## Showtime B0CM56L6RR

# Dexter (Complete Series) / Dexter: New Blood (Complete Series)

## 39-DVD BOX SET USER MANUAL

### 1. Introduction

This manual provides essential information for the proper setup, operation, and maintenance of your Dexter (Complete Series) and Dexter: New Blood (Complete Series) 39-DVD Box Set. This product is a Region 2, PAL format import from France. Please read this manual carefully to ensure optimal viewing experience and longevity of your discs.

Image 1.1: Front cover of the Dexter (Complete Series) / Dexter: New Blood (Complete Series) 39-DVD Box Set. The cover features a split image of Dexter Morgan, with 'Dexter The Complete Series' on the left and 'Dexter New Blood' on the right, indicating the comprehensive nature of the collection.

### 2. Setup

To begin enjoying your DVD set, follow these steps:

1. **Unboxing:** Carefully remove all 39 discs and their cases from the box set packaging. Inspect discs for

any visible damage.

- 2. Required Equipment:** This DVD set is in PAL format and Region 2. To play these discs in regions like North America (NTSC, Region 1), you will need a *multi-region PAL/NTSC compatible DVD player*. Standard US DVD players will not play these discs.
- 3. Connecting Your DVD Player:** Ensure your multi-region DVD player is correctly connected to your television or display device according to its own instruction manual. Typically, this involves HDMI, RCA, or component cables.

### 3. Operating Instructions

---

Once your setup is complete, you can begin playback:

- 1. Inserting Discs:** Gently insert the desired DVD into your multi-region DVD player with the label side facing up.
- 2. Navigating Menus:** Upon disc insertion, the main menu should appear. Use your DVD player's remote control (arrow keys, ENTER/OK button) to navigate through options such as 'Play Episode', 'Scene Selection', 'Languages', and 'Special Features'.
- 3. Language and Subtitle Selection:** This box set includes multiple language options (English, French, German, Italian, Spanish) and subtitles (Dutch, English, French, German, Italian). Access these options from the main menu or during playback via your remote's 'Audio' or 'Subtitle' buttons.
- 4. Playback Controls:** Use standard DVD remote controls for playback functions: Play, Pause, Stop, Fast Forward, Rewind, Skip Chapter, and Volume.

### 4. Maintenance and Care

---

Proper care of your DVD discs will ensure their longevity and continued performance:

- **Handling Discs:** Always hold discs by their edges or by placing a finger through the center hole. Avoid touching the shiny playback surface to prevent fingerprints and scratches.
- **Cleaning Discs:** If a disc becomes dirty, gently wipe it with a soft, lint-free cloth from the center outwards. Do not use abrasive materials or harsh chemical cleaners. For stubborn smudges, a slightly damp cloth with water can be used, followed by immediate drying with a clean, dry cloth.
- **Storage:** Store discs in their original cases, away from direct sunlight, extreme temperatures, and high humidity. Keep cases upright to prevent warping.

### 5. Troubleshooting

---

If you encounter issues, refer to the following common problems and solutions:

- **Disc Not Playing / 'Wrong Region' Error:**  
*Solution:* Ensure you are using a multi-region PAL/NTSC compatible DVD player. Standard Region 1 (NTSC) players will not play these discs. Verify the disc is clean and free of scratches.
- **No Audio or Video During Playback:**  
*Solution:* Check all cable connections between your DVD player and TV. Ensure your TV input is set to the correct source. Verify the disc is clean. Try another disc to determine if the issue is with the player or the specific disc.
- **Skipping or Freezing Playback:**  
*Solution:* Clean the disc thoroughly. Inspect the disc for deep scratches or damage. If the issue persists across multiple discs, your DVD player's lens may need cleaning or servicing.

- **Incorrect Language or Subtitles:**

*Solution:* Access the language/subtitle menu on the DVD or use your remote's dedicated buttons to select the desired audio track or subtitle option.
