck lights, gently wipe the surface with a soft, dry cloth. Do not use abrasive cleaners or immerse the lights in water.

6.2 Battery Care

- Recharge the lights when the brightness appears dim or they stop working.
- Avoid completely draining the battery frequently to prolong its lifespan.
- If storing the lights for an extended period, charge them fully every 3-6 months.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Low battery.	Charge the puck light fully.

Problem	Possible Cause	Solution
	Power switch is off.	Ensure the power switch on the light is in the 'ON' position.
Remote control not working.	Remote battery is dead.	Replace the remote control battery (CR2025, included).
	Remote not pointed correctly.	Point the remote directly at the light's sensor.
Light falls off surface.	Adhesive not strong enough or surface not clean.	Ensure surface is clean and dry before applying adhesive disc. Replace adhesive disc if necessary.

8. SPECIFICATIONS

Feature	Detail
Brand	Vloee
Model Name	VL-CGD-BQ
Color	RGBW
Material	Acrylonitrile Butadiene Styrene
Light Fixture Form	Puck
Product Dimensions	2.95"L x 2.95"W x 1.1"H
Power Source	Rechargeable (2400mAh battery)
Light Source Type	LED
Brightness	100 Lumens (Max)
Wattage	1.2 watts
Voltage	5 Volts
Control Method	Push Button, Remote Control
Special Features	Adjustable Color Temperature, Color Changing, Dimmable, Portable, Timer
Indoor/Outdoor Usage	Indoor
Water Resistance Level	Not Water Resistant
Connectivity Protocol	Infrared
Item Weight	1.26 pounds (for 4-pack)
