

Veeconn YP-007P

Veeconn 4-in-1 Pet Grooming Clippers Kit User Manual

Model: YP-007P | Brand: Veeconn

INTRODUCTION

The Veeconn 4-in-1 Pet Grooming Clippers Kit is designed to provide a comprehensive and gentle grooming experience for your pets. This multifunctional tool includes four interchangeable cutter heads: a standard cutter head for general body trimming, a narrow cutter head for delicate areas like ears and paws, a small detail cutter head for intricate spots, and a nail grinder head for smoothing claws. Engineered for low noise and vibration, it aims to reduce pet anxiety during grooming. This manual provides essential information for the safe and effective use and maintenance of your grooming kit.

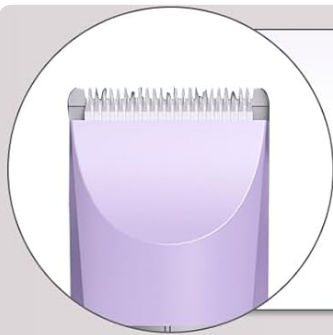

PRODUCT COMPONENTS

Your Veeconn Pet Grooming Clippers Kit includes the following items:

- Main Clipper Body (Purple)
- Standard Cutter Head (32mm / 1 1/2")
- Narrow Cutter Head (20mm / 3/4")
- Small Detail Cutter Head (10mm / 3/8")
- Nail Grinder Head
- USB Charging Cable

SETUP

1. Initial Charging

Before the first use, fully charge the device for 5 hours. The clipper can be used both cordless and corded. The convenient USB charging design allows for flexible charging via a wall adapter, laptop, power bank, or computer.

100% Waterproof Design

Clean Directly Under Running Water
Remove the Head for Cleaning

2. Attaching Cutter Heads

Select the appropriate cutter head for the grooming task. Align the chosen head with the main clipper body and gently push until it clicks securely into place. To remove, pull the head away from the body.

OPERATING INSTRUCTIONS

General Grooming Tips

- Ensure your pet's hair is clean, dry, and free of mats and tangles before grooming. For long or thick hair, it is recommended to use scissors to cut it shorter first, then comb the hair to prevent the clippers from jamming.
- The clippers operate at approximately 46 dB, providing a low-noise and low-vibration experience to minimize pet stress.

- Hold the clipper firmly and move it smoothly against the direction of hair growth for effective trimming.

Bathe Your Dog First To Keep Clean And Undirty All Over

Blow Dry Your Pet's Hair

Use A Comb To mooth The Hair First,Remove Dead Knots And Tangles

Shave Dog Hair With The Dog Grooming kit

Image: A four-step guide illustrating the recommended grooming process: 1. Bathe your dog, 2. Blow dry its hair, 3. Comb to remove knots, and 4. Shave with the grooming kit.

Using the Cutter Heads

- **Standard Cutter Head:** Ideal for full-body hair clipping on small and medium dogs or cats. Attach the desired guide comb (1mm, 2mm, 3-6mm, or 9-12mm) to control hair length.
- **Narrow Cutter Head:** Use for trimming around ear sockets, legs, and other areas requiring precision.
- **Small Detail Cutter Head:** Perfect for intricate areas such as around claws, hips, and the canthus (corner of the eye).
- **Nail Grinder Head:** Gently grind your pet's nails to smooth them and prevent scratching. Ensure your pet is comfortable and introduce the grinder slowly.

MAINTENANCE

Cleaning the Clippers

The head part of the clippers can be removed for easy cleaning. The device features an IPX7 full-body waterproof design, allowing for direct cleaning under running water. This ensures convenient and fast maintenance.

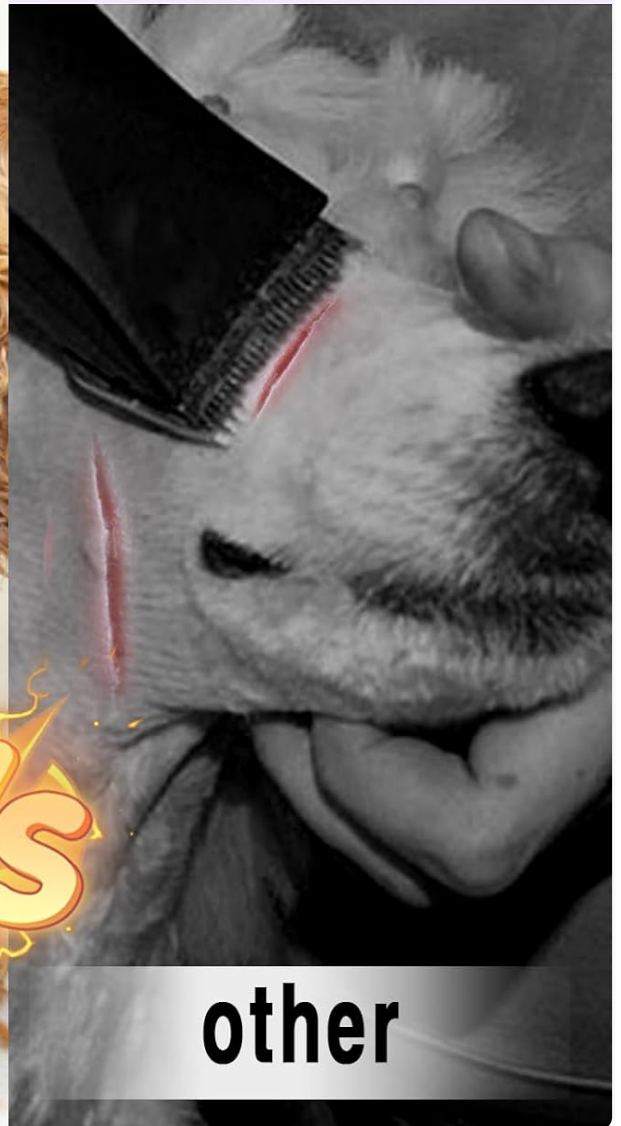

1. After use, detach the cutter head from the main body.
2. Use the provided cleaning brush to remove any trapped hair from the blades.
3. Rinse the cutter head under running water to thoroughly clean it.
4. Wipe the head and main body clean with a soft cloth.
5. Apply a drop of blade oil to the blades for optimal performance and longevity.

Maintenance Before and After Use

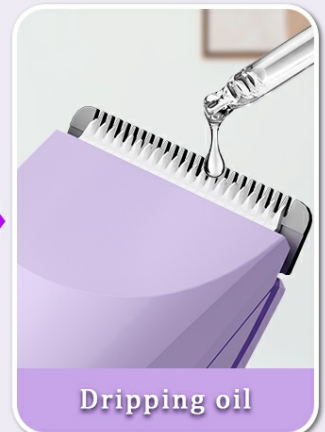

Image: A four-step visual guide for maintenance: 1. Clean hair with a brush, 2. Rinse under the faucet, 3. Wipe clean, and 4. Apply dripping oil to the blades.

TROUBLESHOOTING

Clippers Jamming

If your pet has long and thick hair, the clippers may jam or not work properly. To prevent this, it is crucial to use scissors to cut the hair shorter first, and then comb the hair thoroughly before using the clippers. This ensures a smooth and efficient grooming process.
