Figure 1: Packaging Details and Included Components

This image displays all parts included in the SR SUN RISE shower system package, such as the handheld shower head, overhead shower head with bracket, shower hose, rough-in valve, plate, handle, tub spout, brass adapter, shower arm with flange, installation manual, and necessary accessories for installation.

- Handheld Shower Head
- Overhead Shower Head with Bracket
- Rough-in Valve and Trims
- Shower Hose and Shower Arm with Flange
- Tub Spout with Brass Adapter
- Installation Manual
- Accessories required for installation (e.g., plumber's tape, gloves, screws)

SETUP AND INSTALLATION

This SR SUN RISE 4-way tub shower faucet includes a shower valve and cartridge. **Important: This 4-way faucet set is not compatible with other brands' valves. If your current valve is not a SR SUN RISE valve, it must be**

replaced with the valve included in this set. Please consult a qualified plumber before purchasing or attempting installation.

NOTICE:

Single handle design quantity shower
combo FITS remodeled your bathroom
or new construction

This product contains valves, you must
use our **SR SUN RISE** valves when
installing this shower, it is not compatible
with other brands of valves.

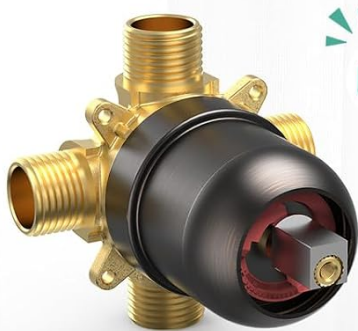

Figure 2: Valve Compatibility Notice

This image highlights the critical requirement to use only the included SR SUN RISE valve with this shower system, as it is not compatible with other brands' valves.

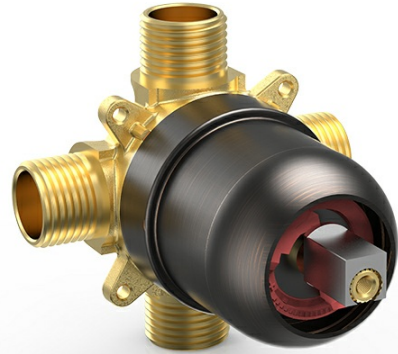

The pressure balance valve features built-in dual check valves to effectively eliminate water hammer noise and monitor water pressure balance, protecting against sudden changes in water temperature.

cUPC
certification

Certified by IAPMO authority in 2021 (Reg No:12900)

The pressure balance valve maintains the balance between water pressure and water temperature.

Pressure Balance Valve Included

Figure 3: Pressure Balance Valve

This image shows the pressure balance valve, which helps maintain consistent water temperature and pressure.

The included SR SUN RISE Pressure-Balanced Valve Cartridge (cUPC certified by US official IAPMO, Reg No:12900) protects you from sudden changes in the pressure of cold or hot water when showering.

The SR SUNRISE Pressure-Balanced Valve Cartridge (included) protects you to sudden changes in the pressure of cold or hot water when showering.

This image displays the valve cartridge, which is cUPC certified for safety and performance.

For detailed step-by-step installation instructions, please refer to the dedicated Installation Manual included in your package.

OPERATING INSTRUCTIONS

Your SR SUN RISE shower system offers a versatile showering experience with multiple spray patterns and a convenient 3-way diverter.

Temperature and Flow Control

HOW TO TURN ON THE SHOWER OUTLET

Figure 5: Handle Operation for Temperature and Flow

This image illustrates how to use the single handle to control both water temperature (rotating left for cold, right for hot) and water flow (lifting to open, pressing to close).

The single handle allows for easy control of both water temperature and volume. Rotate the handle to the left for colder water and to the right for hotter water. Lift the handle to open the water flow and press it down to close.

Shower Head Modes and Diverter

Choose from 35 full and combined water flow patterns using the luxurious 6-settings overhead shower head and 6-settings handheld shower. Each shower features an oversized 4.375-inch large face with a click lever dial and rub-clean jets. Settings include Power Rain, Massage, Stay-Warm Mist, Water-saving Economy Rain, and Pause.

Figure 6: 6 Spray Settings

This image displays the six distinct spray settings: Spray, Mist, Spray + Jet, Massage, Jet, and Water Save, offering a variety of showering experiences.

The overhead shower head includes a patented 3-way water diverter with an anti-swivel lock nut. An angle-adjustable overhead bracket allows you to flexibly adjust the angle of the handheld shower holder within 180 degrees. The shower angle can be easily adjusted to suit children and adults.

Figure 7: 3-Way Diverter Operation

This image demonstrates how to use the diverter switch to select between the overhead shower head, the handheld shower head, or both simultaneously.

Tub Spout Operation

METAL TUB-SPOUT WITH DIVERTER

One-Diverter Knob Switch, Easy to Operate, Very Convenient

Figure 8: Metal Tub Spout with Diverter

This image illustrates the operation of the tub spout: press the knob to dispense water into the tub, and lift the knob to close the tub spout and divert water to the shower heads.

The metal tub spout features a single-knob diverter for easy and convenient operation. Press the knob to dispense water into the tub, and lift the knob to close the tub spout and divert water to the shower heads.

MAINTENANCE

To ensure the longevity and optimal performance of your SR SUN RISE shower system, regular cleaning is recommended.

- **Cleaning the Jets:** The shower heads feature rub-clean jets. Simply rub the silicone nozzles with your finger or a soft cloth to remove any mineral buildup.
- **Cleaning the Finish:** For the Oil Rubbed Bronze finish, use a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Valve Maintenance:** Periodically check the valve and connections for any leaks. If you notice any issues, refer to the troubleshooting section or contact customer support.

TROUBLESHOOTING

If you encounter any issues with your shower system, please refer to the following common solutions:

- **Water Hammer Noise:** This pressure balance valve has built-in two check valves to effectively eliminate water hammer noise. If water hammer persists, ensure proper installation and check for any loose pipes in your plumbing system.
- **Sudden Temperature Changes:** The pressure balance valve's cartridge monitors water pressure balance, helping to protect you from being scalded by sudden changes in hot or cold water pressure. If you experience frequent temperature fluctuations, the cartridge may need inspection or replacement.
- **Low Water Pressure:** Check if the shower head jets are clogged (refer to Maintenance). Ensure your main water supply is fully open.
- **Leaks:** Verify all connections are tightened properly. Use plumber's tape on threaded connections during installation to prevent leaks.

If the problem persists, please contact SR SUN RISE customer support.

SPECIFICATIONS

Feature	Detail
Brand	SR SUN RISE
Model Number	SRSH-FXSORB
Color	Oil Rubbed Bronze
Material	Acrylonitrile Butadiene Styrene (ABS), Stainless Steel
Number of Handles	1
Mounting Type	Wall Mount
