STANLEY 10-11344-005

Stanley Classic Legendary Vacuum Bottle

MODEL: 10-11344-005

1. Product Overview

The Stanley Classic Legendary Vacuum Bottle is a robust and reliable insulated container, built to withstand demanding conditions while maintaining the temperature of your beverages. Crafted from durable stainless steel, it is designed for long-lasting performance, whether you're on a road trip, at work, or enjoying outdoor activities.

Figure 1: Stanley Classic Legendary Vacuum Bottle (Hammertone Lake)

2. Key Features

- **Superior Temperature Retention:** Designed with vacuum insulation, this bottle keeps liquids hot or cold for up to 24 hours.
- **Durable Construction:** Made with rust-proof 18/8 stainless steel, ensuring it can withstand rigorous use without compromising performance.
- **Multi-Purpose Lid:** The leak-resistant lid also functions as an eight-ounce cup, providing convenience for on-the-go consumption.
- **Wide Mouth Opening:** Facilitates easy filling, pouring, and cleaning.
- **Collapsible Handle:** Allows for easy transport and compact storage.
- **BPA-Free Materials:** Ensures the safety of your beverages.

3. Setup and First Use

Before first use, and after each use, thoroughly clean all parts of the bottle. Disassemble the bottle as shown

in Figure 2.

Figure 2: Bottle Components (Lid, Stopper, Bottle)

1. Unscrew the outer cup lid.
2. Unscrew the inner plastic stopper.
3. Wash the bottle, cup lid, and stopper with warm, soapy water. Rinse thoroughly.
4. For best temperature retention, pre-heat or pre-cool the bottle:
 - For hot beverages: Fill with hot water for 5 minutes, then empty.
 - For cold beverages: Fill with cold water or ice for 5 minutes, then empty.
5. Fill the bottle with your desired beverage. Do not overfill.
6. Securely screw the inner stopper back into place, then screw on the outer cup lid.

4. Operating Instructions

Using your Stanley Classic Legendary Vacuum Bottle is straightforward:

- **Pouring:** To pour, simply unscrew the outer cup lid. The inner stopper can be partially unscrewed to allow pouring without full removal, or fully removed for wider access.
- **Using the Cup Lid:** The outer lid is designed to serve as an eight-ounce drinking cup. Pour your beverage directly into the cup for convenient consumption.

Figure 3: Pouring and Using the Cup Lid

Ensure the stopper and lid are tightly secured after each use to maintain temperature and prevent leaks.

5. Maintenance and Care

Proper care will extend the life of your Stanley Vacuum Bottle:

- **Cleaning:** Hand wash only. Do not use abrasive cleaners or scrubbers. For thorough cleaning, use a bottle brush.
- **Drying:** Allow all parts to dry completely before reassembling and storing to prevent odors and mildew.
- **Storage:** Store with the stopper and lid removed to allow air circulation.
- **Avoid:** Do not microwave, freeze, or place in the oven. Do not use bleach or chlorine-based cleaners.

6. Troubleshooting

If you encounter issues with your bottle, consider the following:

- **Temperature Loss:** Ensure the stopper and lid are tightly sealed. Pre-heating or pre-cooling the bottle before filling can significantly improve temperature retention.
- **Leaking:** Check that the stopper and lid are correctly aligned and fully tightened. Inspect the silicone seals on the stopper for any damage or wear.
- **Unpleasant Odor:** Thoroughly clean the bottle with warm, soapy water and a small amount of baking soda. Rinse well and allow to air dry completely.

7. Specifications

Brand	STANLEY
Model Name	10-11344-005
Capacity	1.1 Quarts (35.2 Ounces)
Color	Hammertone Lake
Material	Stainless Steel
Item Weight	1.81 pounds
Special Features	Leakproof, Double Wall Insulation
Included Components	Insulated lid (doubles as cup), Plastic Stopper, Vacuum Bottle
Product Care Instructions	Hand Wash Only
